

We Are Watching the Disintegration of Our Country & Society

By Frosty Wooldridge

September 18, 2023

Part 1: Signs of cities decaying, sheer numbers of illegal migrants, degrading culture, loss of the rule of law

With the latest wave of 200,000 illegal migrants crossing our borders in August, even the “welcoming” but overwhelmed “Sanctuary Cities” have reacted with anger, frustration and demonstrations. Congress-critter with the intellect of a gerbil, AOC, suffered screaming in-her-face New York City residents who hate the 110,000 illegal migrants sleeping, urinating and trashing their streets. They give credence to the acronym N.I.M.B.Y.

Mayor Adams said, “Migrants are ruining New York City. We cannot afford the \$12 billion to house, feed, educate and medicate them.”

That cry for help echoes across American cities where 8,000,000 of those illegals have landed. They cannot speak English. They lack education to operate in this modern society. Their cultures conflict with our culture. Their importing endless amounts of drugs that kill 100,000 Americans annually from overdoses.

Out of those 8,000,000 illegal migrants, how many are Jihad

Muslim terrorists? Answer: you gotta' understand they are planning the next 9/11 as you read this column.

What does it mean, "Watching the disintegration of our country & society?"

Consider these points and see if you witness them coming to your town or city:

We've got schools instigating dishonoring our nation's founders. Once students begin to hate their country and history, they trash statues of Thomas Jefferson, George Washington, Teddy Roosevelt, Benjamin Franklin, Abigail Adams, Susan B. Anthony, John Muir and others. Without appreciation for our founding and the U.S. Constitution, anarchy and rebellion are not far behind. Without respect for America's past, our youth will not understand the principles of our Constitutional Republic. Notice how college kids shout down speakers with which they don't agree.

Yes, freedom of speech gets messy, however, it's better than autocratic rule.

We've got children thinking they can change their sex from boy to girl and from girl to boy. That cannot, does not and will not ever happen. It's biologically impossible to turn a boy into a girl and vice versa. But in the process of the charade, illusion or "pretending", women's sports are being destroyed by "transgenderism." It's wrong, it's stupid, it's a sign that our society is going haywire. Especially using such idiotic monikers like "birthing person" or pronouns instead of he and she. No wonder so many kids commit suicide or suffer depression. Social media keeps them emotionally and spiritually wrecked. Worse than that, they suffer "text neck" from bending over into their cell phone with 100 text messages daily, on average for every U.S. teenager. Good Lord, get rid of that phone and talk to your friends!

The current president, totally unable to string a coherent

sentence together on his own...has weaponized the CIA and FBI against other political leaders. That's a sign of a "Banana Republic." If you can't beat them, just kill your opponents or send them to the Gulag.

The new "Inclusion, Equity, Diversity" farce cannot and will not make anyone equal. Neither can "Affirmative Action." We've already enjoyed such equality since 1964. What we need is: "Study, Hard Work, Personal Accountability." That will allow each citizen to participate in this society to the best of his or her abilities. You cannot give away educational excellence. You cannot put lipstick on a pig and say the pig is educated. Education must be earned by each individual.

With \$100,000,000,000.00 (billion) in shoplifting last year, it means that millions of citizens and non-citizens are stealing mercantile stores to death. If you kill off our merchants, at some point, cities collapse from lack of tax base, goods, services and livability. Just remember Detroit, Michigan. When it was allowed to go completely lawless by Mayor Coleman Young, a horrific 1.2 million whites fled the city. I worked there for 20 years to see it, personally. Already in San Francisco, 20 Walgreen's have closed shop, Nordstrom's closed, Whole Foods closed, entire hotels have closed. Trains are being robbed on their tracks. Kids can steal \$900.00 of goods without penalty of any kind. A whopping 35,000 homeless have invaded every street and into the suburbs. San Francisco is dying. How do I know? I visited it the past three summers. I watched "smash & grabs" from my position on Market Street. It's no longer, "The City by the Bay." It's a criminal haven, drug market and lawless nightmare for any visitors.

With that \$100 billion in shoplifting, that means millions of our citizens are criminals. A Constitutional Republic demands a moral, ethical and personally responsible citizenry. What happens when the thefts reach \$100, \$200 or \$500 billion annually? At some point, our big cities will fall into anarchy

beyond solving.

In New York City, you've got 2,000,000 rats scurrying all over the streets. They carry diseases and infest peoples' homes. NYC houses 50,000 homeless. Now, they are trying to house another 110,000 homeless illegal migrants. Those migrants steal, trash streets, trash hotels, trash schools and overrun medical services. They lack any ability to function or contribute to American society.

Criminals in NYC might get caught, but within hours, are re-released back onto the streets to commit as many thefts, murders or drug deals as they can find. If you travel a NYC subway, your life can end in a millisecond.

Our mindless president wants to forgive student loans while we're \$32,000,000,000,000.00 in our national debt. Who pays for it? Answer: you pay! He has given Ukraine hundreds of billions of our tax dollars when one in six of our children faces "food insecurity." He left \$90 billion in military hardware on the worst pullout in American military history from Afghanistan. With that level of incompetence, some folks should have been fired or retired. Instead, not one answered for the stupid, incompetent deaths of 13 of our military people from a suicide bomber.

Worst of all, we've got $\frac{1}{2}$ of all major news services totally bias for the "left" and $\frac{1}{2}$ of the American citizenry on the right. We've got half the country pitted against the other half. We're being brainwashed by the NCAA, NPR, CDC, NAACP, BLM, Bud Light, Disney, etc.

Yes, this column will cover another dozen ways we are watching our society disintegrate. But the one that no one will address grows by the day: we are being overpopulated by this massive invasion of immigrants, both legal and illegal. That's the situation that will kill our society faster than any war, any disease, any natural disasters. At some point, we will NOT

be able to feed this massive human overload. That's a fact...and it's coming as surely as the dawn.

Coming in Part 2: Climate change, food shortages, loss of quality of life, water shortages, cultural conflict, linguistic conflict.
