

USMCA “Trade Agreement”, the North American Union, an Article V convention, and Red Flag Laws: Connecting the Dots

Publius Huldah

The Globalists have long been in the process of setting up a dictatorial and totalitarian oligarchy over the United States. Now they are putting the last pieces in place. That is what is behind the pushes for the USMCA “Trade Agreement”, an Article V convention, and red-flag and other laws to disarm the American People. The Globalists want to move the United States into the North American Union.

USMCA “Trade Agreement”

The USMCA “Trade Agreement” is, in reality, a ***Transfer of Sovereignty Agreement***. It provides for *the economic and financial integration of Canada, the United States, and Mexico*. In addition to putting the three countries under global regulation of a host of issues such as patents, environmental regulation, labor, immigration policy, prohibition of discriminatory practices respecting sexual preferences and “gender identity” in the workplaces;[1] it

puts the International Monetary Fund (IMF) in control of our economy and binds us to submit to *an international monetary system* which is to be administered and enforced (at least initially) by the IMF and which will replace our collapsing Federal Reserve system.[2]

Every word, clause, sentence, paragraph, page, chapter, and appendix of the USMCA "Trade Agreement" is in blatant violation of our Declaration of Independence and Constitution.

North American Union

The North American Union brings about *the political integration of Canada, the United States, and Mexico*. [The Task Force Report on Building a North American Community](#) [link] sponsored by **The Council on Foreign Relations** provides for (among other horrors):

- increasing the "cooperation and interoperability among and between the law enforcement agencies and militaries." The Report thus indicates that the plan is to combine the functions of law enforcement and the militaries of the three countries, so as to create a *militarized police force consisting of Canadians, Mexicans, and Americans* (pages 10-12).[3]
- a North American Advisory Council, with members appointed by Canada, the United States, and Mexico, to staggered multiyear terms to "provide a public voice for North America"; and a "*North American Inter-Parliamentary Group*" which will have *bilateral meetings every other year; and a trinational interparliamentary group to meet in the alternating year* (pages 31-32).

To merge the functions of our police and military and combine it with those of Canada and Mexico;[4] and to permit a Parliament to be set up over and above the United States, is altogether repugnant to our existing Constitution. But *this is what the Globalists and the Political Elite of both parties*

want. Before they can impose it on us, they need to get a new Constitution for the United States.

An Article V Convention

*And that's the purpose of an Article V convention – to get a new constitution for this Country which legalizes the USMCA "Trade Agreement" and transforms the United States **from** a sovereign nation **to** a member state of the North American Union.*

But Americans don't want another constitution, and they don't want to be moved into the North American Union.

So! Some of those pushing for an Article V convention, such as the "Convention of States Project" (COS) are *marketing a convention to appeal to conservatives*. COS and their allies such as Mark Levin claim to be for limited government and say they want a convention to get amendments to "limit the power and jurisdiction of the federal government". Sadly, those who *don't know that our Constitution already limits the power and jurisdiction of the federal government to a tiny handful of enumerated powers* [they are listed on [this one page Chart](#)] fall for the marketing.[5]

But some of those pushing for an Article V convention, and certainly those *financing* the push for a convention,[6] actually do intend to "limit the power and jurisdiction of the federal government"; *and they intend to do it by transferring the powers our Constitution delegates to the federal government (plus the powers reserved to the States or the People) **to** the global government which they are setting up over us.*[7]

[This Flyer](#) shows why Delegates to an Article V convention (called for the ostensible purpose of proposing amendments to our existing Constitution) have the right and power to *ignore their instructions* and impose a new Constitution which puts us under a completely new Form of government – such as the North

American Union.

Red flag Laws & Gun Confiscation

When Americans **finally** see what has been done and how they have been deceived, they will be angry. *That's why they must be disarmed now.* But **all** federal gun control laws for the Country at Large are unconstitutional as outside the scope of powers granted to Congress; as in violation of Article I, §8, clauses 15 & 16; and as in violation of the Second Amendment. And any pretended *State law* which contradicts its State Constitution **or** which interferes with Congress' power (granted by Art. I, §8, cl. 16) to "organize, arm, and discipline, the Militia", is also unconstitutional [[link](#)].

Red flag laws also violate the privileges and immunities clause of Article IV, §2; and the due process clauses of the 5th Amendment and §1 of the 14th Amendment. US Senator Marco Rubio's (Fla.) malignant red flag law [[link](#)] appropriates a total of \$100 Million to pay to States and Indian Tribes which pass the red flag legislation set forth in Rubio's bill.

And Trump says respecting red flag laws, *"Take the guns first, go through due process second."* [[link](#)].

Stop the Globalists: Oppose the USMCA "Trade Agreement" and an Article V Convention

While the Trump Administration hammers the Globalists' nails into our coffin, his trusting supporters censor criticism of the USMCA "Trade Agreement" – even though the Agreement is so long and incorporates so many other Agreements it is unlikely that any of them (including Trump) have read it.

And **demagogues** in the pay of Globalists have convinced constitutionally illiterate Americans that the solution to all our problems is to get an Article V convention.

[³] Meanwhile, the UN is building a *global* military & police force. See "United Nations Peacekeeping" [[link](#)] and think of the ramifications of such a militarized *global* police force. *Who will be able to resist?*

[⁴] Mexico's culture is notoriously criminal. If we permit Globalists to get an Article V convention and a new Constitution which moves the United States into the North American Union, you can expect to see militarized Mexican police operating within our [former] Country. And soon, they will be wearing blue helmets.

[⁵] It is possible that Mark Levin and the hirelings promoting a convention (such as Mark Meckler, ⁶ Tom Coburn [[link](#)], and Jim DeMint [[link](#)]) don't know what the actual agenda is. And it is almost certain that COS's constitutionally illiterate celebrity endorsers and lemmings don't know. *People who don't know that our Constitution already limits the federal government to a tiny handful of enumerated powers, and that our problems are caused by ignoring the Constitution we have, are easily deceived by the ridiculous claim that we must amend our Constitution to make the federal government obey it.*

Our Framers always understood that the purpose of an Article V Convention is to get a new Constitution [[link](#)]. This is why

James Madison, Alexander Hamilton, and four US Supreme Court Justices, among others, warned against it [[link](#)].
