

When The FBI Is Used Against American Mothers (Video)

By Bradlee Dean

August 6, 2025

"The Constitution is not an instrument for the government to restrain the people, it is an instrument for the people to restrain the government – lest it come to dominate our lives and interests." –Patrick Henry

Recently, I had on the [Sons of Liberty Radio](#) one of the best guests that I have had in some time. Her name is Sherronna Bishop, aka America's Mom. She is a constitutional conservative and patriot, who stood up to protect her children from harmful government policies.

She is one who tenaciously defends core values and founding principles that promote the greatest freedom possible. She tirelessly researches issues of our culture and the Constitution, and has a passion to ensure that all people, starting with the individual, maintain the right to life, liberty, and personal property.

During this continuous assault on the Western way of life, she stands up and brings hope and inspiration to those who feel arrested by political correctness and false narratives of our time.

She is a mother of four, a grandmother to three little ones, and married to her husband of 26 years. Sherronna had served as campaign manager for many local and national campaigns

starting in 2019. She also ran a successful business for 17 years in the private sector.

In 2021, Sherronna was hired as executive director for the Lindell Offense Fund, a multimillion-dollar nonprofit that raises money to fight for secure elections in the United States. She has served on many advisory boards, is a published author, and serves currently as a national advancement chair to Moms for America.

Because of her success in putting a stop to much of what has assailed the American family, as well as exposing voter fraud across the country (Revelation 12:17), the [FBI was used to break into her house and hold her family at gunpoint for over 5 hours](#). Her story is below.
