

We all Have Choices to Make

By Karen Schoen

March 18, 2025

“The problem isn’t lack of food, money, water or land. The problem is that you’ve given control of these things to a group of greedy psychopaths who care more about maintaining their power than helping mankind.” –Bill Hicks

Have you noticed yet that all the screaming pointed to Elon Musk and DOGE are made by a group of people who have benefited from these disgusting, disgraceful grants.

Every executive order addresses reducing the budget is adding real growth through lowering energy costs. It drives the left crazy because they are finally being EXPOSED. As we are discovering, it takes an algorithm to find the corruption and money laundering. Elon is working with a group of extremely intelligent people and they have the algorithms.

As Rand Paul said, “We have to make choices.”

Which comes first, American citizens or citizens of every other country? Social Security, Medicare, Medicaid and Foods Stamps are the staples of our tax system. Everything else must be borrowed. Why the heck are we borrowing money to pay for the pleasures of others, or are we?

Where’s the Money?

Where exactly is that money going?

As I constantly say: Everything is Connected and Follow the

Money. According to DataRepublican.com <https://datarepublican.com> for too many years, the Deep State, the stealth shadow government, has been borrowing money to enrich themselves. Our borrowed money has been funneled through left Communist organizations into NGO's and charities designed to DESTROY America by creating a color revolution. A Color Revolution is a revolution designed to change the culture of a country.

Here is an example: The Rockefeller Philanthropy Advisors gets a grant from We The People through a grant from USAID. Defending Democracy gets a grant from Rockefeller who then gives a grant to an NGO dedicated to funding migrants. Defending Democracy gives money to dictators who gives money to an organization like The Clinton Foundation. The money, our money, goes around in a circle to the same people who become extremely wealthy while robbing us BLIND and putting us, Joe Taxpayer into the Money-Pit of Debt.

These people will NEVER stop because the worst thing to happen is for them to lose POWER. This is why you see the Left losing their minds! Their heads are exploding! Because they have lost POWER. When you lose Power, you lose Money and Control as a result. They can't stand it. The Left is losing their retirement "cushion" money!

Money, Power, Control.

We must be smarter and remember they will lie constantly. Example: They are blaming Trump for inflation. We are still living under the Biden/Harris budget with their insane spending. Until that is stopped, inflation continues to rise. What can we do? Make sure our legislator votes for a budget not a CR in March!

Prepare for hard times. Stock up now so you won't have to buy later. Buy necessities not luxuries. The Biden inflation will probably take 2 years to work through this Biden/Harris mess.

A much wiser Trump and staff have jumped ahead of the DNC. By using policies put in place by Obama and Biden, Trump has outsmarted the deep state and left them in the dust. DOGE is actually an agency put in place under Obama with a different name. It is almost a blessing that Trump lost in 2020 because it gave him time to study and plan and the public a chance to see the corruption and prepare for changes and choices.

Anyone who thinks Trump could fix anything in one week with the opposition he is getting from the elected liars and cheats, is living in a dream. Common sense tells us this economy will take time to fix. We all know the left has no plan except to complain.

You Fail to Plan, You Plan to Fail.

You, however, can have a plan! As a former math teacher, I discovered that an economics education was a thing of the past. No one will protect you other than you. So do you have a plan for your future? Retirement and no money don't work well together.

Join me on my podcast at karenbschoen.com Today's guest is Anthony Castro, financial planner. Join us and learn some new products that can help you prepare for retirement. Also hear from Kenny Edwards, pilot. Discover what is going on in the airline industry?

Remember: Applying knowledge is power!
