

We Must Isolate and Detain the Enemies Within

Do you understand that “Palestine” is not the only piece of land to be “liberated.”

I came across the term “Turtle Island” when I covered an organization called “[Honor the Earth](#),” which opposes Green Colonialism, “from Palestine to Turtle Island,” an Indian name for North America.

I am happy to report that the FBI is back in the business of infiltrating these groups and the Turtle Island Liberation Front has been [busted](#) for planning a series of bombings and attacks on ICE. At least one member is trans. The FBI produced a photo of the communist literature found in their headquarters. Much of it opposed fascism.

How are these people created?

Filmmaker Joel Gilbert and I discuss this matter in my recent YouTube show, titled, “[The Making of a Communist Zombie](#).” He discusses the case of Riddhi Patel, a young female activist who came from a hard-working Indian-American family and threatened to murder members of the Bakersfield, California, city council. She was a promising track star in high school and then a student in college majoring in neuroscience. What happened to her? She started working for a “social justice” organization.

She is now undergoing a psychiatric evaluation.

In this context, a group called [Arm the Dollz](#), based in New York City, has called for “direct action” and “self-defense,” in order to “completely dismantle white cisheteropatriarchy, capitalism, imperialism, Zionism, and all systems that oppress us...” It calls for whatever is necessary for “the liberation of trans people.”

In an account linked to arm the Dollz, a [message](#) from the “Tranzilla Kitchen Witch of the East” included an image of two trans people holding weapons as flames can be seen in the distance. Hashtags associated with the post included #armedqueers.

I can’t rule out foreign controllers of some of these people, since Ion Mihai Pacepa, the highest-ranking defector from the former Soviet bloc, wrote “[Programmed to Kill](#),” about JFK assassin Lee Harvey Oswald and his KGB connections.

in our column, “Why the Communists Killed Kennedy,” we examined the evidence of the Castro role in the murder of JFK. The Soviet KGB also had a role, through meetings with JFK assassin Lee Harvey Oswald in Mexico and his defection to Soviet Russia. They then tried to mask their involvement through a disinformation campaign called “[Dragon Operation](#),” an effort to shift blame for Kennedy’s murder away from the communists.

So let’s not rule out foreign links to this violence.

I also believe drugs have played a role. Consider Barack Hussein Obama’s role in the drug culture. That’s another factor Joel Gilbert and I discuss in our program. Members of the Weather underground, who supported Obama for president, were heavy users of drugs. Bernardine Dohrn proclaimed they would win the revolution with guns and dope.

The root of this current phenomenon is Trump Derangement

Syndrome (TDS), which affected Rob Reiner. It is another form of mental illness. Reiner believed Trump was a racist and white nationalist and his supporters were all racists as well. He thought anybody opposed to Barack Hussein Obama and questioned his identity documents was a racist.

Drugs clearly played a role in his son's descent into madness. Joel Gilbert, based in California, discusses how Hollywood is awash in mind-altering drugs.

In the JFK assassination case, the Cubans wanted Kennedy dead because he had opposed the Cuban revolution, tried to overthrow Castro, and tried to have Castro assassinated. In his last prepared speech before his death, Kennedy declared that he was determined to stop communism's advance around the world by making the U.S. into the strongest military power on earth.

Former CIA officer Brian Latell's book, *Castro's Secrets*, discloses intelligence information that Castro knew that Oswald was going to kill President Kennedy. A former Marine turned Marxist, Oswald was a member of the pro-Castro Fair Play for Cuba Committee.

One final word about the peaceful indigenous people.

As we (most of us) celebrate American independence in 2026, let's remember that our sacred document, the Declaration of Independence, included a section that said, "He [King George III] has excited domestic insurrections amongst us, and has endeavored to bring on the inhabitants of our frontiers, the merciless Indian Savages, whose known rule of warfare, is an undistinguished destruction, of all ages, sexes and conditions."

An honest rendition of American history shows that Indians hostile to the revolution raided white settlements, murdering men, women, and children. The barbaric practice of scalping was so common by the Indians that some forts had people who

specialized in treating scalped heads. One of the scalping treatments was called “pegging.”

Another part of relevant history, frequently overlooked, is that Indian tribes owned slaves. One tribe, the Chickasaws, owned over a thousand black slaves. Several Native American tribes sided with the Confederacy during the Civil War.

Native Americans played a key role in the conflict, entering into the war on the Confederate side. A good book on the topic is *The Confederate Cherokees* by W. Craig Gaines.

Today, President Andrew Jackson is supposed to be a villain, as communist agitators tried to take down his statue in Lafayette Park near the White House, calling him a “killer” for removing Indians from areas of conflict in the new America to federal safe zones or havens for their own protection. Jackson offered the Indians federal protection and became the legal guardian to a Native American orphan Jackson found in battle.

It was a highlight when I received the Andrew Jackson “Champion of Liberty” Award from Howard Phillips and the U.S. Taxpayers Alliance on September 17, 2008. The award was given on the Conservative Caucus 8th annual commemoration of Constitution Day.

We must as a nation isolate and even detain the enemies within, and they are legion.

Even the editor of the CFR journal Foreign Affairs says we are returning to the era of “Total War.” He notes, “the Trump administration asked Congress to approve the largest-ever U.S. arms package for Taiwan, and the head of the British military said the United Kingdom needs more people ‘ready to fight,’ given threats from Russia.

They have published, “Understanding – and Preparing for – a New Era of Comprehensive Conflict.”

Speaking of Russia, nuclear war, and doomsday, consider watching my show with prepper Greg Koziol, [“Surviving the Planetary Civil War.”](#)

Attorney General Pam Bondi’s December 4 [memo](#), “Implementing National Security Presidential Memorandum-7: Countering Domestic Terrorism and Organized Political Violence,” is a good start. Much more needs to be done.

Lock them up!
