

We Can't Restore Our Civilization With Somebody Else's Babies

This past week, Iowa U.S. House member Steve King addressed the ramifications of endless immigration into America, "Culture and demographics are our destiny. We can't restore our civilization with somebody else's babies."

While the mainstream media maligned his words by calling him a bunch of names, historically, he hit the nail on the head. If America's future renders itself loaded with third world immigrants now streaming into this country by the millions annually—it will become everybody else's country. Not to mention that our civilization will not be sustainable within 30 years at current immigration rates!

According to the PEW Research Center, Hispanic-Latino-Mexican Americans, at current immigration rates and birth rates, will become the new majority by 2042. That's 25 years from now. In contrast, European-Americans, in 1965 dominated with 90 percent

of the population. That means the fabric of America derived from over 240 years of culture, language and ethos.

Enter the 1965 Immigration Reform Act that began importing one million immigrants annually for the past 52 years. Along with their birthrates, they added 100,000,000 more people to the USA from 194,000,000 in 1956 to 300,000,000 by 2006—and headed

for 438 million by 2050.

[This video spells it out:](#)

European-Americans created the ethos of America. They created the U.S. Constitution. They created the language. They created the culture. They created the work ethic. They created the “American Way of Life.” Additionally, seven percent of African-Americans and three percent of Latino Americans created the American Dream. Millions around the world dream, pray and beg for such a way of life. That’s why one million legal and 500,000 illegal refugees stream into America annually. (Source: www.cis.org with Dr. Steve Camarata, Immigration into the USA) In fact, seven million Syrian refugees applied for visas to America in 2016. Over 10,000,000 people worldwide await their visa acceptance into America.

If allowed at the current rates of legal immigration, over 100,000,000 (million) legal immigrants will birth their babies in America to make it everybody else’s country and no longer Americans’ country.

Okay, yes, the white man conquered and displaced the red man in North America. In fact, slaughtered most of the 522 tribes that inhabited North America. It wasn’t pretty. Some say what’s happening today illustrates cosmic payback.

But the aborigines of North American didn’t stand a chance against mechanized war machinery, booze and disease.

Today, America’s future remains in the hands of Americans. Within three decades, it won’t be in our hands with another 100 million immigrants. It will be totally out of our hands.

Excerpt from my book **Immigration’s Unarmed Invasion: Deadly Consequences**—How to Destroy America: Eight Ways.

Lamm said, “If you believe that America is too smug, too self-

satisfied, too rich, then let's destroy America. It is not that hard to do. No nation in history has survived the ravages of time. Arnold Toynbee observed that all great civilizations rise and fall, and that, "An autopsy of history would show that all great nations commit suicide."

"Here is how they destroyed their countries," Lamm said.

"First, turn America into a bilingual or multi lingual and bicultural country. History shows that no nation can survive the tension, conflict and antagonism of two or more competing languages and cultures. It is a blessing for an individual to be bilingual; however, it is a curse for a society to be bilingual.

"The historical scholar Seymour Lipset put it this way, "The histories of bilingual and bicultural societies that do not assimilate are histories of turmoil, tension and tragedy. Canada, Belgium, Malaysia, and Lebanon—all face crises of national existence in which minorities press for autonomy, if not independence. Pakistan and Cyprus have divided. Nigeria suppressed an ethnic rebellion. France faces difficulties with Basques, Bretons and Corsicans."

At this point in time, American women average 1.9 children each. Unfortunately, Latino, Black and Muslim immigrant women average many more babies than American women.

Whether you take the added 100,000,000 (million) legal immigrants and/or their projected birth rates at 900,000 annually, you see that this country's demographic will be totally changed from its current European-American majority—now hanging on at 54 percent.

Any culture that will not defend itself against displacement through mass immigration faces extinction. That includes both time-tested and successful cultures. Embracing diversity results in cultural suicide. America's multicultural path guarantees its destruction via cultural clashes and conflict

with Islam, Mexican and African cultures that diametrically oppose American culture. The more diverse a country, the more destructive and broken-down its future. The more people, the more it destroys its quality of life and standard of living. The more it adds immigrants, the more destruction to its environment. The more it imports refugees, the faster America, Canada, Europe and Australia lose their own ability to function and worse, their identities. Exponential growth of any civilization leads to ultimate collapse. You see it in Africa, India and China today. You will see it in Europe, Canada, Australia and America in the coming years, "IF" Western countries don't stop all forms of immigration.

In other words, Rep. Steve King hit the nail on the head. He presented the reality of our times. He showed America exactly what we bequeath to our children: EVERYBODY ELSE'S COUNTRY, BUT NOT OURS.
