

Who is Looking at Your Federal Income Tax Return?

Authored by Devvy Kidd not AI

Operation overload – the key word being overload created by DOGE which has birthed a very telling panic, not just among current and former members of CON-gress, but private sector NGO's (Non-governmental organizations) and religious denominations getting their cut of the gift.

Gift: **noun**

1. *(sometimes used with a plural verb)* a group of methods for obtaining money falsely through the use of swindles, frauds, dishonest gambling, etc.
2. money obtained from such practices.

My column last week, [Don't Fall for the Flat Tax Scheme](#), dealt with old, tired Band Aids to “solve” the problem of funding this massive, corrupt Levithan monster called the federal government created by both the Democrat & Republican parties for power, money and feeding their gigantic egos.

Even though I am not required to file a federal “income” tax return, as I stated in my column cited above, I do every year. If I allegedly owed the Internal Robbing Service, I sent the check certified mail requiring a signature to either the IRS *or the U.S. Treasury* in Austin, TX or Ogden, UT. I found a few of the old green cards all stamped IRS. The USPS green card always came back stamped IRS.

Until a decade ago. The green card came back not signed but stamped JP Morgan Charlotte NC Agent for the Internal Revenue Service. I admit I never really looked at the card other than it was addressed to the IRS so I just assumed it was the usual: Dept. of Treasury; into the safe it went. On March 7, 2025, I snail mailed the return and what I allegedly owed certified mail. As usual, I wanted someone at the Internal Robbing Service (IRS) to “sign” for my envelope.

Well, imagine my surprise when the USPS green card came back – the only piece of mail in my P0 box so I actually looked for the signature – no signature but a big stamp: JP Morgan Charlotte NC Agent for the Internal Revenue Service, March 12, 2025.

Really? When did the biggest bank in this country become an Agent for the Internal Revenue Service? Recall over the past month or so all the screeching from the socialists (liberals) and communists (progressives) out there (members of the Democrat/Communist Party USA) – including a gaggle of cockroaches in CON-gress blasting more useless gas out of the pie hole in their face that members of DOGE and in particular, Elon Musk would have access to your personal information by rooting out the fraud, waste & abuse in the IRS?

Yeah, them. Of course, the richest man on the planet wants my neighbor's tax return & SSN for nefarious reasons! It's no secret the Internal Robbing Service has used outside companies for debt collection of alleged overdue taxes. So my question (snail mail) to my U.S. Rep Jodey Arrington whom I did NOT vote for in the March primary last year (he allegedly beat a great candidate): Since when – and provide me with the law or statute) did the IRS start using private, commercial banks as official agents for the IRS and why?

The unconstitutional, privately owned “Federal” Reserve has 12 banks and 24 branches. Why did my check go to a private

banking conglomerate – JPMorgan – instead of to the IRS or Dept of Treasury?

Tax Policy on the U.S. Treasury web site has a whole menu of goodies including this BULL SH*T: [Climate Change and Household Finance](#): U.S Department of the Treasury prepared a report in consultation with members of the Financial Literacy and Education Commission, entitled [The Impact of Climate Change on American Household Finances](#). (Rest at link.)

Climate change: **One of the biggest lies and \$\$\$ scams ever to be shoved down our throats stealing hundreds of millions of dollars from us to fund that global hoax.**

On that [official Treasury web site](#) you can click on Cash and Debt Forecasting: “Treasury’s operating cash is maintained in an account at the Federal Reserve Bank of New York and in Tax and Loan accounts at commercial banks.”

What operating cash, Rep. Arrington? The people’s purse is overdrawn nearly [\\$37 TRILLION phantom “dollars”](#). Operating cash? Try what our CON-gress has to borrow everyday just to keep afloat. \$1 TRILLION bux every 100 days; *all those easily directed herds out there protesting don’t have a clue*. [The Fed is bankrupt, April 18, 2023](#). (Ever hear the saying ‘rob Peter to pay Paul’?)

Question two: The IRS uses [three approved private collection agencies](#) **. Oh, boy, a massive hunting ground to get dirt on someone for blackmail purposes. Just who is processing Joe Blow’s income tax return? An IRS employee, someone at JPMorgan or a third, outside company who can then snoop through your private business?

[JPMorgan Chase & Co. Agrees To Pay \\$920 Million in Connection with Schemes to Defraud Precious Metals and U.S. Treasuries Markets](#), September 29, 2020

JPMorgan also advertises how they help people manage their money, help with taxes and investments besides being just your

neighborhood bank. I have never had anything to do with JPMorgan Bank or any of their affiliates and don't want anything to do with JPMorgan/Chase. I've used just two different federal credit unions (military husband) since 1989. Prior to that it was just a local bank starting in 1967. Just a personal choice.

One of the most intriguing "can't put it down" books is [All the Presidents' Bankers](#): The Hidden Alliances That Drive American Power by Nomi Prins, one super intelligent woman. One other book I wish the author would put on line for free; can be purchased from rare book sellers: The Greatest Story Never Told: Winston Churchill and the Crash of 1929 by Pat Riott. It can also be downloaded with membership at [Scribd](#).

[February 11, 2008](#). "There is an amazing book titled, The Greatest Story Never Told: Winston Churchill and the Crash of 1929 by Pat Riott, which is a real eye opener. In light of all the talk about the dollar and the fact that America's economy is in hock to foreign countries, our "strong economy" and other popular sound bites, I thought this would be a good time to let you know about this excellent little book.

"The Greatest Story lays out the events of October 1929 in a simple fashion in this thoroughly documented work. The big cigar puffer, Winston Churchill, is a great hero to many Americans. Was he, really? I think people will find out differently after they read this well researched work. Sadly, most Americans won't because they would rather willfully believe lies than have their comfort zone disturbed and because Americans have become intellectually lazy and just want to be entertained by the TV, drugs, booze, porn and "leisure activities." In the meantime, they are jeopardizing everything they have ever worked for by placing their blind trust in their elected public officials in Washington, DC who have proven themselves to be crooks, cowards, liars and the worst of scoundrels.

"The majority of comfort zone Americans think the "Crash of '29" was some sort of anomaly that can't happen again. They think that because some "safeguards" have been put in place a big crash can't happen again. Not here in America! Really? Here's a few points about The Greatest Story Never Told that might interest you:" Rest at link. Then: BOOM.

[Bailouts: the wound that will keep on hemorrhaging](#), **Sept. 25, 2008**: "No one knows what to do. We are in new territory here. This is a different game. We're not here playing soccer, basketball or football, this is a new game and we're going to have to figure out how to do it." Sen. Harry Reid [D-NV], September 17, 2008

"It is exactly that level of ignorance in the U.S. Congress for decades that has brought America to the brink of financial ruin. William Greider, author of Secrets of the Temple, said the same thing [during his testimony](#), House Banking Committee, October 7, 1993:

"Otherwise confident and intelligent people including members of Congress – defer to the Fed's wisdom mainly because they do not understand it...The only players who are left out of this conversation are the American people and, to a large extent their elected representatives. Instead, they are provided a frustrating stream of evasive euphemisms and opaque jargon and platitudinous generalities and, sometimes, even downright deception. As more than one Federal Reserve governor confided to me, it would be very difficult – perhaps impossible – for the Fed to have an honest discussion of monetary policy with Congress or the public because the level of ignorance is so profound." Read the rest at link.

"Clearly, we have made huge strides in educating our fellow Americans about fiat currency and sound monetary policy, but without real newspapers in this country, most Americans don't know the truth. It's also crystal clear that members of Congress, with few exceptions, are clue less. I think it's

safe to say that many of those who do know, don't have the courage to go up against the most powerful money cartels in the world; the rest are simply crooks who profit from a corrupted monetary system. Over the decades, Congress has been perfectly willing to forfeit their authority, violate their oath of office and the supreme law of the land as Robert Reich, former Secretary of Labor under Bill Clinton, pointed out in *USA TODAY*, January 7, 1999:

"The dirty little secret is that both houses of Congress have become irrelevant...In case you hadn't noticed, America's domestic policy is being run by Alan Greenspan and the Federal Reserve Board...Congress is out of the loop. Every so often, some senators or House members politely ask Greenspan to visit and talk about the economy. He obliges by riding up to the Hill and muttering convoluted sentences that no two people interpret in quite the same way. Then he goes back down to the Fed and runs the country." End.

"Not long after the unconstitutional Federal Reserve Act was passed and our country was turned over to a cabal of the rich and privileged (not just Americans), there were congressmen who railed against this massive fraud and swindle. Louis McFadden was one of the champions of exposing what happened by the passage of that act. On May 23, 1933, McFadden [launched an indictment against the robbers called banker barons](#):

"Mr. Chairman, we have in this Country one of the most corrupt institutions the world has ever known. I refer to the Federal Reserve Board and the Federal Reserve Banks, hereinafter called the Fed. The Fed has cheated the Government of these United States and the people of the United States out of enough money to pay the Nation's debt. The depredations and iniquities of the Fed has cost enough money to pay the National debt several times over.

"This evil institution has impoverished and ruined the people of these United States, has bankrupted itself, and has

practically bankrupted our Government. It has done this through the defects of the law under which it operates, through the maladministration of that law by the Fed and through the corrupt practices of the moneyed vultures who control it...

"The Federal Reserve Bank destroyed our old and characteristic way of doing business. It discriminated against our 1-name commercial paper, the finest in the world, and it set up the antiquated 2-name paper, which is the present curse of this Country and which wrecked every country which has ever given it scope; it fastened down upon the Country the very tyranny from which the framers of the Constitution sought to save us....

"As Agents of the foreign central banks the Fed try by every means in their power to reduce our favorable balance of trade. They act for their foreign principal and they accept fees from foreigners for acting against the best interests of these United States." End of excerpt.

Prior to 1913 and passage of the unconstitutional "Federal" Reserve Banking Act of 1913, we had no personal "income" tax. However, the planners made sure a federal "income" tax amendment to the U.S. Constitution got ratified (which it legally wasn't) *to feed the FED.*

Prior to the non-ratification of the 16th Amendment and no income tax the general government was financed through **constitutional** revenues: tariffs, excise taxes on cigarettes, alcohol, tobacco; later came fire arms, tires and gas.

Tell them (the South Carolinians who wanted to nullify the Tariff Act of 1832) that I will hang the first man of them I can get my hands on to the first tree I can find." –President Andy Jackson

We became the wealthiest debt free country in history. Now thanks to the robber barons, their "FED", the "income" tax and

socialists like FDR, we are drowning in unpayable debt. Yes, President Trump is trying to reverse that but until the "FED" is abolished, it's going to be the same game.

As for the individual who sent me email regarding [my statement](#): "I already know that this income tax does *not* apply to domestic Americans called me a liar and is in complete denial.

Don't take my word for it. Try a former IRS CID (Criminal Investigation Division) agent who gave up his \$80k a year job with the IRS when he found out the truth. **His life was HELL after he resigned.** The feds went after him big time.

Joe Banister: [Investigating the Federal Income Tax – The Investigation Begins](#): Learn about Joe's research. "While an IRS agent, Joe Banister was challenged by a radio talk show to disprove the assertion that the federal income tax laws were being illegitimately administered and enforced. Given his and his family's government service background, along with the morals and ethics learned during his youth and adulthood, not to mention being mindful of his solemn oath to the U.S. Constitution, Joe sensed an obligation to investigate this assertion, even though he privately questioned how it could possibly be true."

You tube interview with Joe and ***well worth your time to watch***: [Joe Banister ~ Former IRS agent](#) – "Joe Banister is the first and thus far only IRS Criminal Investigation Division Special Agent ever to conduct, while serving as a special agent, an investigation into allegations that the IRS illegally administers and enforces the federal income tax. He respectfully reported the results of his investigation to his IRS superiors, up to and including the IRS Commissioner.

"Rather than address the legitimate concerns raised by one of their own distinguished investigators, his IRS superiors suspiciously refused to address the chilling evidence of IRS

wrongdoing raised in his report... Observing that IRS management intended to cover up the deceit and illegal conduct alleged in his report, Banister chose to resign from his position so that he could report his findings to the American public. In effect, Banister had to resign from his position in order to abide by his oath to support and defend the U.S. Constitution.”

This not an encouragement for anyone to not file and pay (if you are LIABLE – explained in depth in Joe’s interview) federal “income” taxes. Make no mistake about it: *The dragoons will go after you big time, garnish your wages, lie, cheat and steal for their employer: The IRS.* The only way to stop this stealing (I’m not talking about constitutional revenues mentioned above) *has to be done by Congress* – BUT they need to continue violating the law to pay the interest on the Magical Money Machine called the FED. Knowledge is powerful and elections have consequences. Think about that the next time you vote for an incumbent who refuses to right this terrible wrong – actually 2 wrongs (1) Misapplication and enforcement of the Internal Revenue Code and (2) Abolish the “Federal” Reserve Banking Act of 1913.)
