

USA Survival – A Matter of Priorities

By Lex Greene

November 13, 2023

America is by far the most diverse nation anywhere in the world. Our society is made up of people from all over the globe who, in one generation or another, came to America in search of freedom, liberty, equal justice, peace, and prosperity.

So, it should come as no surprise to anyone that our political opinions and policy views are as diverse as society itself. We all have individual hopes and dreams, for ourselves and our loved ones. For over two-hundred years in the USA, we all had the freedom and liberty to pursue those individual hopes and dreams, largely without any interference from anyone, including government.

Those days are gone, at least for now... and it's all a result of wrong priorities. Previous generations made huge sacrifices to make it possible for us to enjoy the many blessings of freedom and liberty. All gave some, and some gave all. But that isn't who we are anymore as a people...

DANGEROUS MODERN PRIORITIES

1. SELF – A majority of today's Americans are entirely self-centered in their individual personal priorities. Most don't care how their priorities impact anyone else, or even everyone else. Most do not even consider how their personal desires negatively impact the entire

country and the future of freedom for all.

2. MONEY – While money itself is not the “root of all evil,” the “love of money” most certainly is. If making money is your only priority in life, and you love money more than anything else, that is indeed, “the root of all evil.” Politicians do it, but so do voters. Criminals do it, but so do average people who will do things for money that they otherwise wouldn’t do.
3. FEELINGS – Acting or reacting on the basis of feelings instead of facts, often in direct conflict with the facts, will cause bad decisions every single time. We all have feelings, sometimes justified, sometimes not. But facts are supposed to drive our decisions, not feelings.

I’ll stop here for now, because a detailed list could go on forever, and everything on that list will be the result of the top three things above. These three things are the driving force behind the opinions and decisions of most Americans today. Many believe that truth is subjective, in the mind of the beholder. They believe this simply because truth is driven by their selfish desires based upon their feelings, often also driven by their “love of money,” what they think they are “entitled to.”

Under these basic priorities, the entire country is doomed to failure. What’s best for freedom, liberty, equal justice, peace, and prosperity for ALL, isn’t even a consideration. As a result, the most important things of all fall far down the list of voter priorities and in the end, they fall off of the list of priorities altogether.

BAD PRIORITIES RESULT IN BAD POLICIES

As we head into the 2024 election cycle, on the heels of a disastrous off-year election just a few days ago, here’s what we know about voting trends. A growing majority of voters are now single-issue voters.

- 35% of female voters say they won't even consider voting for someone who does not share their views on abortion. This finding includes nearly half (46%) of Democrats, almost a quarter (23%) of independents, and one in five (20%) Republicans. Despite everything going on the world today, female voters continue to make "the murder of all innocence" their TOP priority in every election, and it has been since the 1970s, overwhelmingly voting democrat. Obviously, this does not include every woman, but a majority of women in the USA right now.
- At no time during the mass illegal invasion of our own country, did our streets fill with young people protesting the destruction of their own country as a direct result of democrat "sanctuary for criminals" policies. So long as only border states were being overrun with illegals, people continued voting for the policies causing the mass invasion at our borders. Only when illegals were shipped to their cities in the north, did democrat voters have a sudden interest in national security.
- Even though a tiny fraction of our society involves members of the LGBTQ+ community, they managed to put their single personal issue (gay, transgender rights) ahead of everything else in the country, including child safety, national sovereignty, security, freedom, liberty, and equal justice for all. Their single-issue votes pushed the most important things for every American to the bottom of the priority list as well.
- And now, our streets are once again filled with the evil likes of BLM and ANTIFA as the global community organizer Obama, orders them into the streets via free (taxpayer funded) Obama phone again, this time in support of the most subhuman brutal terrorists ever know to mankind from the Middle East.

Meanwhile, Obama (the real person in control of our federal government today) has caused war after war after war in his

Global Reset initiative to not only fundamentally transform America, but forever destroy free nations all over the world, in concert with Klaus Schwab's WEF, the UN, NATO, WHO, CIA, FBI, IRS USAID, and IMF.

As we sit on the brink of global catastrophic events, Americans continue to undermine their own country through their entirely self-centered special interest voting, as if they will be able to escape the consequences of their own actions.

Here are the facts no one can escape or survive

1. If FREEDOM and LIBERTY are not a TOP PRIORITY for you in every election, no one in the USA will have freedom and liberty.
2. If NATIONAL SOVEREIGNTY and SECURITY are not a TOP PRIORITY for you in every election, then no one in the USA will have sovereignty or security.
3. If real EQUAL JUSTICE FOR ALL is not a TOP PRIORITY for you in every election, then no one in our country will ever have equal justice under the law.
4. If government FISCAL RESPONSIBILITY isn't a TOP PRIORITY for you in every election, then every American is headed for bankruptcy, ending in survival of the fittest.
5. If LOW TAXES and LOW REGULATION is not a TOP PRIORITY for you in every election, then you and every other American will be overtaxed and over-regulated, and eventually, totally controlled.
6. If HONEST FREE LEGAL ELECTIONS are not a TOP PRIORITY for you in every election, no matter your political leanings, then you deserve to live under the boot of whoever steals the election through blatant fraud.

Again, I can keep going on this list for just a few more, but face it, if you made it this far in this piece and still don't get it, nothing I say can help you get it.

This country is what the people make it or allow it to be. Either politicians work for us, or we work for them. The government either operates within Constitutional confines, or it has no right to exist at all.

These truths are so fundamental and obvious that if you don't get it, it's because you don't want to get it. It's because you choose to put yourself ahead of the country and everyone else in it. If enough people continue to do that, this is going to turn out bad for everyone, real soon.
