

Where Are Mail-in Ballots Being Stored?

By: Devvy

A man called into Rush Limbaugh's show the other day with an interesting take on why Basement Biden and the DNC are just going through the motions of campaigning and don't give a damn how bad the 'optics' are that people are seeing.

By optics he's referring to the glaring lack of interest in old Joe and Ho Harris' campaign – except for the non-stop screaming and screeching by Hollywood 'celebrities' and the DNC's MSM.

Going back to Limbaugh's caller. His hypothesis is Biden's handlers are running out the clock because they are placing all their bets on vote fraud – specifically ballot harvesting

and mail in ballots.

So just where are those mail in ballots being stored? What layers of security are being provided to secure them? Will your vote even be counted?

Voting so far is a MESS. I covered many verified instances in [my August 3rd column](#). It's only getting worse:

[Catherine Engelbrecht: Good Citizens Need to Volunteer for Ballot Security to Protect Our Elections](#)

“Engelbrecht remarked, “This is going to be about turning out the vote and then about trying to do all we can – given the current firestorm of litigation and confusion – to make sure that the vote process is as accurate and transparent as it can be, and that means that we have to not just plan to vote, but plan to serve, because left unto itself, the left has made it very clear that they do not intend to let the president win another term.”

“Engelbrecht warned of left-wing considerations of a contingent election.

“They are already making plans to have this, to have their vote for president cast in the House of Representatives, because they are calculating and engineering an outcome that will take the power of the vote away from people, and they’re going to do that by crashing as many elections and as many processes as they can in the coming days,” Engelbrecht stated.”

It isn’t just the presidency but the all-important U.S. House and keeping a majority in the Senate as well as state reps and senators, governors, sheriffs and so many more offices. Call your local GOP headquarters (if you don’t know who, call your county clerk’s office, they know.) and volunteer to walk districts. **It is extremely effective in getting votes.** The weather is cooling off and a great way to make new friends.

Republican Party of Texas voter helpline number: 855-433-1663

Democrats are highly organized which is why they're called community organizers. They bus people in and have volunteers going to nursing homes getting signatures on ballots from the comatose. Despicable.

Go down to or call your county elections office and find out where the mail in and absentee ballots are being stored, what security is in place and who is doing the counting? I want to see how they respond.

If you are forced to use mail in ballots, drop them off at the county elections office and not some drop box. If you see what you believe to be vote fraud, report it. Here in Texas I can say our AG's office has and continues to prosecute vote fraud.

This is going to be an epic battle and the prize is OUR country, the future of our country for decades and much more. It's good vs evil, socialism/communism vs freedom.

It's up to us so please, I'm going to do my part in my county, please join this effort and do your part in your county. We are responsible for our destiny.
