

We Have Been Given the Royal Communist Shaft With Barbwire Clusters

By Andrew Wallace

September 2, 2023

Most people are ignorant of how really close we are to a Great Depression, which will result in the bankruptcy of government and many citizens, widespread suffering, and anarchy.

Government would no longer be able to honor its obligations to its dependent people, resulting in Civil War.

All of this is the result of the people being financially bled to death by the Parasitic Super- Rich Ruling Class (PSRRC), wealthy billionaire families and their Communist minions in 'woke' corporations, government, and universities. When the suffering starts, these criminals will fly off in their jets with their ill-gotten gains.

In this paper, I will expose you to only a FEW of the available facts that may not be readily found in the enemy media.

My primary objective is to give you some of the information I use, so you can draw your own conclusions and show your politicians that you know more than they do.

Also, you can't fail to see where the economy is going, based upon the sheer weight of the varied information provided.

Economic Factors

The Money Supply has fallen by \$2.8 trillion or 15% since April 2022. This is the largest fall since the Great Depression, which was caused by a similar action by the unconstitutional Federal Reserve Bank...which is doing it again.

Individual bankruptcies are up 68%.

Yield on treasury bonds is the highest in 20 years, causing bank failures, etc.

State and local tax revenues are falling.

Credit card debt is delinquent by more than one billion dollars.

Commercial real estate has collapsed. Sales of existing homes has also collapsed because of interest rates and inflation.

The Dollar is valued at four cents, compared to 1930 when gold was \$20.67 an ounce (and is now about \$2,000 an ounce).

Gold and silver is the only money allowed by the Constitution because it retains value, does not cause inflation, nor promote wars, nor facilitate transfer of the peoples' wealth to the PSRRC.

United States Debt is \$ 32.7 trillion.

Demand for trucking down 8-9%.

UPS and Fed-X package deliveries are way down.

Two years of negative real wages.

Household income down 9.1%.

Government spent about \$100 billion on Ukraine, but makes our own people suffer in disasters.

Unconstitutional foreign aid in 2019 was \$.094 Trillion. See

the Constitution, Article 1 section 8 clause 1.

In 2022, \$1.19 trillion was spent on 80 different unconstitutional federal welfare programs. Article 1 section 9 clause 7. This is 20% of federal spending, 25% of tax revenues or \$9,000 per household.

Domestic and global health expenses were 29% of the federal budget.

Federal income in 2022 was \$5 trillion, or \$15,098 per person.

Interest on the federal debt \$.663 trillion in 2023.

Federal government spent \$6.5 trillion in 2022, which was 28.7% more than they collected, or a \$1.45 trillion deficit.

There has been a 27.4% drop in shipments to the NE United States.

United States lost 585,000 full time jobs last month, and unemployment claims were 248,000.

Every dime spent on illegal invaders by federal government is unconstitutional and treason! See Article 3 section 1 and Article 1 section 8 clause 1. Cost is estimated to be \$.15 Trillion.

One simple conclusion to be drawn from the preceding is that you could reduce income taxes by 32%, or have no deficit by:

1. Eliminating unconstitutional federal welfare payments to those who could work, but refuse, \$.91 Trillion. Article 1 section 9 clause 7.
2. Eliminate half of the federal employees who work for unconstitutional departments and agencies, \$.48 Trillion. Article 1 section 8.
3. Eliminate unconstitutional foreign aid, \$.094 Trillion. Article 1 section 8 clause 1.

4. Eliminate unconstitutional payments to foreign invaders, estimated to be \$.15 Trillion. Article 1 section 8.

Just by eliminating these four UNCONSTITUTIONAL expenditures, you would save \$1.63 Trillion, which eliminates the deficit or reduces income taxes by 32%. This reinforces what you already knew: that most in Congress, from both parties, are dirty, rotten crooks and worse.

Dependency

P. J. O'Rourke said it best: "It's not an endlessly expanding list of rights – the 'right' to health care, the 'right' to food and housing. That's not freedom, that's dependency. Those aren't rights, those are the rations of slavery – hay and a barn for human cattle."

It is a fact that about 50% of the people are dependent, to some degree, on the government. This, of course, supports the government, but it is a civil war waiting to happen if the checks stop, which is expected.

Welfare Factors

Fifty-nine million are on welfare, 30% are under 18, and 43 million (or 70%) could work, but don't.

Only 12% of the population is black, but 40% of welfare recipients are black. The communist goal of dependency is succeeding in this cultural community.

Unconstitutional federal welfare costs \$1.3 trillion, and increases inflation because of the goods and services not produced by the 43 million worthless slackers who could work but refuse to do so. Article I section 9 clause 7.

Workers

There are 143.8 million workers earning \$9.7 trillion. Eleven million work for governments.

7.6 million Illegal invaders work.

The American Dream is Dead

It was killed by greedy corporations and others who outbid citizens so they could rent the homes out at exorbitant prices.

This has deprived citizens of the American Dream, lower cost of living, pride of home ownership, and earned equity for old age.

Remember that every negative fact in this paper is attributed to the Parasitic Super-Rich Ruling Class (PSRRC), wealthy billionaire families and their Communist minions in 'woke' corporations and government.

Conclusion

Those in Congress of both parties are too well paid by the PSRRC to correct these problems, but they must be corrected one way or another.

People must demand that all three branches of government obey the Constitution and:

1. Use tariffs sufficient to protect American workers from cheaper foreign wages and to finance government in place of income tax, as was done prior to 1913.
2. No wars without a declaration of war by Congress that is required to protect the national security of the United States. Every war for the last 77 years has been lost, was for profit of the PSRRC, and had nothing to do with our national security.
3. The FBI is beyond redemption and must be disbanded and replaced by a reconstituted Militia of the Several States as specified in the Constitution. We can never have a Constitutional Republic and "equal justice" with the

existing FBI. Anyone who works for the corrupt FBI should never be allowed to work for government. The Constitution gives all police powers to the states, and they can handle it.

4. There are two things that could start a revolution. One is the new CBDC digital currency and the resulting instant slavery, and the other is restricting firearms.

There are many more important elements and I have covered many of them in my past articles. I am certain that every number I have used can be questioned; it is the nature of these types of statistics. But they were obtained from reliable sources.

Don't forget to spend a good part of your political donations to sue the pants off of the government.

After all, the politicians take your money and do what the PSRRC tells them to do with it. The PSRRC is interested in power and two things, wars for profit and no tariffs. These are the two major causes of your impoverishment and profits for the PSRRC. It is also why President Trump's character was assassinated like no other man in history other than Judas, but with no proof.

Remember, nullification is the original right of self defense; it is a natural right. Nullify all UNCONSTITUTIONAL LAWS by not obeying them and suing government. Find your balls and let the enemy hear from you before it is too late!

May God Bless You and the Republic.
