

Want To Be Empowered? Let Me Show You

We hear the word 'empowerment' every day from wimpy Hollywood males who long ago genuflected at the alter of political correctness and the cancer called feminism. The females who like to call themselves movie stars and the inane 'Reality TV' stars usually lead the howling pack as their only claim to talent seems to be running around near naked or vomiting nonsense.

Other choruses come from politicians trying to herd the masses into 'empowering themselves' by supporting their own destruction. Most of those herds come across to me as under-educated zombies who lack common sense; true victims of Soviet-style propaganda brain washing. A dear friend always says the brain washed never wonder.

One incredible example of actually empowering Americans for the good of our country is the heroic efforts of Brian Kolfage, recipient of the Purple Heart and a triple amputee veteran fed up just like us. He put out the call, gathered a core group of advisors and set out to do what Congress – BOTH parties have refused to do: Build a wall and seal up our southern border.

His GoFundMe drive empowered Americans to be part of something historic. Raising \$20 MILLION dollars from about 260,000 Americans, Brian went to work. Immediately maggots on the left and their web sites blasted it was a scam, they wanted an investigation and excoriated this fine man and his family in the most brutal fashion.

Construction was started last Friday and finished yesterday. One half mile, \$6 million. One gap that has allowed thousands and thousands of leeches as well as terrorists, child

molesters and drugs to cross over. On private land. Something never done before in the history of our country. They did what the Army Corps of Engineers said couldn't be done.

Here is the story and video. I hope you take a few minutes to view it. Where there's a will there's a way. [EXCLUSIVE VIDEO: "We Build the Wall" Completes First Half Mile of US Border Wall in 4 Days from Private Donations](#)

Republicans had control of both chambers of Congress for almost eight years under Bush, Jr and did NOTHING to stop the invasion. They could have funded it AND introduced and passed the strongest anti-illegals invasion bill ever written and introduced by former Democrat Nevada Senator, Dirty Harry Reid. The American people continue to vote back in the same incumbents who do NOTHING but ask for campaign donations.

Trump keeps getting blocked by activist judges as another Obama appointee did last week: [Judge blocks Trump from building sections of border wall](#)

Act Surprised: Update: [Far Left Activist Judge Who Issued Border Wall Injunction Donated Nearly \\$30,000 to Democrats](#)

260,000 fed up Americans said screw you hyenas in Congress and all you liberal judges who care nothing about this invasion or our national security. We're going to get the job done. THAT is real empowering of we the people.

We know our moral fabric long ago went into the toilet with the filth coming out of Hollywood which spread to pay networks like HBO and that group. Gradually and with careful planning big networks like ABC, CBS & NBC began indoctrination PROGRAMMING by slowly introducing queers into their prime time line ups.

Now, don't get excited. If the darling of the progressive Democratic Communist Party USA, **airhead extraordinaire**, Alexandria Ocasio-Cortez can call homosexuals and lesbians 'queer folk', which she does, so can I.

[Ocasio-Cortez: 'Colonial' Cauliflower in Community Gardens Makes Minorities Avoid Environmentalism](#)

OMG: Cauliflower is white so it must be racist! Better to grow Yucca because it's green! Okay, we've all had a belly laugh but the tragedy is that empty head actually serves in the U.S. House of Representatives.

I believe the American people are fed up with the whole "transform America" dogma unleashed by the criminal impostor president, Hussein Obama. That empty suit began shoving the communist goals down our throats from day one.

A little refresher:

Congressional Record-Appendix, pp. A34-A35 – January 10, 1963, Current Communist Goals, In the House of Representatives, January 10, 1963

Get control of the schools. Use them as transmission belts for socialism and current Communist propaganda. Soften the curriculum. Get control of teachers' associations. Put the party line in textbooks.

Gain control of all student newspapers.

Gain control of key positions in radio, TV, and motion

pictures.

Begin discrediting American culture by degrading all forms of artistic expression. An American Communist cell was told to "eliminate all good sculpture from parks and buildings, substitute shapeless, awkward and meaningless forms."

Control art critics and directors of art museums. "Our plan is to promote ugliness, repulsive, meaningless art."

Eliminate all laws governing obscenity by calling them "censorship" and a violation of free speech and free press.

Break down cultural standards of morality by promoting pornography and obscenity in books, magazines, motion pictures, radio, and TV.

Present homosexuality, degeneracy and promiscuity as "normal, natural, healthy."

Discredit the Bible and emphasize the need for intellectual maturity, which does not need a "religious crutch."

Eliminate prayer or any phase of religious expression in the schools on the ground that it violates the principle of "separation of church and state."

Control the institutions and you control the population.

So, if really want to stop the insanity then YOU have to make the effort. We the people have choices in life and while boycotts do hurt companies, it's not the CEOs or Board of Directors I worry about. I hate to see employees losing their jobs, I really do. But, if we're going to save our country we have to take a stand and don't back down.

The ONLY way you defeat an enemy is to kill them or starve them economically. Companies like Gillette who make razor blades. Something so common in 99.999% of American households and yet, they now feel compelled to market their product by

promoting the myth called transgenderism. (So weary of -isms.)

Parents should be locked up for child abuse:

[LGBT progressivism horrors: Parents to start physically maiming their own babies to slice off all "gender" organs in the name of progressivism and "equality"](#)

I don't use Gillette products but if I did, not anymore. A human being is born with male DNA or female DNA and no amount of hormones or mutilation can change that scientific fact despite the massive propaganda out there to the contrary.

I wish this wasn't from RT, but it really is very compelling and sad watching these people tell the truth:

[I Want My Sex Back: Transgender people who regretted changing sex \(RT Documentary\)](#)

[He Used To Be Trans—Here's What He Wants Everyone To Know](#) – A short video you should watch. Heyer calls this for what it is: CHILD ABUSE

[SexChangeRegret.com](#) – "You are not alone. Up to 20% have regrets about their sex change. Sex change procedures are not effective, say researchers. More than 40% attempt suicide after the operation. Here we reach out to those considering detransitioning."

The same goes for where I shop, brick store or on-line

company. I don't shop at Target because the closest store is 40 miles from me in Midland, Texas. Even if I did, I wouldn't. Teaching little boys it's natural and healthy to have sex in another man's sh*t while dressing it up with "gay lifestyle" is sickening.

[Target stores donating \\$100,000 to promote gay lifestyle to school children](#)

The same goes for the movie industry. I used to go to the theater to watch movies until the sludge, sewage, nudity, gratuitous sex and just plain not interested keeps me home. The last time I went to the show was in 2012 to see [ARGO](#). I had no idea what went on in getting our people out of Iran and the huge risk and sacrifices that went into that operation. If you haven't seen it, boy, you should. Very deserving of Best Picture at the Oscars.

As I don't own a TV, I do subscribe to a few streaming networks like Hulu. I did have Netflix but recently cancelled. Same old trash promoting sexual deviants and a show that is neither entertaining nor educational. It's more rot that sadly, is very popular with minors: [Parents to Netflix: Why is '13 Reasons' still on air? Program linked 'to an increase in suicides among children'](#)

Take your power back using your wallet. If this comes to pass, ask when you arrive if there is this lunacy surcharge and if so, tell them why you're leaving and walk out. Promoting the MONSTROUS lie called global warming aka climate change can only be stopped (besides booting out politicians who support it) when the American people simply say no. You are not getting my money.

[California restaurants may add climate change surcharge: 'We as chefs want to do the right thing'](#)

Since entertainment is a huge part of America's way to escape for whatever reason and because tens and tens of millions of

Americans do want clean, wholesome movies for their kids – and even themselves (Here's a secret: I own the animated movie, Shrek, on DVD. The first one that came out. I saw it with little ones in my family and just loved it.) there is an alternative out there.

Pure Flix is a streaming network like Amazon Prime, Netflix, HULU, Vudu and many more. The difference is their offerings are such that you can actually watch them with your significant other without the tits and ass and 'social justice' agenda. And, with your precious children. Movies that bring out the positive and goodness and learning.

For full disclosure, I receive no compensation from any books, videos, DVDs or networks mentioned in any of my columns. I simply want you to know we the people CAN change our nation, our country for the better – especially when it comes to our precious children.

Today's children are tomorrow's society and look what the government's indoctrination centers they call schools as well as colleges, universities and Hollywood have done to their heads. They won't stop until YOU stand up and say no. Remember: All they care about is the bottom line. \$\$ is their lust and reason for living.

[Check it out.](#) The monthly subscription rate is about the same as the ones listed above if not a few pennies less. [They also have a first month free option.](#)

People ask me all the time how I know all this 'stuff'. I don't work 12-hour days on the farm, ranch or 9-5 for a company. I work at home. I do a lot of research on a thousand different things. It occurred to me recently as I only write a weekly column, I could make an even bigger contribution. Time is an issue for everyone but if you read tweets, you can read a short post.

Soon I will have my very own blog. I know, cheer! Devvy is

making it to 21st century technology! What I plan to do is put out a daily notice (Via free email alert) on something I found I want to share with people that can save money, health related information or how to do something that improves your life. What's going on like in this column and much more. Just something quick and informative – including breaking news like the imploding of the corrupt players in the Russia hoax attempted take down of a presidential candidate and now President Trump.

It's amazing some of the things I run across while looking for something else. Then I want to share it with everyone in real time. Cut through the junk and yellow "journalism". So, stay tuned. Blog should be up and running within two weeks.

Note: For a thorough, comprehensive education on the Fed, the income tax, education, Medicare, SS, the critical, fraudulent ratification of the Seventeenth Amendment and more, be sure to order my book, [Taking Politics Out of Solutions](#). 400 pages of facts and solutions.
