

Where is our civilization headed?

Pundit Patrick J. Buchanan wrote a piece titled, "Tribalism returns to Europe" as he chronicled the devastating aspects of multiculturalism in Germany, France, United Kingdom, Denmark, Holland and much of Europe. Buchanan noted that Islam, the most intolerant and violent ideology on the planet, utilizes Western freedoms and laws to upend and defeat the foundation of free speech, democracy and personal choice.

Does any American think Europeans stand a chance of surviving the Muslim hordes flooding into Europe? You read about the rapes, murders and social chaos weekly. But, guess what, America continues importing hundreds of thousands of legal Muslim immigrants annually and stands in the cross hairs of adding another 200,000 Syrian Muslim refugees—who espouse and follow the most violent religion on the planet.

Take a look at this five-minute video by a Swiss congressman with his examination of Islam's impact on Western countries. It will disturb you as to how fast Islam invades host countries.

Former Colorado Governor Richard D. Lamm said, "If you believe that America is too smug, too self-satisfied, too rich, then let's destroy America. It is not that hard to do. No nation in history has survived the ravages of time. Arnold Toynbee observed that all great civilizations rise and fall, and that, "An autopsy of history would show that all great nations commit suicide."

Does any American, whether black, white or Hispanic, think we will survive another 100,000,000 (million) legal immigrants within 30 years? Fact: that's what's coming at current immigration levels mandated by Congress. Exactly how do you

think we might survive the sheer numbers and the incredible sociological chaos of 100 million third world immigrants from 190 different countries with 190 different worldviews, religions and cultures—let alone languages? The great thinker Kant said, “The two great dividers are: religion and language.”

It brings up this question: Where Is Our Civilization Headed?

I don't think anyone knows. There's no plan whatsoever. I don't think 535 Congressional Critters possess a clue as to what they bequeath to their children; all of our children. Further, they don't care. If they did, they wouldn't continue this invasion.

For starters, Toynbee, Lamm and Buchanan possess incredible historical perspective. They see where the United States gallops at breakneck speed.

Jared Diamond wrote a book: Collapse—How Societies Choose to Succeed or Fail. I read the book. We're on the same path as the Roman Empire, the Myans, Greeks, Troy and even Easter Islanders. You cannot miss the signs. You cannot deny the facts. You cannot escape our realities. But our leaders blindly take us down the same path as Rome, etc. All the while, Americans think the Super Bowl stands as the most important item on their “to do” list.

Good grief: we stand \$19 trillion in debt. We pay for 500,000 military personnel on 700 bases around the world—all burning tax dollars while doing nothing for America. We suffer 1.5 million homeless in our cities. We're billions of dollars in the hole for failing infrastructure in our cities—yet we give billions to other countries in foreign aid. Over 10 million Americans can't obtain a job, but we import 100,000 legal immigrants, enough to fill the Rose Bowl, every 30 days onto America's shore. Our schools suffer accelerating failures as kids in Chicago, Los Angeles, Miami, Detroit and New York City

cannot read or write past the 4th grade level when they “graduate” from high school or quit long before they reach 18.

In my own city of Denver, our kids face 172 different languages in the classrooms. (Source: Denver Post) How does any American school child learn in such linguistic chaos? Answer: they don't.

Each day, those of us with jobs pay over \$600 million in interest on the \$19 trillion Federal Debt. But does Congress pay it down? No! It grows it by borrowing over \$2 billion daily to float a false economy. We owe China \$1.4 trillion in trade imbalances, but our Congress continues “Free Trade” that kills American workers' jobs.

Nothing logical goes on in our U.S. Congress. No solutions! Most of our 535 Congressional Critters continue as the most corrupt in history. They know it, we know it, but no one will install term limits.

Look at our states. We all pay for 20 to 30 million illegal aliens and their children at a cost of hundreds of billions of dollars annually. In fact, the economist Edwin Rubenstein reported that Americans pay out \$346 billion in costs for illegal immigrants annually across 15 federal agencies—from anchor babies, to insurance fraud, to medical care, to child care, to free breakfasts and lunches, to ESL courses, to jails, to crime, to shoplifting and on and on.

Where is our civilization headed?

We're headed for one hell of a fall. We're headed for one nasty future. We're headed for civil war with Muslims and perhaps Mexicans. For sure, Muslims! Their prime directive: “Convert or kill all non-believers.” They start civil wars and terror in every country they enter. It's in their DNA.

We're headed for third world status. In my world bicycle travels, I learned the single greatest aspect of human misery

equated to one word: illiteracy. Illiteracy drives every kind of problem in every third world country. It drives our problems in America because 48 million Americans subsist on food stamps. They can't secure a job because they offer no qualifications. They're uneducated and their numbers grow by 100,000 immigrants every 30 days.

For the record, we inject 1.2 million legal immigrants into America annually. Over 91 percent of them immediately land in welfare lines. How much longer can we do this to ourselves?

We face water shortages in seven states in 2016. We face massive traffic congestion and air pollution. We face horrific environmental consequences--but we keep adding more immigrants. How completely stupid are we?

We need to change course. We need to shut down all immigration. We need to save ourselves. We need to do it now. Because if we don't, by 2026, ten years from now, we shall add another 35 million people. It won't be pretty for anyone.

Call your senators and House rep: 1 202 224 3121. Demand a stop to all immigration and stop to any Syrian immigration.

Definition of slogan: "Immigration Shutdown Now means the American people want a total shutdown on all legal and illegal immigration. That means we want all illegal immigration stopped by arresting, prosecuting and jailing employers of illegal aliens. We deport all illegal aliens by taking their jobs away and as we catch them. We want English mandated as our national language. We demand a cessation of Muslim immigration in order to protect our culture, language and way of life. We can't save the world but we can destroy our civilization. We demand a stable population that allows everyone to live, work and thrive into the 21st century. Especially our children." FHW
