

We are Doomed if Trump Refuses to Terminate Criminal Enterprise in Government

I estimate that half of the Federal Government's Programs, Functions and Departments are Unconstitutional, making them Null and Void and a Criminal Enterprise. This is so because they are not authorized by the Enumerated Powers in the Constitution, and are rife with theft and corruption. Those activities having no legal foundation for existence, even if fraudulently enacted into law, can be eliminated with a stroke of President Trump's pen. But we must still consider the following assumptions:

Assumption # 1. Trump's power to terminate unlawful activities, even those established by unconstitutional laws, cannot be questioned.

Assumption #2. Elected Officials and Bureaucrats of the Administrative State take orders and bribes from the Parasitic Super- Rich Ruling Class (PSRRC) and their Jewish Lobby. What the people want is of no consequence to them.

Assumption #3. Democrat Elected Officials, by their actions, are Communists. Republican officials profess to be "America First" but privately, many of them hate Trump, America, and its people. Most elected officials in both parties are corrupted.

Assumption #4. Most Media, in all its forms, is owned or controlled by the Communists AKA Democrats.

Assumption #5. All major cities are Communist and can only survive, but barely, with financial support from the Federal Establishment. This support, and all Federal financial support of the states is unconstitutional. If this support is continued, it will lead to civil war. Patriots will not work and sacrifice to support Communists who don't work, especially when things get really tight.

Assumption #6. The Federal Establishment has unlawfully usurped and now controls countless state functions with money from income taxes. This reverses the Constitutional roles of Federal Establishment and the Sovereign States. As long as this exists, there can be no Constitutional Republic nor prosperity for the people.

Assumption #7. The United States can only be defeated by weapons of mass destruction or from within by the communist army of illegal invaders. Therefore it is impossible to have a "national security" justification for our troops on foreign soil, or for giving any form of foreign aid. Officials who vote for or authorize deployment or foreign aid should be prosecuted. In fact, it is unconstitutional without a mandatory Declaration of War.

Assumption #8. Illegal Invaders must be deported as fast as possible, or they will destroy America as they did Europe. There can be no support of any kind given to invaders. The Constitution stipulates that this is treason, subject to the death penalty. Employers of illegals should be prosecuted. It is impossible to have America First and allow illegals to remain or give them any support.

Assumption #9. The FBI and CIA must be reformed or disbanded. Frankly, I think reform is impossible.

Assumption #10. Politicians must get their share of the big

money contributions or they can't be elected. President Trump is no exception.

In spite of these assumptions, President Trump must terminate the unlawful actions, functions, and departments of the Federal Establishment because they are null and void ab initio. He can do this with executive orders.

The Parasitic Super-Rich Ruling Class AKA The Deep State, Swamp, or Establishment will do anything to stop Trump's terminations of their unlawful but highly profitable activities such as foreign aid and wars for profit. The military is needed at home to combat the Communist 20-million-strong army of illegals. The need is so dire that we might have to use the draft.

It is estimated that there are more than 30 million illegals in the country. If they are still here when the census takes place in 2030, we will become a one-party Communist country. This is so because the census determines the number and location of members of Congress.

President Trump must understand that this is the only way for his great vision to succeed. Failure to terminate these unconstitutional programs makes it financially impossible to return the country to prosperity and the Constitutional Republic. Economic Realities are absolute proof that this country cannot survive with Trump's plans alone.

I am aware that our traitors in and out of government will continue to do everything to stop President Trump, including additional assassination attempts. It is alleged that they killed the Kennedy Brothers for much less.

But if Trump, in the face of death, does save the Republic, he will go down in history as our greatest President.

Trump needs no reason or legislation to terminate programs with a stroke of his pen because they are unconstitutional and

void on their face. The complicit Judges can pound sand. Those who object can only blame the Founders.
