

What The American People Weren't Told About January 6th

The SWAMP people in Washington DC do not like journalists like Tucker Carlson exposing their nefarious activities. They hate seeing a light shined on their unscrupulous agendas.

For instance, Jesse Waters exposed that former House Speaker Nancy Pelosi made millions of dollars on “insider trading” of defense contract stocks that she supported with her votes over the 20-year war with Afghanistan and Iraq. She made millions and lived the “high life” in Washington DC, while our young soldiers died to the tune of 7,500 combat deaths and 114,000 suicide deaths over that 20 year period.

Before that, 60 Minutes reporter Steve Kroft caught her red-handed at a news conference where he asked her if her stock trading wasn't malfeasance. She answered that she was above board on all her dealings and she was legal in her activities. It makes you wonder why those two wars took **20 years to lose**.

Of course, you cannot help remembering that the CIA and FBI dreamed up the Trump-Russia collusion scandal as certain agents tried to derail the Trump presidential run. Those same agencies continued with the Mueller investigation that spent millions to find out that it was all a cooked-up fraud. Trump might be a self-absorbed narcissist, but he's All-American. He

actually secured our southern border and did a lot of good things for America.

In the past two nights, journalist Tucker Carlson, one of the finest investigative men in the field, exposed the "real" aspects via video records of what "really" happened on January 6th. He exposed the lies, the fraudulent activities and complete farce of the Liz Cheney-led Congressional investigation seeking to drag Trump into the gutter.

Not once did any of those agencies investigate Joe Biden and/or his son Hunter's oil dealings in Ukraine or China. Tell us how a drunk-drug addicted-sexual deviant could make \$50,000.00 a month to sit on the board of an oil company in Ukraine? Thus, the answer to that question jumps up in the front row: Joe and Hunter were/are as corrupt as Al Capone.

If truth and honor were leather, Hunter and his father Joe Biden wouldn't have enough leather to shoe a flea! How is that so? Easy! Joe Biden has been a member of Washington DC swamp for so long, he feels immune to being lawful Americans who actually work for a living. Same with Nancy Pelosi, et al!

After the first night's expose' by Tucker Carlson, even the SWAMP leader of the U.S. Senate, Charles Schumer, D-NY for the past 40 years, gave an impassioned plea to shut Carlson down.

Except, you cannot shut down facts! You can't stop our First Amendment rights. You can't get away with lying your butt off in a free society that's governed by the U.S. Constitution. Eventually, facts and the truth will come out by men such as Tucker Carlson, Jesse Watters, Mark Levin, and women such as Kayleigh McEnany, Harris Faulkner, Tammy Bruce, and other brave journalists.

What about January 6th ? A bunch of disgruntled Americans stormed the Capitol Building. A few broke down the doors. None of them carried guns of any kind. No one fired a shot...except a security officer killed a female military veteran without

cause. During the proceedings, most of the disgruntled citizens milled around taking pictures.

It was a riot, nothing more, nothing less. Out of 339 million American citizens in this country, only 2,000 rioted without weapons at the Capitol. I don't think you could call that an "insurrection." But what we didn't know: Capital police were warned to beef up their numbers a week in advance. Trump offered Pelosi who was in charge of security to bring in the National Guard. She declined that offer. The security guards asked for more bodies. They were declined.

A special, partisan committee was set up by ex-House Speaker Nancy Pelosi to review the events of Jan. 6, 2021, at the Capitol, when some people rioted and vandalized. The committee ignored a number of key factors.

"One that never was addressed was Pelosi's own culpability, as she refused President Trump's offer of National Guard troops to protect the building that day. Another was Capitol Police officer Tarik Johnson, who now has told Fox News' Tucker Carlson what happened that day.

According to Fox, Johnson, a 22-year veteran, was assigned to secure the certification of the 2020 presidential election.

"My voice is one of the first ones you hear on the audio transmission, so I did expect to get an interview (with the Jan. 6 committee) sometime, but it didn't happen," Johnson explained. "I guess the focus was on Donald Trump."

As Lord Acton said 100 years ago, "Power corrupts; absolute power corrupts, absolutely."

The GREATEST mistake of the Founding Fathers: not installing term limits of 6 to 10 years. Serve your country...and then, go back to your home state and make a living.

What have these "forever" elected reps done during their 30-

to-40-year tenures?

Joe Biden—50 years of living off the American taxpayer without accomplishing virtually anything other than giving hot air speeches that meant nothing.

Maxine Waters, D-CA, for 35 years, she's done nothing for 100,000 homeless in her state. She's been angry, provoked violence and lived the life of luxury while her constituents starve for jobs and housing.

Nancy Pelosi, D-CA, for 40 years, leeches off the American taxpayer, insider trading on defense contracts, supported 20 year wars, did everything she could to aid, abet and destroy law and order in America.

Hank Johnson, D-GA, over 20 years, thinks Guam will tip over because of too many people on one side of the island. A complete and intellectually bankrupt waste of taxpayer dollars.

And in 2023, we've got a whole new class of useless elected Congressional forever members: Alexandria Ocasio Cortez, Ilhan Omar, Rashida Tlaib, and the list grows and grows.

We're being led by a president with severe dementia, forever Senators and House members who are so corrupt, they would shame Caligula, Al Capone, Charles Manson, John Wayne Gacy, Ted Bundy, and Jim Jones.

If there was ever a greater reason to vote for Term Limits, the time is now!
