

# When TREASON is No Longer a Crime

By Lex Greene

September 18, 2023

*“When treason is no longer the highest of crimes, punishable by death, there is no way to protect the country from total collapse, despotism, and foreign occupation.”*

After 247 years of “lawmaking” at the federal, state, and local levels, how many more laws could we possibly need? And since we are no longer a nation that follows the law, much less the Constitution and Bill of Rights, why would anyone bother to make more laws just as likely to be ignored?

Most importantly, if we are not even going to bother to prosecute blatant acts of treason in the USA, it’s no longer our country. When treason is taking place from within the halls of our own governmental bodies, it’s no longer our government either! If you fear the government, you’re already living under boot, whether you know it, or care to admit it.

**A critical question for all self-proclaimed  
“constitutionalists...”**

**By what authority does the US Federal Government have any  
Right to exist at all?**

**The answer is**, by the authority of the U.S. Constitution alone, under all the terms and conditions of that document, to include the Bill of Rights. If at any point the U.S. Constitution is rendered null and void, then the Right of the

federal government to exist, is also null and void. If you don't understand this foundational principle of our Constitutional Republic, then you don't understand our Constitutional Republic at all.

Every political office requires an Oath to this foundational principle, to protect and preserve the Constitution of the United States and its' Citizens, at all costs.

The document can be rendered "null and void" two ways, either by declaration, or by direct continued violation. While political figures primarily on the LEFT have consistently made comments regarding the "old, outdated and irrelevant" Constitution and Bill of Rights, as a matter of personal opinions, they have not yet declared the Constitution "null and void."

However, for decades now, predominately the political LEFT in the USA has continually violated their oaths to protect and defend the Constitution, while they work feverishly to undermine and directly violate the terms and conditions of that contract. A current State level example is the democrat [New Mexico Governor Michelle Lynn Lujan Grisham's](#) attempt to directly violate the 2<sup>nd</sup> Amendment and State Constitution regarding the inalienable Right of the People to "keep and bear arms."

Fortunately, State and County Law Enforcement immediately went public refusing to enforce any such order and a Federal Judge blocked her so-called "[order](#)." This is the MO (modus operandi) of today's tyrannical Democrat Party. Every modern democrat thinks they have the Right and legal authority to [order Citizens](#) to do anything they want... but they don't! This is known as "[acting under the color of law](#)" ...assuming a lawful authority that simply does not exist.

**It's a FACT that "all political power in the USA is derived from the consent of the governed."**

The People created the government, via the Constitution. The authority granted to government by that contract only exists so long as the contract remains intact. Once any party to the contract stands in direct violation of the contract, that party is in breach of the contract and the other parties to the contract are thereby released from the contract as well.

**In other words, if government is no longer obligated to the terms and conditions of the contract, no one is...**

Until now, the People's silence has been interpreted as the People's consent. Everything that a governmental body does which is in direct violation of their oaths to the Constitution, are direct violations of their Right to occupy the office at all. But so long as the People remain silent, their silence will be interpreted by tyrants as "consent." If the People remain silent even in the face of blatant acts of treason, the tyrants will always interpret it as the People's consent to treason...no harm, no foul.

Government has always been, at best, a necessary evil. Politics has always been a dirty business most often occupied by self-serving power-drunk malcontents who are usually total failures in the private sector. The only place they can succeed is in government jobs that few of them are truly qualified to hold.

Never in 247 years has this been more obvious than the two current mindless Oval Office occupants who can't even complete a single intelligible sentence on their own. But that's the good news... Even worse is the reality that the current cabal in the White House is also the most corrupt international criminal enterprise to ever occupy any political office in the USA in 247 years.

[TREASON](#) is defined in US Law as follows;

*"Whoever, owing allegiance to the United States, levies war against them or adheres to their enemies, giving them aid and*

*comfort within the United States or elsewhere, is guilty of treason and shall suffer death;"*

Everyone who takes an Oath to protect and defend the Constitution of the United States, owes an allegiance to that end. Everyone who [acts under the color of law](#) in a fashion which results in levying war against the United States, its' People, or providing aid and comfort to enemies, or which deprives anyone of the Natural Rights protected by the Constitution and Bill of Rights, in violation of their Oath, is engaged in an act of treason, sedition, usurpation, under [TITLE 18, U.S.C., SECTION 242](#), which reads...

*"Whoever, under color of any law, statute, ordinance, regulation, or custom, willfully subjects any person in any State, Territory, Commonwealth, Possession, or District to the deprivation of any Rights, privileges, or immunities secured or protected by the Constitution or laws of the United States, ... shall be fined under this title or imprisoned not more than one year, or both;*

*and if bodily injury results from the acts committed in violation of this section or if such acts include the use, attempted use, or threatened use of a dangerous weapon, explosives, or fire, shall be fined under this title or imprisoned not more than ten years, or both;*

*and if death results from the acts committed in violation of this section or if such acts include kidnapping or an attempt to kidnap, aggravated sexual abuse, or an attempt to commit aggravated sexual abuse, or an attempt to kill, shall be fined under this title, or imprisoned for any term of years or for life, or both, or may be sentenced to death."*

The sole purpose of the U.S. Constitution is stated in the preamble of the document itself.

- to form a more perfect Union,
- establish Justice,

- insure domestic Tranquility,
- provide for the common defense,
- promote the general Welfare,
- and secure the Blessings of Liberty to ourselves and our Posterity.

The current Democrat Party as a whole, and certainly the Biden and Obama administrations, have obliterated all six foundational purposes of the U.S. Constitution and violated all 10 additional protections of the People found in the Bill of Rights.

- Obama democrats intentionally divided this country, and Biden continues.
- At best, Obama and Biden have weaponized a two-tier justice system.
- The DNC has backed BLM and ANTIFA responsible for terror in numerous cities.
- Democrats have backed and expanded an open foreign invasion of the USA.
- Democrats are responsible for unprecedented mass inflation, and job losses.
- And worst of all, democrats have directly attacked individual Liberty for every American Citizen while misusing American tax dollars to invade our country, [work with foreign powers](#) against the USA, undermine the U.S. Dollar, national sovereignty and security, States Rights, Freedom, Peace, and engaged in foreign entanglements in Ukraine and elsewhere, causing a uniting of U.S. foreign enemies in China, Russia, Iran, and North Korea.

**Every act that undermines the stated purpose of the Constitution is an act of treason!**

In other words, the contract that creates and authorizes the U.S. Federal Government has been breached by the federal government. The contract is essentially null and void due to

that breach.

**FACT:** The U.S. Constitution is a “contract” between the legal Citizens of the United States and the federal government, created by that contract, under the terms and conditions of that contract. As such, U.S. Contract Law applies, and “the People” are the “final arbiters” of all matters of constitutionality, and the source of all political power. This FACT has been affirmed by the U.S. Supreme Court many times throughout history, in [Chisholm v. Georgia \(1793\)](#), [Martin v. Hunter’s Lessee \(1816\)](#), and [McCulloch v. Maryland \(1819\)](#).

**Breach of Contract** – *A breach of contract occurs whenever a party who entered a contract fails to perform their promised obligations.*

Once a contract has been breached by a party to the contract, the other parties are released from any and all obligations under the contract. If one side is not obligated to the terms of the contract, the other side is no longer obligated to any terms of the contract either.

This is exactly why our Founders reserved the Right and Duty of the People to “alter or abolish” any form of government which becomes despotic and destructive towards the People found in the [Declaration of Independence](#). History has shown that sooner or later, governments grow to become despotic and tyrannical towards their own People.

In this case, the many breaches and violations by our federal government amount to outright treason, committed by all three branches, but especially the Executive Branch and all Executive Branch agencies. The violations at hand, have and will continue to result in the total collapse of the United States. These acts of treason have been committed with a clear intent to destroy the United States, or as Obama put it in 2008, “[fundamentally transform America](#)” into a 3<sup>rd</sup> world toilet.

Numerous democrats at the federal, state, and local levels, have intentionally conspired to [Deprive the Rights of the American People](#), acting under the color of law, with a clear intent to destroy the United States.

In 247 years, there has never been such an overt [blatant conspiracy to destroy this country](#) from within, primarily by the Democrat Party, but also with help from some Republican sympathizers and co-conspirators, all of whom believe that the People will never hold anyone accountable, even for treason resulting in the fall of the USA and every American Citizen.

The American People have witnessed and allowed wholesale treason to take place from within their own governmental bodies for years now. When treason is no longer a crime punishable by death, and we no longer have any secure borders, and the entire Executive Branch has been weaponized against the Citizens, we no longer have a country.

**Treason is the new norm as of today...** and if the People do not act together to stop it, wholesale tyranny will reign over all for as far and long as the eye can see.

The future of the United States was never placed in the hands of mere temporary public servants. The future was placed in the hands of We the People. No one can take it away from the People. But the People can surrender their power, by simply failing to act together to right the ship before it sinks into the abyss.

**As a closing thought... Why is anyone talking about impeachment?**

TREASON against the United States and ALL Americans coming from the halls of government, cannot be remedied via the political circus called impeachment. TREASON has but one remedy, and it has nothing to do with political stunts like impeachment.

In 247 years, not even one President or Vice President has

ever been removed from office via impeachment, even when convicted of their crimes in a Senate trial. Impeachment is a political stunt designed to convince unwitting People that politicians are “doing something” about crime and corruption in the government, when in fact, nothing is being done.

**TREASON requires much more, not only to stop treason, but to send a message to everyone who would dare try.**
