

Wake UP America! The Trojan Horse Is Here!

With the arrival of massive Muslims to America, our culture and our way of life is forever altered. By now, most Americans know that Islam and the US Constitution are incompatible. Then what should be do? We, in the United States of America need to resist Islam's encouragement while it is still gathering momentum, unless we wish to end up in the same fix as Europe.

For instance, to ignore the smoldering fire and relying on a few local "firefighters" to keep them from spreading is either naive or outright criminal, but it is certainly the easiest thing to do. That's why I have decided to fight the fire and I am calling for help to put out Islam, the source that raises arsonists – the

minority that they may be. It takes one arsonist to set a fire that a thousand firefighters will have difficulty to put out. The few Muslims who are brave enough to advocate reform of their religion are tossed out of mosques or, very likely, much worse.

We no longer can deny that Muslim jihadists live amongst us. It is only a matter of time before they show up and expose their aggression. Jihadists deem themselves the army of Allah. They use violence as an instrument of policy. This continues to be central to Islam. Muslim jihadists and their well-paid

leftist apologists use the multicultural umbrella only in non-Islamic lands to shield themselves from the torrent of legitimate criticism that those who know Islam better shower on this cult of violence peddled as the “religion of peace.”

You don't need to listen to me, and don't listen to these conniving dissimulators. Please search it out for yourself. See if the euphemism of multiculturalism is ever even mentioned by any Islamic leader, is ever printed in the Islamic press, or ever appears in any form whatsoever in Muslim countries.

The West has been tolerant for so long, but “tolerance in the face of evil is not tolerance, it is a crime.” It wasn't long ago; we were defending ourselves at the Gates of Vienna from a Muslim invasion. Now, we welcome Muslims with open arms and generous welfare policies. Any push back to these open immigration practices is labeled Islamophobia, racism, bigotry, etc. But, at what cost do these changes bring?

You need to open your eyes and see how the scheme played out in Europe. Much of Europe is already past the stage of no return. This is not a game. This is real. This ideology will devour your entire family, if not now, soon enough. You need to wake up now and stop it from growing to the point of no return.

The battle with these people has been proven to be arduous

and long. It is a duty of all enlightened individuals to work their hardest to fumigate these leeches from the body of humanity.

Through a highly effective indoctrination, the jihadist has come to believe firmly in Islam's absolute delusion. He

believes that Allah is the one and only supreme creator of the heavens and the Earth, that it is his duty and privilege to abide by Allah's will and carry out his plans at all cost. He believes firmly in a gloriously wonderful immortal afterlife in paradise, for which a martyr's death is the surest quickest admission. Although the dominating theme of the delusion is quasi-spiritual, the promised rewards of the afterlife awaiting the martyr are sensual and material.

All the things and activities that the jihadist desires and cannot attain or practice, and rejects in his earthly life, will be purified and proffered to him in the paradise of the next life. Thus, goes the delusion.

Pay close attention, after 1400 years, Islam is still on a campaign of conquest throughout the known world. Hordes of life-in-hand foot-soldier fanatical Muslims are striving to kill and get killed. All they want is the opportunity to discharge their homicidal-suicidal impulses, on their way to Allah's promised glorious afterlife. And in the background, granting the foot-soldiers' wishes, are their handlers, the puppeteers, who pull the strings and detonate these human bombs.

Here is what the leader of the Islamic Revolution of Iran, [Ayatollah Khomeini](#) said many years ago:

"Allah did not create man so that he could have fun. The aim of creation was for mankind to be put to the test through hardship and prayer. An Islamic regime must be serious in

every field. There are no jokes in Islam. There is no humor in Islam. There is no fun in Islam. There can be no fun and joy in whatever is serious. Islam does not allow swimming in the sea and is opposed to radio and television serials. Islam, however, allows marksmanship, horseback riding and competition. Meeting in Qom.”

You need to Wake up America: Your highest priority is the preservation of this nation of the free. We have done what it took in the past and we must do what it takes now and, in the future, to safeguard liberty. Defeating the encroaching Islam is this generation of Americans greatest challenge. We must meet the threat and defeat it. The alternative is to suffer the fate of the Europeans, many of whom are voting with their feet: fleeing to other lands and abandoning their ancestral homes to the Islamists.
