

What Are Kamala and Biden Doing to Destroy Our Country?

Answer: PLENTY!

It's almost beyond comprehension that the Harris-Biden administration has betrayed the American people on a level of criminal intent beyond understanding. They have violated Article IV, Section 4 of the U.S. Constitution everyday for the past 3 1/2 years. They have violated our U.S. Code 8, Section 1324. Our U.S. Congress has let Harris-Biden get away with violating our laws, our rights, our citizenship and our sovereignty.

In the process, they've gotten over 250,000 Americans killed with drugs coming over the border via Mexican cartels that care little about human life. Ask the parents of all those dead kids how they feel about open borders into the USA.

Harris-Biden killed the University of Georgia student Laken Riley and hundreds, if not thousands of American victims as to murder, rapes, drug deaths, drunk driving deaths and worse. Harris-Biden killed 13 of our finest military personnel in the incompetent, absurd and deadly exit from Afghanistan. General Milley commanded the largest military debacle in U.S. history. Yet, no one paid any price or demotion for that fiasco. VP Harris smiled at the reporter when she said she was satisfied with her part of the withdrawal. She was the last person in the room with Biden when he called for the withdrawal. Ask anyone

of the parents of those 13 kids who Harris-Biden got killed.

An invasion like no other in history.

What do you mean? Answer: self-inflicted by Harris-Biden. At no time in history has one country absorbed over 15 million to as high as 21 million illegal migrants in a 45 month period. Harris and Biden do not hold or honor America as a sovereign state. They have abolished our entire southern and northern borders.

If you break into most countries unlawfully, they arrest you, some countries shoot you, and others slap you into prison. Under Harris-Biden over 15 to 21 million illegal aliens receive taxpayer housing, food, schools, medical care and transportation.

Places like Denver, Colorado have been overwhelmed with 45,000 illegals. They steal, rob, shoplift, and form gangs to terrorize citizens. Springfield, Ohio features a nightmarish 15,000 illegals destroying the fabric of their city into lawlessness, chaos and death.

What do we do with 15 million illegal aliens? What's the purpose of Harris-Biden's engineered invasion of our country? Do they want to destabilize our country beyond solving our own problems which are epic? How are we to contain Muslim immigrants who chant, "Death to America" when their numbers grow to greater numbers than our own citizens? Have you visited Detroit, Michigan or NYC? They are no longer American cities. Over 800 languages are spoken in NYC. How will that kind of linguistic chaos play out? Answer: not well.

Have you seen the 500,000 homeless in America? How do you solve their plight? Why would you import an added 15 million homeless on top of our own homeless? What kind of solutions does Harris have for that nightmare? What if she gains the White House? What if she succeeds in her call to "Defund the Police" and "Reimagine the Border Patrol" to fit her needs to

destroy our sovereignty?

Point blank: Kamala Harris stands clueless as to geopolitical gamesmanship. She's not only ill equipped, but blatantly incompetent to deal with Putin, Ung of North Korea or the leader of China. Those boys will eat her for breakfast.

As to economics, she is barking down the wrong road with "price controls." Don't work! Never have worked! Can't work!

It's almost beyond astounding that all democrats will vote for her when, eight weeks ago, they were terrified that Biden might die, and she would become the new president. The fact is, Biden has been the most corrupt and incompetent president in modern history. He has suffered from Alzheimer's for over four years. His wife knew it, but lusted for power, and covered it up. Kamala knew it, but kept it hidden. Biden's inner circle knows it, but they, too, cling to power.

No question that if Kamala gains the White House, she brings Governor Walz from Minnesota with her. He's the man that lied about his military career. He told reporters that he doesn't respect our sovereignty as a nation. He told a reporter that he does not honor America's borders and that if Trump built a 25 foot wall, Walz would invest in a 30 foot ladder company to have illegal aliens breach that wall. Walz allowed 125,000 of his Somalian immigrants to steal \$200,000,000.00 in EBT card fraud, and, get this, he didn't press charges because he didn't want to appear "racist."

Then, the insanity of "transgenders" men being able to compete against DNA women must be the most incredibly insane aspect of modern day America. Yet, Kamala wants to give transgender surgeries to criminals in prisons. We already pay an average of \$65,000.00 per criminal in our prisons, annually, and she wants to give them taxpayer surgeries to cut them up and turn them into physically and mentally deformed freaks. None of it makes sense, but it makes sense to Kamala Harris. Which shows

you that she, too, suffers from a few loose screws in her brain.

America Becoming a Criminal-Dominated Country

The more Harris-Biden continue importing criminals, the more our country becomes a society of chaos, lawlessness and conflict. Note this headline:

“It’s chaos as vast hordes of criminals literally Rule the streets in major cities all over America”

“As you will see later in this article, law enforcement authorities in Chicago have completely lost control of the Windy City, and a major gang war could erupt at any time. But of course it isn’t just Chicago that has descended into a state of complete and utter chaos. In Los Angeles, a horde of approximately 50 young criminals ruthlessly looted a 7-Eleven on Friday evening...A group of about 50 juveniles on bikes ransacked a 7-Eleven in Pico-Robertson on Friday evening, the latest in a string of recent robberies targeting the convenience chain,” authorities said.

Here is a letter from a reader that defines our future if we continue on this massive immigration invasion path:

Hi Frosty,

Thanks for this important article. I live 25 miles from Springfield, Ohio. I worked at a travel agency in Dayton, OH around 1975.

We would send travelers anywhere on the planet, EXCEPT Haiti!!! Feel free to mention that in your articles.

On travel.state.gov website it shows a travel advisory to Haiti as a Level 4 & warns DO NOT TRAVEL.

It’s due to kidnapping, crime, civil unrest, & limited health

care. So why would the USA bring them here?

Such lies in believing somehow these 3rd world animals will behave like civilized persons. It has traumatic consequences on every city they invade. So glad you see them for what's really happening.

On November 5, 2024, it's up to intelligent, rational, and informed citizens to vote for a president that actually puts Americans first.
