

When White America Becomes the New Minority

“Islam isn’t in America to be equal to any faith, but to become dominant. The Qur’an should be the highest authority in America, and Islam the only accepted religion on Earth.” Omar Ahmed, director of Council on American Islamic Relations.

In 1965, just before the Immigration Reform Act passed Congress with its pushers Teddy Kennedy, Howard Metzenbaum, and Jacob Javits, white America dominated the United States with a 90 percent majority. Black held 7 percent and Hispanics hit 3 percent.

After 58 years of relentless legal and illegal immigration, white America has dropped to 62 percent, black America reached 13 percent, and Mexican-Hispanic-Latino America has risen to over 40 percent. According to www.PewResearchCenter.org, Hispanic America will become the new majority by 2042.

What’s it going to be like when America becomes a minority-minority-minority nation? What kind of dynamics will erupt in the big cities? What kind of language will dominate? What kinds of cultures will dominate different cities? What kind of “world views” will vie for power? How will America fare under Sharia Law already practiced in Detroit and Minneapolis...along with Miami, LA and many other enclaves? Will our Constitutional Republic survive dozens of incompatible cultures, ethnic groups, violent religions and

foreign languages?

Writer Christopher Roach put it this way:

“Things are about to get harder... This rapid onset of disunity has many causes: the education system, the enormous numbers of newcomers, economic precarity, and bad outcomes that have discredited authorities. Traditional unifying values are still held by older people, but every day comparatively conservative Baby Boomers pass away and new Zoomers turn 18 and are able to vote...

“Fewer states are in play politically, and this appears to be favoring the Left. This advantage will likely increase due to the demographic engineering inherent in our immigration policies. While these measures have a delayed effect, as it takes time for immigrants to acquire citizenship or for their children to turn 18, every immigrant group leans left.

Since 2000, Republicans have held the presidency at least half of the time. Yet these markers of cultural decline ticked upwards, all the same...

“Republicans and conservatives need to understand that the description of 2016 as the “Flight 93 Election” was real. That was the time to impose an immigration moratorium and build a wall. Even at that time, it may have been too late. But Republicans failed in addressing this trend. It was later made worse by efforts to render mail-in voting easier.”

Effective Minority Politics

Roach said, “Does this mean we should give up? No. But it does indicate that we should adjust our focus. Instead of sweating about the results of hopeless national elections, the coalition that now makes up the Right—two-parent families, small business owners, and cultural conservatives—needs to start thinking about how to exercise political power as a minority.”

Things are about to get harder, much, much harder!

You might start getting upset when you understand that there is a racial, cultural, and linguistic riptide roaring under the surface of the American landscape. You can see it in the 125,000 Somali immigrants in Minneapolis who have totally trashed American schools, businesses and the welfare system. They have stolen millions in EBT card money. House member Ilhan Omar, as crooked as they come with cheating on her immigration papers, marrying her brother, and defrauding the federal government...cannot be touched because she is female, black and an immigrant.

Have you driven through Dearborn, Michigan? I have. It's a little Baghdad with 300,000 Islamic followers who could care less about America. They bow to Mecca five times a day. You don't dare build a Christian church in Dearborn. It's a welfare city in Dearborn...all your tax dollars paid to fly them here and pay for feeding and housing them here in that once "All-American Motor City."

How do you think it's going to work out with Mexicans taking over all of California? The president of Mexico recently bragged that 40 million Mexican now live in America. Yes, most of them illegally.

What about New York City's 80,000 new illegal alien border jumpers taking up residence in that city. Even African-American Mayor Eric Adams noted that his city has been invaded. He needs billions of taxpayer dollars to pay for his Sanctuary City's growing nightmare of border hoppers. There are 800 different languages spoken on the streets of NYC, daily.

What happens when all those minorities move into elected positions to promote their own cultures, languages and world views in every city, town and village in America?

The fact grows daily: we're losing America to an entirely

degraded, devolved and angry incoming population. There's no way a 68 IQ Somali immigrant possesses any idea of what constitutes work, governance, education and speaking English.

There is no way followers of Islam will ever pledge allegiance to the United States of America.

"It is the nature of Islam to dominate, not to be dominated, to impose its law on all nations and to extend its power to the entire planet." -Hassan Al-Banna

"The West is tremendously naive about the danger of these various Islamic organizations." -Dr. Mamoun Fandy, Middle East expert on the network of organizations around the Muslim Brotherhood

When France opened its borders to unlimited Muslim immigration in the 1970s, French writer Jean Raspail, penned a prophetic novel, **Camp of the Saints**, describing the consequences of that senseless choice, "You don't know my people—the squalor, superstitions, the fatalistic sloth that they've wallowed in for generations. You don't know what you're in for if that fleet of brutes ever lands in your lap. Everything will change in this country of yours. They will swallow you up!"

Have you been Europe recently? I have! It's an accelerating nightmare of barbarians within the gates.

Read this quote and weep:

"Immigrants devoted to their own cultures and religions are not influenced by the secular politically correct façade that dominates academia, news-media, entertainment, education, religious and political thinking today," said James Walsh,

former Associate General Counsel of the United States Immigration and Naturalization Service. "They claim the right not to assimilate, and the day is coming when the question will be how can the United States regulate the defiantly unassimilated cultures, religions and mores of foreign lands? Such immigrants say their traditions trump the U.S. legal system. Balkanization of the United States has begun."

This destruction of America accelerates at our southern border where 100 U.S. Senators do nothing to stop it and another 435 House Members follow through by doing nothing.

End result? Our country is being turned into nothing!
