

What really happened in Mexico and Benghazi?

Next time America, it might be your son or daughter!

“Eloquent lips are unsuited to a godless fool— how much worse lying lips to a ruler!” -Proverbs 17:7

Experienced at sitting in Congressional hearings, Hillary presented herself during the Benghazi hearings expressing concern about the issues raised by the independent board that reviewed the attack and its causes. She teared up, her voice growing hoarse, as she talked about burying Stevens and speaking with the families of the deceased. But why is it that Hillary has always refused to admit the whole truth – nothing but the truth?

What difference does it make that President Obama and administration officials including Clinton **LIED** to the world when they initially claimed that the deadly Sept. 11 attack on the U.S. consulate in Benghazi began “spontaneously” in response to an anti-Muslim video? Six weeks after the incident when government emails began showing the White House and the State Department were told even as the attack was going on that Ansar al-Sharia, a little-known militant group, had claimed credit for it- still they continued to **lie**.

ALL Americans must come to terms with who Hillary Clinton is. If you were to eliminate half of the stories about her and Bill, their personal bio would still rate an F. Her greed and malignant hatred of average Americans are even more dangerous when combined with her overarching arrogance and “power to control” agenda.

Aggressive and bitter, she’s certainly hoping to be our next president because she believes she deserves it and that she has done enough for this country that it is owed to her.

Hopefully, there are enough Americans who have wised up to the Clinton and Clinton/Bush Cabal and they know if she does win the presidency it would be because her victory will be the result of active voter fraud to the ruination of this country.

Truth be known, Ambassador Stevens was **sent** to Benghazi in order to retrieve US made Stinger missiles supplied to Ansar al Sharia **without** Congressional oversight or permission with Hillary at the helm of the deal. Hillary brokered the deal through Stevens and a private arms dealer named Marc Turi.

When on July 25th, 2012 some of the shoulder fired missiles ended up in Afghanistan and were used against our own military. When a Chinook helicopter was taken down by one of our own Stingers an ordnance team recovered the serial number off the missile which led back to a cache of Stingers being kept in Qatar by the CIA. Obama and Hillary were now in full panic mode and Stevens was sent in to retrieve the rest of the Stingers. This was a "do-or-die" mission, which explains the stand down orders given to multiple commando teams and the lack of response for help.

Evidence has proved that the "Dynamic Duo" along with the Obama administration had not simply been engaging, legitimating, enriching and emboldening Islamists who have taken over or are ascendant in much of the Middle East, but starting in March 2011, senior American diplomat J. Christopher Stevens was designated the liaison to the "opposition" in Libya, and the Obama administration has been arming them, including jihadists like Abdelhakim Belhadj, leader of the al Qaeda franchise known as the Libyan Islamic Fighting Group.

Once Moammar Gadhafi was overthrown, Stevens was appointed ambassador to the new Libya run by Belhadj and his friends. Not surprisingly, one of the most important priorities for someone in that position would be to try to find and secure

the immense amount of armaments that had been cached by the dictator around the country and systematically looted during and after the revolution.

It was the **State Dept.** (Clinton), not the CIA that supplied the Stingers to our sworn enemies, because General Petraeus wouldn't supply these deadly weapons due to their potential use on commercial aircraft. In retaliation Obama threw Petraeus under the bus after he refused to testify that he OK'd the lies being used as talking points about a spontaneous uprising due to a YouTube video.

Now it is October, 2016 and the Obama administration has moved to dismiss the charges they brought against Marc Turi, the very same arms dealer accused of selling weapons that were destined for the Libyan rebels. Lawyers for the Justice Department have filed a motion in federal court to drop the case against Marc Turi, whose lawyers also agreed to the motion which averts a trial that threatened to cast additional scrutiny on Hillary Clinton's private emails as Secretary of State, and to expose reported CIA's attempts to arm rebels fighting former Libyan leader Moammar Qadhafi.

Turi was originally indicted in 2014 on four felony counts in an attempt to use him as a scapegoat and take pressure off of Clinton: two for arms dealing in violation of the Arms Export Control Act and two for lying to the **State Department** in

official applications.

A Turi associate asserted that the government dropped the case fearing the proceedings could present further repercussions for the Hillary campaign. Turi stated, 'I still don't really know who the unjust actors were who launched this attack against me from the shadows. I just hope that someday there will be someone that will be held accountable.

Additionally, those there to support, defend and protect Ambassador Stevens had no idea that the final plan in place was a smoke screen as to the gun running. They murdered Stevens and the others just as if they had pulled the triggers and then had the un-medicated balls to sit and watch the whole thing happening and then go to bed.

Obama and Hillary committed treason...and THIS is what the investigation was all about. This is one of the reasons behind why Hillary had a private server, (in order to delete the digital evidence), and why Obama, two weeks after the attack, told the UN that the attack was because of a you-tube video, even though everyone knew it was not.

I would like to interject here in relation to Hillary's server and all the destruction of the e-mails and lies. If your every move and action wasn't shrouded by lies, deceit and deception, Hillary and all her friends would have nothing to worry about would they?

✖ Further...the Taliban knew that this administration had **aided and abetted** the enemy without Congressional approval when Boehner created the Select Committee and the Taliban began pushing the Obama Administration for the release of 5 Taliban Generals.

So we have a traitor as **POTUS** that is not only corrupt, but compromised...and a woman who wants to be **POTUS** that is a serial liar, perjuring herself multiple times at a Hearing being

overseen to protect POTUS. Only brain dead women, NOW men and those with their hands out and palms up will support her. Perhaps this is why no military aircraft was called in...because the administration knew our enemies had the Stingers.

In the dismissal motion, prosecutors say “discovery rulings” from U.S. District Court Judge David Campbell contributed to the decision to drop the case against Turi. The joint motion asks the judge to accept a **confidential agreement** to resolve the case through a civil settlement between the State Department and the arms broker. Under the deal, Turi admits no guilt in the transactions he participated in, but he agreed to refrain from U.S.-regulated arms dealing for four years. A \$200,000 civil penalty will be waived if Turi abides by the agreement.

Turi adviser Robert Stryk of the government relations and consulting firm SPG accused the government of trying to scapegoat Turi to cover up Clinton’s mishandling of Libya.

“The U.S. government spent millions of dollars, went all over the world to bankrupt him, and destroyed his life – all to protect Hillary Clinton’s crimes,” he said.

Plainly put, American citizens were murdered as a direct result of actions taken by their own government and it smells a great deal like the deadly-but-forgotten government gun-running scandal known as “Fast and Furious” which has lain dormant for years, thanks to White House stonewalling and media compliance.

A writer I follow wrote earlier this year, “In my humble opinion, one of the scandals for contender in the top two or three, is one that barely gets mentioned anymore. I refer to Secretary of State Hillary Clinton’s actions during and after the “Fast and Furious” gun-walking scandal.

In March 2009, Secretary of State Hillary Clinton announced to reporters on a trip to Mexico: “Since we know that the vast

majority, 90 percent of that weaponry used by Mexican drug cartels comes from our country, we are going to try to stop it from getting there in the first place. The guns sold in the United States, which are illegal in Mexico, get smuggled and shipped across our border and arm the drug-dealing criminals so that they can outgun poor police officers along the border and elsewhere in Mexico.”

Research found the 90-percent-lie was a complete fabrication. It was told by William Hoover, of the Bureau of Alcohol, Tobacco, Firearms and Explosives (BATF), and then spread like wildfire by Democrats and the media. Go figure! The claim was an abject [intentional lie](#).

Truth is – Obama, his Secretary of State, Hillary Clinton, and Attorney Gen. Holder swore, repeatedly in public, that 90% of the firearms being recovered in Mexico came from unscrupulous firearms dealers in the United States. Liberal members of both houses of Congress, and a reliable anti-gun media helped support this massive lie. Mexican President Felipe Calderón supported this massive lie.

Truth is – Mexican law enforcement authorities send only a fraction of the guns they recover from criminals back to the U.S. and they are only the ones with U.S. serial numbers on them.

Truth is – Of the 100,000 weapons recovered by Mexican authorities, only 18,000 were determined to have been manufactured, sold, or imported from the U. S. and of those 18,000, just 7,900 came from sales by licensed gun dealers.

Truth is – This was an exercise in lying by omission by anti-gun Democrats.

Truth is – Not one person has been held accountable for the lie which caused both American and Mexican lives; not one AFT agent, dept. of Justice employee, Obama, Clinton, Holder or any other person involved in this massive lie has lost their job; but they have been given advancements and change of jobs.

On October 11, 2011, it was reported that the State Department and Secretary of State Hillary Clinton were deeply involved in the gun scandal "Fast and Furious". New evidence had surfaced indicating that not only was Hillary deeply involved in the scandal but was one of the masterminds behind it.

Investigative citizen journalist's David Codrea and Mike Vanderboegh were the first to disclose the development of the scheme which showed Hillary and her trusted associate at State, Andrew J. Shapiro, devised at least part of the framework of what would later become Operation Fast and Furious. It was Shapiro who first described the details of the proposed scheme early in 2009 just after the Obama Administration took office.

Under Attorney General Eric Holder, the Department of Justice declared war on the people of Mexico. The problem is that war ended up extending back into the U.S. murdering Americans.

Hundreds of people, including elected officials, law enforcement officers, and even children have been murdered with guns smuggled over the border in Fast and Furious, one of up to ten gun-walking operations being carried out in border states from California to Florida, supplying 20,000 guns to narcotic terrorists at precisely the same time that President Barack Obama, former Attorney General Eric Holder, and Secretary of State Hillary Clinton were pushing the infamous

90-Percent Lie in an effort to manufacture an excuse to ban certain firearms.

Using the ATF, the Justice Department carried out the covert operation while violating the laws of the United States, supplied thousands of weapons to the enemies of the country and people of Mexico, and the subsequent murder of hundreds of Mexican citizens. The operation also produced the collateral damage of one or possibly two murdered US federal agents, and put at risk the lives of other US citizens on this side of the border. In other words, Obama, Clinton and Holder have **lied repeatedly**, and hundreds have died in an un-named war against our southern neighbor.

Never mind Chappaquiddick, Watergate, or Iran-Contra: "Fast and Furious" is arguably one of the greatest scandals in American political history. We haven't even touched on Extortion 17 yet. At the time, it most certainly was the greatest scandal never reported by the main media outlets. Obama and Clinton's progressive misadministration sought to launch an attack on the **second amendment** by "proving" that **lax US gun laws led to Mexico's drug-fueled violence. It was decided to "prove" that by the U.S. providing the guns as their proof.**

If Hillary wasn't involved as stated then why no anger with Holder and Obama over using her to push forward the stronger guns laws and lying to the public?

At what cost is this liberal, progressive government willing to go to gain control of our guns? They know that as long as Americans still abide by the Second Amendment and hold their guns close, they cannot totally steal our country away from us.

These additional lies along with Hillary repeatedly talking about taking on Russia and/or China and being completely

willing to use nuclear weapons to make her point, how can anyone feel they could sleep at night with her to sitting in the Oval office?
