

When Democracy Dies in the Darkness

A cautionary tale of another democracy, Canada:

What happens in a country that loses its own cultural through mass immigration? Look no further than Canada, where its national identity is disintegrating. In 2015, soon after taking office, the new Prime Minister Justin Trudeau gushed to a fawning New York Times that, “There is no core identity, no mainstream in Canada. There are shared values – openness, respect, compassion, willingness to work hard, to be there for each other – but there is no core identity, no mainstream in Canada.”

Along with his fellow travelers in the institutions, he set to work ripping the country’s historic identity to shreds. The three prongs of the attack involved setting fire to its past, promoting LGBTQ and critical race theory in schools and government, and unleashing an unprecedented wave of mass migration. Only now that the full impact of this cultural revolution is sinking in is the country waking up. Even the mainstream liberal left admits things have gone too far.

Former Tory cabinet minister Kevin Klein added, “Today, our country’s identity is under siege, not from outside invaders but from within – by an ideology that seeks to erase what it means to be Canadian. The left’s relentless attack on our values, history, and sense of belonging is tearing at the very

fabric of our democracy.”

Look no further than the last four years of Harris-Biden in “ripping up America’s national culture and identity.” When democracy dies in the darkness, we citizens all live in the shadows—not heard, not honored and no longer part of the conversation of our own country. No longer in the conversation for our own national destiny! No longer a Constitutional Republic! We no longer enjoy a cohesive national identity.

When it comes to voting, the mainstream media now refers to “Arab-Americans.” What a farce! Muslims do not and will never subscribe to “democracy.” They only subscribe to Allah, Sharia Law and bowing to Mecca five times a day. They subscribe to honor killings, female genital mutilation, women valued at 1/2 a man, four wives, beating their women to keep them in line, and just about everything in violation of our laws. They cannot and will not assimilate or value what it means to be an American citizen. They will continue to use their numbers to out-vote America’s laws and culture, to turn their enclaves into Sharia Law. One look at Detroit, Michigan will bring that point home rather drastically. During Hamas’ attack on Israel, our Detroit Muslims chanted, “Death to America.”

Last week, in Norway, their top Islamic Im’am stated that “Norway will become an Islamic state.” All the top newspapers ran the story of their own country being destroyed by mass Muslim immigration. Since Norway houses a mere 4,000,000 people, its smaller numbers will easily be overtaken by Islamic immigration. And, like Harris’ America of mass illegal migration, those African/Middle Eastern immigrants keep pouring into Norway’s guts. Canada and Europe’s Western Cultures face being exterminated.

OUR FATE IN AMERICA

America faces being run by an unknown cartel of powerful men with mega money to control ABC, NBC, CBS, MSNBC, CNN, NPR and

the like, to control our choices, our thoughts, our understanding of events as they spin them away from reality.

Harris deliberately allowed the importation of 15-20 million illegal aliens that were not vetted, not lawfully invited, not a part of America's cultural fabric, outright criminals and insane asylum patients, and worse. She injected millions of fentanyl pills into our country to kill several hundred thousand American kids, 250,000 kids, to be exact.

And yet, the mainstream media promotes her and degrades Trump. He's had every kind of illegal and unwarranted attack on him such as the Russia Hoax, the New York Trial Hoax, the Impeachment Hoax, the Georgia Trial Hoax, Law Fare Hoax and more. And then, he's got the media calling him Hitler as they take aim to kill him. Even Biden said he needs to be in someone's "bull's eye." That inane talking head Joy Reid, who couldn't pass an eighth grade science test, wants him "eliminated." And the Secret Service has become a laughingstock for anyone who wants to kill him.

Exponential Growth Cannot Be Sustained

My friend and fellow colleague, Leon Kolankiewicz, Science Director at www.NumbersUSA.com said, "Our greatest blunder with unlimited immigration is not being able to understand exponential growth because it can come on so suddenly and it hits you like a ton of bricks. If you're growing at one percent a year, that's a doubling time in population of 70 years. If you're growing by two percent a year, that's a doubling time of 35 years. Any species that grows exponentially is unsustainable."

As a world traveler, I cannot come back to our harsh reality often enough. The top scientists back up everything I write about.

"Unlimited population growth cannot be sustained; you cannot sustain growth in the rates of consumption of resources. No

species can overrun the carrying capacity of a finite land mass. This law cannot be repealed and is not negotiable.” Dr. Albert Bartlett, University of Colorado

Every single person that votes for Kamala votes for their own suicide of their community, their family and their own country. If she wins the White House, she’s not going to stop another 15 to 20 million illegals from pouring into our country, their birth rates and their use of resources. When you add this national nightmare up, we remain on course to add 100,000,000 (million) people, net gain, within 25 years. Like my friend Leon said, “These numbers are not sustainable.”

There’s no way we will ever feed, water, work, house, medically care for, or educate the numbers that we face as a civilization. And then, you must address “quality of life.” What happens when you’re locked out of your own National Parks because of the sheer numbers of people who want to visit them? What happens when air pollution becomes toxic beyond solving? What happens when our country rots from within as we see more mass shootings weekly from crazy people who cannot function in our overpopulated cities?

And, solving climate change? That’s the biggest farce of all. Why? Answer this question. How will we ever solve catastrophic climate destabilization by adding another 100,000,000 people to America? How will we be able to provide them with all the electricity, fuel and transport energy to maintain a civil society?

How will we culturally survive all those cultural enclaves that lack any affinity with Western Culture? Anybody out there want to answer those questions?

“A simple look at the greenhouse emissions indicates we will continue to squeeze the trigger on the gun we have put to our own head.” Eugene Linden, *The Winds of Change: Climate, Water and the Destruction of Civilization*

Anyone voting for Kamala Harris votes for the destruction of their own country on multiple levels. She simply does not know what she's doing or how to solve any of the Mt. Everest of problems facing America. But in reality, she's compounding them beyond solving.

Finally, you and your family will be facing all these problems without any solutions. And, those problems steam toward you like a brakeless, runaway locomotive. When democracy dies in the darkness, you will live in the shadows.
