

# We the people: Hillary you will not steal this election

Donald Trump has done something millions of us have been trying to do for years – in my case since 1993: Make vote fraud a real issue. On October 22, 2016, Trump hammered on rigged elections during his Gettysburg speech. Poltroons on the right and left spent last week soiling their undies when Trump had the audacity to even suggest he wouldn't accept the outcome on November 8, 2016, if there were problems with the vote count. HYPOCRITES ALL OF THEM.

In 2012 the highly respected Pew Research Center [exposed the sickening state of voter rolls](#) in this country:

Nearly 2 million deceased registered to vote  
Close to 3 million registered in multiples states  
Approximately 24 million—one of every eight—voter registrations in the United States are no longer valid or are significantly inaccurate

More than 1.8 million deceased individuals are listed as voters

Approximately 2.75 million people have registrations in more than one state

I submit to you it's even worse now. County clerks have a difficult time with not enough money trying to verify eligibility and I'm betting in states like California that wants to bring in millions more illegals they don't give a damn. Let's not forget activist judges who want illegals to vote and are blocking voter ID laws. Where the hell is the U.S. Senate? They should impeach those damn judges but won't because they're all in bed together.

Besides the ones in the [archive highlighted](#) on my web site, I've written a slew of them for Newswithviews over the past 14 years and other publications. [Democratic National Committee v Republican National Committee](#)

Case No. 09-4615 (C.A. 3, Mar. 8, 2012)

“In 1982, the Republican National Committee (“RNC”) and the Democratic National Committee (“DNC”) entered into a consent decree (the “Decree” or “Consent Decree”), which is national in scope, **limiting the RNC’s ability to engage or assist in voter fraud prevention unless the RNC obtains the court’s approval in advance.** The RNC appeals from a judgment of the United States District Court for the District of New Jersey denying, in part, the RNC’s Motion to Vacate or Modify the Consent Decree. Although the District Court declined to vacate the Decree, it did make modifications to the Decree. The RNC argues that the District Court abused its discretion by modifying the Decree as it did and by declining to vacate the Decree. For the following reasons, we will affirm the District Court’s judgment.

“During the 1981 New Jersey gubernatorial election, the DNC, the New Jersey Democratic State Committee (“DSC”), Virginia L. Peggins, and Lynette Monroe brought an action against the RNC, the New Jersey Republican State Committee (“RSC”), John A. Kelly, Ronald Kaufman, and Alex Hurtado, alleging that the RNC and RSC targeted minority voters in an effort to intimidate them in violation of the Voting Rights Act of 1965 (“VRA”), 42 U.S.C. §§ 1971, 1973, and the Fourteenth and Fifteenth Amendments to the Constitution of the United States.

“The RNC **allegedly** created a voter challenge list by mailing sample ballots to individuals in precincts with a high percentage of racial or ethnic minority registered voters and, then, including individuals whose postcards were returned as undeliverable on a list of voters to challenge at the polls. The RNC also allegedly enlisted the help of off-duty sheriffs and police officers to intimidate voters by standing at polling places in minority precincts during voting with “National Ballot Security Task Force” armbands. Some of the officers allegedly wore firearms in a visible manner.

“To settle the lawsuit, the RNC and RSC entered into the Consent Decree at issue here. Last month, the U.S. Supreme

Court refused to stop it: Supreme Court declines to hear Republican voting challenge: "The Supreme Court on Monday refused to hear a legal challenge by the Republican National Committee to dissolve a 1982 decree designed to stop the improper suppression of voting by particular groups."

We the people deserve honest elections regardless of which party anyone belongs to and have the absolute right to challenge the outcome of any election. There's no question INELIGIBLE Barry Soetoro aka Obama stole the office of president through fraud and massive vote fraud in 2008 & 2012. I will NEVER recognize that lying fraud as president of this country because he isn't. Like Hillary Clinton, Soetoro was protected by the media – newspapers, the alphabet soup networks including FOX and radio hosts. ALL of them allowed that fraud to take office and that includes the gutless cowards in Congress.

We know Ohio, Pennsylvania, Virginia, Florida, California and the City of Chicago are the proven worst with Texas now under scrutiny in certain areas for vote fraud. **WE don't need some court's approval to prove human, electronic or ballot vote fraud.**

Don't believe the polls. Trump is leading by more than the prostitute media wants everyone to know. I follow this circus everyday. Most of my time is spent on research. I firmly believe the only way at this point for Hillary the pathological liar to beat Donald Trump is vote fraud. That's why WE THE PEOPLE must pledge to step forward November 9th if she is declared the winner. Trump must NOT concede the night of the election should the obscene 'mainstream media' and cable networks announce he lost.

If you do Facebook, go to Trump's and post DO NOT CONCEDE THE ELECTION. Send him a tweet thing. There is an army out in America in every county you allegedly lost that will go to

their county clerk's office November 9th and begin going through voting records. That means a list of registered voters. Sign in log books for everyone who voted in your county. It means a difference of registered voters and vote cards in some areas. There are 3,142 counties in this country. More than 13 million Americans voted for Trump in the primaries. I'm sure we can find 3,142 Americans to do an analysis in their county if Trump allegedly lost that county.

I've done hundreds of counties after elections over the decades and I can tell you in every single case the list of registered voters never matches the number of votes cast. In some cases where I was able to drive to, some addresses listed on voter registration cards turned out to be empty lots with a half dozen or more people listed as living there. The Motor Voter Law of 1993 opened the flood gates for vote fraud. Despite we the people's attempts over the years to get it abolished, it's there and an open invitation for illegals to vote in OUR elections and they vote overwhelming for Democrats who promise them the fruits of your labor.

When I moved to Howard County, Texas, in June 2006, I was ecstatic we had paper ballots. In 2010 that was done away with and we're all forced to use easily rigged machines. In the columns I have archived on my site (highlighted above) – every one of them has facts and statistics regarding electronic voting machines. How easy they are to rig for one candidate over another.

[Vote fraud IS real](#) and it's how the shadow government (not a conspiracy, but a fact) keeps their minions in positions of power and keeps constitutionalists out of office. It's too bad Paul Ryan's opponent in his primary as well as John McCain's didn't contest their loss. No doubt in my mind vote fraud put Ryan and McCain back in office. None.

In Austin, Texas, Laura Pressley has become a force to be

reckoned with and I urge you to read this: [We ARE keeping our paper backup records for the November Election–Latest Updates](#)

Do you know what safeguards and back up records are used in your county? Early voting has already started. **Are we going to once again allow vote fraud to put yet another destroyer in the White House?** THIS IS IT, folks. There's no going back if Hillary Clinton gets into the White House.

I have put together a last Appendix for this election. There is so much credible information out there it can be overwhelming so I put it all together for you to read as you can or want. It includes information on vote fraud and more. Also, there's a huge movement for everyone to wear red when you vote Nov. 8th. Why red? For all the blood spilled to keep America a free constitutional republic. We want to see a sea of red on election day to show overwhelming support against tyranny and evil.
