

We Need to Halt All Legal Immigration into America, NOW!

"We are a nation of immigrants," yell all the demonstrators during I.C.E. raids in Chicago. "Immigrants built America."

That was then; this is now!

During Halloween weekend, three Muslim terrorists in Dearborn, Michigan, a hotbed of Muslim immigrants, plotted to create another mini-9/11. Once caught, police discovered those terrorists had connections with other Muslim terrorists in New York City, and another one of them in Minneapolis.

Dearborn features 300,000 legal Syrian Muslim immigrants. Minneapolis sports 125,000 legal Somalian immigrants. New York City, site of Islam's 9/11 event, features 750,000 to 1,000,000 legal and illegal Muslims. Thousands of them have defrauded America with false immigration claims. Most of them rely on welfare and food stamps. All of them adhere to Sharia Law and the Quran. Few if any of them possess any affinity with America or our U.S. Constitution.

Theirs is a combination of a political-religious ideology that demeans-discounts every other form of religion on Earth. Islam demands "Submission" to its barbaric constructs by all of its constituents. If anyone tries to leave that religion, the imams put out a "fatwa" to have that person killed.

Do any of those legal immigrants possess any commonality to American citizens? Do they possess any of our values as to women's rights, religious rights, children's rights, and simply respect for the American way of life? Answer: none whatsoever.

They are here to "seed" (Hijra) America with their numbers until they can overcome our Constitution and install Sharia Law. That's already been done in Dearborn, Michigan; Minneapolis, Minnesota, New York City, Miami and many other cities in America. Yes, they practice honor killings, female genital mutilation, and beatings here in America.

Right now, we've got Afghanistan Muslim refugees, Iraqi refugees, and another dozen Muslim countries donating their refugees into America. Notice there are 56 other Muslim countries where they could migrate, to be at home with Islam, but they choose to flood America, Canada and Europe with their numbers. If you haven't visited Europe in the past five years, or if you visited it 30 years ago, you would not recognize any of the countries that once enjoyed Western Culture. Europe has been conquered via immigration by the Muslim hordes out of the Middle East and Africa.

MAMDANI IS PROOF WE HAVE A LEGAL IMMIGRANT PROBLEM

While we try to rid ourselves of 25 million illegal aliens, Ugandan Muslim Zohran Mamdani in New York City illustrates how Muslims are infiltrating our country at breakneck speed.

Again, this quote spells it out, "Islam isn't in America to be equal to any other faith, but to become dominant. The Quran should be the highest authority in America, along with Sharia Law, and Islam the only religion on Earth." C.A.I.R. director Omar Ahmad, legal immigrant.

“Before we get into the Mamdani election, let me tell you a quick little anecdote about living in Northern Virginia. About a quarter of our residents are immigrants, according to the Commonwealth Institute.”

But driving anywhere is like the Wild West.

“You’re cruising along and you see a back windshield sticker that say in all caps, “STUDENT DRIVER.” If you’re from a small town, you’re probably thinking, Oh, how cute, a teenager learning to drive! NO! About 99% of the time it’s an immigrant threatening to sideswipe an entire row of cars because they are about to miss their exit, or to slam on their brakes in the middle of the highway for no particular reason. It’s literal insanity. But our motorist problem in Northern Virginia is nothing compared to the real problems we’re seeing with legal immigrants throughout the country. There are DSA-backed immigrant candidates running for local office who hold rallies in foreign languages, claim to be in the country illegally, and don’t “really care” if kids access sexually explicit material.

“Many of the immigrants who came to the U.S. recently are entitled, refuse to assimilate, bitch incessantly, hate American values and resent our Judeo-Christian traditions. Just look at Mehdi Hasan complaining that people don’t want the Muslim call to prayer blaring through the neighborhoods five times a day.”

There is an obvious problem with legal immigrants in this country. Trump said it a decade ago: THEY’RE NOT SENDING THEIR BEST. And America is gladly accepting NOT THE BEST.”

In fact, if you examine the reality that Somalian immigrants sport an average IQ of 68, we’re importing the dregs of humanity—that we must support for all their lives with our tax dollars. Not to mention that “Somaliland” in Minneapolis is rife with drug distribution, immigrant fraud, Medicaid fraud

and, they defrauded EBT cards to the tune of \$200 million two years ago. No one was prosecuted because Governor Walz didn't want to be known as a "racist" for enforcing the laws.

This brings us to Mamdani's win. Pre-election polls showed Mamdani crushing with foreign-born voters, who make up roughly 37% of the city. NBC News exit polls similarly show that Mamdani performed best with people who have lived in New York City (note: this includes immigrants and transplants from around the country) for ten years or less. Mamdani is an immigrant himself.

"That's why his insistence that his "auntie" was the real victim of 9/11, his trashing of the NYPD, and his idiotic promises of a socialist utopia to fix real affordability problems don't raise any red flags for these voters. They have zero historical knowledge or respect for New York City's cultural traditions."

If you noticed those two illegal alien truck drivers, one in California, and the other in Florida, through their incompetence and illiteracy, killed six Americans.

We could cover hundreds of other consequences such as over 300,000 drug deaths of Americans in the past four years from immigrants distributing fentanyl, heroin, meth and worse. Our citizens are getting killed on our highways from drugged or drunk immigrants. The shoplifting stands at over \$100 billion annually. Are those legal immigrants part of the "Social Contract"? Schools suffer dozens of languages that make our students suffer. We've got over half of all legal immigrants on food stamps which accounts for over 20 million immigrants eating our tax dollars up. Finally, we're \$38 trillion in national debt. Do want to pay for another 1,000,000 more legal immigrants annually?

As with Apollo Thirteen, "Houston, we've got a problem."

Population projections show at least 40 to as high as 75

million more immigrants added in the next 25-35 years...along with their millions of children.

As it stands today, our cities suffer incredible gridlock and air pollution. Our crowding at National Parks overwhelms the Natural World. We face water shortages in seven states. Our culture is being shuttled into a casket...in other words, immigration is killing our way of life.

MASS IMMIGRATION IS CREATING PROBLEMS THAT ARE BECOMING IRREVERSIBLE AND UNSOLVABLE

While the human race adds 83 million new babies, net gain, annually--there is NO WAY to save them without destroying ourselves. Help them in their own countries.

What is the obvious solution for us? Answer: stop all legal and illegal immigration, NOW.

What can you do? Call or write your two senators. Call or write your radio station or newspaper. Write 60 Minutes, NPR, and PBS to demand they address America's future as to human overpopulation. Speak up at your school board. Even if we only added 50 million people by 2050, it's unsustainable. We're already in "overshoot" as to energy, water, and resources. Let's create a national discussion, debate and conversation as to America's future. Do it for your kids.
