

# Wake up! Double Your Income by Taking Back our Constitutional Republic from the Blood Suckers!

By Andrew Wallace

The title is no exaggeration. I can prove every word.

You must first know your enemy, and they are the Blood-Sucking Parasitic Super-Rich Ruling Class (PSRRC), wealthy families and their Communist minions who have been the enemies of the Republic since its founding.

The PSRRC could not have destroyed our Republic without an apathetic population, brainwashed by the corrupt media and schools under the direction of criminal elected officials, bureaucrats, judges, and military flag officers, etc.

I am enraged, as are most people, when public officials lie to our faces on TV. They know they are lying and they know that we know they are lying.

These people are, for the most part, traitors. They are beyond contempt, and we can't have a Constitutional Republic until they are out of office.

But they will never be arrested or prosecuted because they control the levers of justice!

Most knowledgeable people will agree that a majority of these

officials are bribed by the PSRRC, or are just cowards and not worthy of trust or respect.

Most of the laws they pass are unconstitutional and responsible for constructing a "Huge Dictatorial Machine" to replace the Republic, concentrate power, suck out our life's blood, murder millions, and destroy entire countries for profit, etc.

The ancestors of the PSRRC, wealthy families and bankers, have been doing this to us for centuries.

It is a sad fact that most everything done by our usurped government is unconstitutional and designed to transfer the people's wealth and prosperity to the PSRRC and their Communist minions in 'woke' corporations and government.

Their ultimate objective is to concentrate power, enslave the people, and destroy the country.

One example is open borders and subsidizing of illegal invaders, most of whom don't speak English, have no education, no skills, and bring only diseases. They will overload and destroy the healthcare and benefit programs for citizens. Government must unconstitutionally support these people or they will turn to crime. If they are not deported, it will be costly, but much less costly than allowing them to remain. Borders must be closed using deadly force if required!

Only the legislature has the power to pass laws.

Executive orders, department and agency orders and judicial opinions do not have the force of law!

To double our income, at a minimum, return to equal justice, regain our God-given and constitutionally-protected rights, we only need to do the following:

Terminate the Unconstitutional Private Federal Reserve Bank and return to Constitutional money, which is gold and silver.

By doing this, you eliminate wars for profit, deficit spending, inflation, and most government boondoggles, lessen economic changes, and—most importantly—you reduce the ability of the PSRRC to manipulate the money system in their favor. Don't forget that foreign aid and giving support to illegal invaders is unconstitutional.

Institute tariffs sufficient to offset any cost advantages for cheaper foreign labor.

This guarantees the return of American manufacturing for sales in the United States with a viable middle class.

Save billions by eliminating the following usurped unconstitutional federal departments:

Labor, Agriculture, Health and Human Services, Education, Energy, Transportation, and Housing and Urban Development.

[Paul Engel has written a comprehensive and well-documented article on the State of Tennessee's plan to nullify these unconstitutional federal departments:](#) Terminate the FBI, which has been unconstitutional and corrupt since its founding in 1908. The Constitution states that the Militia of the Several States will enforce the laws of the union.

But the Militia was made part of the National Guard by the unconstitutional Dick Act in 1903, because the officers would be appointed by the states. We must be able to punish corrupt officials, but even with the militia how do we get honest courts? It is impossible to have a Constitutional Republic with the FBI in existence, and until punishment for corrupt officials is swift and certain.

January 6 was a false-flag led by the FBI, consistent with their usual criminal conduct.

January 6 was not an insurrection, it was a false flag event. January 6 is a dark stain on our judicial system where more

than a thousand patriots were framed, arrested, jailed and denied their Constitutional rights to this very day. Government withheld evidence that would exonerate them. Only a government in fear of its citizens or one trying to start a revolution would do such a thing. May the elected officials who did nothing or lied about this event burn in hell.

With these changes there is no need for an income tax when it is replaced by tariffs.

The income tax would only continue to enrich the PSRRC, impoverish the people, fund no-win wars for profit, and kill more millions of people.

Now is the time to bring our military home and only use them in wars to protect vital interests of the United States as declared by Congress, rather than the PSRRC.

I have stated before that everything reported by the fake media and the government about the False-Flag Ukraine War is a damn lie. Here is the unvarnished proof as reported by Jeffery Dover: <https://newswithviews.com/desantis-had-it-right/> Many of you will be shocked to read the truth for the first time.

I can guarantee that when these few recommendations are followed, it will be Christmas every day for the people, not so much for the PSRRC. Real incomes for most people will more than double and the American Dream will be alive again.

The income tax would be gone, replaced by tariffs. Federal government would no longer subsidize our Communist states at the expense of the working states. Without income tax distributions, the Communists would have to actually work, and the federal government would be reduced by at least 50%. The people will no longer be forced to finance wars for profit and bury the resulting dead. Manufacturing will return with a middle-class earning living wages, while gold and silver money will mostly eliminate inflation.

These recommendations would correct only a few of the countless unlawful deviations from our Constitution, but they will generate unlimited prosperity for those who work, while protecting benefits for the elderly and disabled.
