

We MUST Stop Illegal Aliens from Voting

By: Devvy

February 12, 2024

Despite all the conspiracy theories by the MSM and their anchors, all of whom have mental constipation and continue to barf Biden won, the 2020 election counting process was the dirtiest, most massive fraud I've ever seen since I started learning about election fraud back in 1993. Fair and equal elections have been stolen from us since the 1960's.

I've written so many columns on this over the decades but the Big Steal in 2020 finally got the attention of tens and tens of millions of voters. If one thinks the 2022 election (selection) process was fair, they would be badly mistaken.

[BREAKING: Abe Hamadeh Files Reply in Motion for New Trial In Arizona Attorney General Election Lawsuit – FILING INCLUDED](#), Feb. 26, 2023. 280 vote "win" for another lying, cheating Democrat. If you do read that article, I hope it makes you very angry. Hamadeh [filed an appeal](#) in Sept. 2023: "Although the trial court believed the Arizona Attorney General's race is "one of the closest elections in Arizona history and perhaps the history of the United States" and that **there was critical, potentially outcome determinative evidence withheld by then Secretary of State Katie Hobbs and Maricopa County that could prove Abe Hamadeh received more votes for attorney general than Kris Mayes**, it nonetheless denied Hamadeh's Motion for a New Trial on the specious grounds that election contest statutes are exempt from due process, and that **the**

government can withhold evidence.”

In AZ, their Court of Appeals says it's perfectly fine Arizona's government can withhold evidence. Absolutely beyond sickening.

[MORE FROM KARI LAKE'S LAWSUIT: 25,000 Ballots Added To Maricopa County's Vote Totals AFTER Election Day](#), Dec. 11, 2022 (Lake is running for the Senate and if the same fraud is pulled on voters in 2020 & 2022, she will lose.)

Do ignore the “overturn the election” propaganda. You can't over turn an election that was “won” based on fraud. Hamadeh was cheated the same as I was in '94 & '96 in California when I ran for Congress. Even though people said I should run again I said I will NOT as long as electronic machines and scanners are used to count the vote.

[Court refuses to take up Hamadeh's bid to overturn AG's race results](#), Aug. 23, 2023 – The AZ “Supreme Court” sided with fraud.

[Election investigator wins lawsuit over 120,000 missing voters – Far fewer people registered to vote in one state than there were ballots counted](#), Dec. 26, 2022 – “American voters soon may be getting an answer to what happened to the 120,000 people in Pennsylvania who allegedly voted in the 2020 election, but now cannot be found.

“Her “documented evidence showing that Pennsylvania's 2020 general election results show that there were 120,000 less voters registered to vote in Pennsylvania than there were ballots counted,” the legal team explained. “That's 120,000 votes that cannot be legally attached to an actual voter,” said Thomas More Society special counsel Tom Breth.”

In a recent column, I was ecstatic to see the RNC had filed a very serious lawsuit in Mississippi: [Finally: RNC Files Bombshell Election Lawsuit](#), Jan. 29, 2024. Federal Elections

END at midnight on ELECTION DAY. Those 'swing' states (such baloney labels) all violated federal law and a U.S. Supreme Court decision that stands today. The election is consummated ON a single election DAY.

Which brings me around to this – **YES!:** [TGP EXCLUSIVE: ELECTION INTEGRITY CHAMPION and AG Candidate Julianne Murray on How She Won Lawsuit Banning Mail-In Voting in Delaware](#) – VIDEO – **“The Delaware Supreme Court ruled on Friday that mail-in voting is unconstitutional in the state. It was a unanimous decision!”** READ.

As I pointed out in a recent column, we fought like hell to stop the Motor Voter Law in 1993. State legislatures for years have been violating federal immigration law by allowing ILLEGAL aliens obtain driver's licenses along with the bonus of signing up to vote with zero verification of anything about the person registering.

ILLEGAL aliens are NOT U.S. citizens. They have NO right to be on U.S. soil much less vote for elected officials at all levels in OUR country. But it's been going on for decades. Along with this (which I've cited so many times): [Illegal aliens: declaring war on the enablers](#) (Mine) April 30, 2010:

[“Why hasn't the Director of the U.S. Census Bureau been indicted? February 2, 2010](#)

“Keeping with the Obama Administration's mission to conduct the most diverse outreach campaign in history, the director of the U.S. Census Bureau is touring Mexican border towns with high illegal immigrant populations to **personally assure that those who fill out questionnaires this spring will not be deported.**

[“This is a safe thing for everyone to do regardless of your immigration status,”](#) the president's handpicked census director (Robert Groves) told residents of a renowned illegal alien “colonia” in south Texas this week. He visited several

dilapidated makeshift homes off of a dirt road in a Laredo neighborhood called San Carlos to stress that census data will be kept confidential and not turned over to immigration authorities.”

My fellow Americans – THIS is a direct result of allowing ILLEGAL aliens to fill out census forms. Make damn sure they get a cut of YOUR paycheck while your family goes without. GOP gas bags in the Outlaw Congress should have put a stop to this decades ago when they held the majority in both chambers of Congress and the White House.

[The Impact of Legal and Illegal Immigration on the Apportionment of Seats in the U.S. House of Representatives in 2020](#), Dec. 19, 2019 – VERY important read (Emphasis mine).
“Under current policy all persons – not just citizens – are included in the population count **when apportioning seats to states in the U.S. House of Representatives and for votes in the Electoral College, which is based on House seats.**”

Republicans held the majority in both the House and Senate for 18 months under Trump and NOTHING was done to keep the cancer from spreading.

2010: Republicans take House control. Republicans: 242; Democrats: 193. The lying, cheating constitutionally ineligible Marxist, Hussein Obama played president. But, on a straight party vote, Republicans could have over ridden his vetoes. Oh, can’t do that. It might be racist.

1994: Republicans take House control. Republicans: 230; Democrats: 204. Another Marxist[1] narcissist, liar, cheat and life long adulterer, Billy Clinton was president. With a majority, the GOP could have cleaned up a lot of fraud magnets in our voting process. They did NOTHING. But, then again, the shadow government wouldn’t be able to shoe-in their selections. (Majority in Congress [from 1899 – 2021.](#))

The all- important Electoral College. Now, we have

approximately 7 MILLION+ illegal aliens cross the border since fake president Biden was unlawfully sworn into office. That's not counting the 'get aways'. Of course, a couple million are probably minors, but you can bet your last dime the filthy, dirty bastards in the Democrat/Communist Party USA are going all out to get illegals registered to vote in every precinct possible in this country.

All those illegals voting for free everything, bankrupting hospitals, crushing our health care system, cheating American children out of a real education by overloading ILLEGAL minors from more than 100 countries, free food, housing – you name it. **Who do you think they're going to vote for?** Not to mention the new crime wave from rapists, murderers, thieves and terrorists who've crossed our border and unleashed into cities and towns all over this country.

[Texas Democrats ask noncitizens to register to vote](#), Oct.18, 2018: "The Texas Democratic Party asked non-citizens to register to vote, sending out applications to immigrants with the box citizenship already checked "Yes," according to new complaints filed Thursday asking prosecutors to see what laws may have been broken.

"The Public Interest Legal Foundation alerted district attorneys and the federal Justice Department to the pre-checked applications, and also included a signed affidavit from a man who said some of his relatives, who aren't citizens, received the mailing.

"This is how the Texas Democratic Party is inviting foreign influence in an election in a federal election cycle," said

Logan Churchwell, spokesman for the PILF, a group that's made its mark policing states' voter registration practices."

[Mexican national pleads guilty to illegal voting in Harris County](#) (TX), Sept. 13, 2018 – "Laura Janeth Garza, a 38-year-old Mexican national, was handed a 10-year jail sentence, a \$10,000 fine and will be deported after serving her jail time."

Think this isn't in the big states like TX, CA, NY, FL and others? It sure as hell is and our AG Ken Paxton has been a super charged leader in going after illegals voting. In Democrat/Communist Party USA states like MN, MI and others, they want illegals voting to keep them in power.

[7 Facts About Noncitizens Illegally Voting in Texas](#) – What Texans need to know about the tens of thousands of non-U.S. citizens found on Texas voter rolls. Jan. 28, 2019

"Texas' top election official [revealed Friday](#) that **95,000** individuals identified in the Texas Department of Public Safety database as non-U.S. citizens have registered to vote in Texas, and **58,000** of those have voted in one or more Texas elections. Here's what Texans need to know about the Secretary of State's findings:

#1: No one verifies citizenship of people registering to vote.

"Under current state law, it's easy for noncitizens to improperly register to vote. The process relies on an honor system – [applicants simply check a box](#) on the registration form stating they're a U.S. citizen. Once submitted, no one verifies citizenship status.

#2: State officials have failed to keep noncitizens off Texas voter rolls.

"Election integrity advocates have long called for adding citizenship safeguards to the registration system. Yet state

officials failed to act until [testimony before a state Senate panel](#) in February 2018 publicly revealed noncitizen voting as a “[significant problem](#)” in Texas.”

[State Official: 58,000 Non-US Citizens Voted in Texas Elections](#), Jan. 25, 2019 – “In an alarming [statement](#), Texas Secretary of State David Whitley revealed:

“For the past year, the Texas Secretary of State’s office has worked closely with the Texas Department of Public Safety (DPS) to evaluate information regarding persons identified to not be citizens of the United States. This voter registration list maintenance activity is being conducted in accordance with federal and state law to ensure that only qualified voters – [who must first and foremost be U.S. citizens](#) – are registered to vote in Texas elections.

“Through this evaluation, the Texas Secretary of State’s office discovered that a total of approximately 95,000 individuals identified by DPS as non-U.S. citizens have a matching voter registration record in Texas, approximately 58,000 of whom have voted in one or more Texas elections.”

“The voting records evaluated go back to 1996, a year after the National Voter Registration Act (also known as the “Motor Voter” law) went into effect requiring states to offer voter registration by mail-in application and as part of driver’s license applications.” Rest at link.

Trump’s people got blown to smithereens between electronic voting/counting machines and human precinct workers who had no problem cheating in 2020. They’re no better than thieves who rob a bank.

In 1996, B-1 Bob Dornan, a popular GOP U.S. House rep allegedly lost his race to an illegal alien, Loretta Sanchez (who visited the tittie farm known as Hugh Hefner’s palace looking for money for her charities). Of course, Dornan

challenged the vote but somewhere along the way, a forensic analysis wasn't done and Sanchez served in OUR Congress until 2016.

In 1997/1998 (I forget which year but I still have all the documents) when my late husband and I lived in Sacramento, CA., I went downtown (10 minutes away) to the Birth Records Division, paid the \$18.00 to get a copy of Sanchez's birth certificate. No record in any form of her being born in Lynwood, CA., a suburb of LA. I asked the clerk to please do another search. Nope.

So, off I went down south to the hospital where she was allegedly born and to their city records office. No birth certificate on file either in Lynwood or LA county. Oh, yes, I had her parents name as well as her six siblings.

Then off to two big libraries. Combed through microfilm from the year she was allegedly born in Lynwood, Calif. and for two years prior and two years after her alleged birth date. Not a single newspaper had an announcement of birth. Back to Sacramento to the Birth Records Division and a chat with one of the public servants there. Left me alone for a few minutes and came back with – Drum Roll! – a nice shiny birth certificate **no one could locate only the week before**. Well, imagine that. Something I did tripped an alarm.

United States Attorney General from 2005 to 2007, Alberto Gonzales, admitted his grandparents could have been illegals. Could have been? Well, Alberto, as the U.S. Attorney General it wouldn't have taken much for you to verify their legal status because if they were, your parents were also here illegally and so you would also be an illegal alien not the fiction called an anchor baby. Fine vetting job by the U.S. Senate at the time.

Oops: [Report: Ex-AG Gonzales Mishandled Classified Info](#), Sept. 7, 2008 – “The Justice Department's inspector general

has found that Alberto Gonzales mishandled top secret documents. The 29-page report released today says that the former attorney general risked exposing some of the nation's top secrets...

"At home, Gonzales acknowledged, he did not put the material into his own safe because he had forgotten the combination, nor does he remember whether he locked his briefcase. In the years that followed, Gonzales stored this information and 17 other documents that the inspector general discovered in a safe outside his Justice Department office that also was not designated as protected for such top-secret material.

"The report includes that the safe was accessible to more than a half dozen Gonzales staff members who did not have clearance to see such material.

"California Congresswoman Jane Harman, who served as ranking Democrat on the House Intelligence Committee, recalls that none of the members of Congress who were briefed about the surveillance program – none of them was allowed to take notes or to tell anyone else about what they had learned...

"Gonzales is hardly the only person to get in deep trouble over mishandling top-secret information. Career Justice Department lawyers who have made such careless mistakes have sometimes seen their careers ruined. And former CIA Director John Deutch, who wrote intelligence reports on his home computer, avoided criminal charges for mishandling information when he was pardoned by President Clinton." (Gonzales resigned.)

He couldn't remember? Must be a kissin-cousin of old Joe Biden. [Could Biden Face Charges? The Alberto Gonzales Precedent Says Not](#), Jan. 19, 2023. Gonzales was not indicted, prosecuted or slapped on the wrist. **But, President-Elect Donald Trump had his home raided for political reasons, indicted and now awaiting that trial down in Florida.**

From the article above: "There is no evidence to date that Biden had any knowledge that government documents were taken from the White House or any intent to take any government documents from the White House, let alone classified government documents." Well, the world has seen all the photos of boxes of scattered top secret classified documents in the basement and the same for classified documents for the withdrawal from Afghanistan in your garage, Joe, right behind your Corvette. How could he not know they were there?

State GOP presidents should put out a 'how to' NOW to every GOP County Chapter in their state to stop illegals from voting. This week I intend to talk with our Commissioners Court Judge (I voted for him and have spoken with him on a few occasions) for our county. This is a "red" county but I want to know how up to date the voting rolls are regarding who's registered in this county.

Found during the Dornan weak investigation on voter registration cards: A. Martinez, B. Martinez, C. Martinez, D. Martinez, L. Lopez, M. Lopez, N. Lopez – lots of them. All bogus addresses; empty lots or businesses. If you're a precinct captain get some volunteers down to your county clerk's office and start asking questions.

Judicial Watch has successfully sued many states that have NOT cleaned up their voting rolls: [Judicial Watch Sues Colorado to Force Clean Up of Voter Rolls](#), Oct. 5, 2020: "In its lawsuit against Colorado Judicial Watch argues: A 2019 study showed that 40 of Colorado's 64 counties had voter registration rates exceeding 100% of the eligible citizen voting-age population. The share of Colorado counties with registration rates exceeding 100% was the highest in the nation." [DC Removing 103,000 Ineligible Names from the Voter Rolls in Response to Judicial Watch](#), Dec. 8, 2023. (Americans need to raise hell with their county clerk and county commissioners for failing to make sure elections are fair. Vote them out of office for being incompetent.)

[Judicial Watch Study: 1.8 Million Extra Registered Voters](#), Oct. 16, **2020** – right before the Big Steal. That's another question for your county clerk on Election Day: How many registered voters in this county? Number of Republicans, number of Democrats. I can tell you over the past 30 years, the number of voters and the number of votes cast don't match up over and over and over around the country.

[Good news, good news, great news](#), Feb. 10, 2024 – Commit today to work in your local elections in 2024. We're all in this together. "And **Great News**. Fair Fight appealed to the U.S. Court of Appeals for the 11th Circuit, asking the court to overturn True the Vote's recent victory against them in the Federal District Court. [You can read more about the case here.](#)

"Why is this great news? Though we don't relish the thought of going back to court, the upside is worth it because **at the Appeals Court, we can establish case law that will impact the nation.**" See the X quick clip embedded.

Fair and impartial elections is a fairy tale. Satan's Pimps are out for Trump's blood and **will do anything to keep him from winning in November** as well as highly qualified candidates for the House and Senate. Only WE can prevent another obscene steal during the upcoming primaries and general election AND stop MILLIONS of ILLEGAL ALIENS from voting in OUR elections.

Candidates and all your supporters, volunteers and donors: Don't let the evil doers get away with stealing the primaries and general election again in November. **ILLEGAL aliens must be purged from voting rolls.** Boots on the ground.

Trump's election team darn well better be prepared this time or it's game over for our republic. Yeah, I know you're tired and busy and so am I, **but the global masters are ruthless and evil.** They're in a real bind right now regarding keeping corrupt Joe Biden as the Democrat/Communist Party USA

nominee. Even their big money donors don't want that nitwit, Kamala Harris in the Offal Office. (Harris, like Obama, is constitutionally ineligible.)
