

Why are Woke Corporations Not Acting to Benefit the People, or this Republic?

No--Corporations are not the Parasitic Super- Rich Ruling Class (PSRRC).

However, they are the paymasters for government officials, based on orders from the Establishment, aka the PSRRC.

'Woke' corporations are controlled by directors elected by the PSRRC to do their dirty work. Don't forget that their stock is also owned by pension funds, 401Ks, and individual private investors.

The Establishment's 'Woke' corporations are, never the less, Enemies of the People!

'Woke' Corporations are run by incompetents, crooks, and cowards with no loyalty to their stockholders, to the public, or to the Republic. In simple terms, they have repudiated the free enterprise concepts of a corporation that allows them to function in a republic. Corporate officers and directors have a fiduciary duty and responsibility to their corporation...and to their shareholders!

Their primary objective must be to increase corporate value and profits for shareholders. What other motive would encourage investors?

If a minority of shareholders with another agenda resembling a 'death wish' gains control of a corporation through its directors, it is the responsibility of the corporate officers to refuse to follow the director's orders. Otherwise, the officers should be liable for damages to shareholders, as they had breached their fiduciary duties to represent the best interests of their shareholders.

Corporate conduct such as buying back their own stock, financing Antifa and BLM to burn and loot, support of political parties, bribing officials of both parties, and promoting destruction of the Republic by funding insane concepts such as the 'Trans' garbage, DEI (Diversity-Equity-Inclusion), ESG (Environmental, Social, and Governance), white racism, Critical Race Theory, are anti-American and have a very negative effect on profits, our standard of living, and stock value.

These expenditures are theft from the corporation, its minority stockholders, and its customers.

The 'woke' narrative is that 10-20% of population are experiencing 'gender dysphoria'...it is actually only $\frac{1}{2}$ of 1% who are so diagnosed! Promoting 'trans' material has alienated 99.5 % of the population. In surveys, college students believe, because of brainwashing, that 50% of population is black when it is only 13%. Some companies that have learned the hard way are L.L.Bean, Bud Light, Starbucks, Nike, Chick-Fil-A, Addidas, Kohls, Disney, Fox, etc.

L.L.Bean is different as it is private, not a public corporation, owned by descendants of the founders. It proves how privilege and money corrupts the recipients to destroy the founder's dreams, while giving them a feeling of superiority over average people. Promotion of 'Trans' products has besmirched the brand that their founders spent a lifetime building. The brand now has a negative connotation for much of the public. I, for one, will never publicly display the

L.L.Bean brand!

“GO WOKE-GO BROKE” also brings on the wrath of stockholders who are looking to be compensated for their losses by the corporate officers and directors who are responsible.

The following announcement by America First Legal says it all.

America First Legal Demands Target Corporation Produce its Books and Records Regarding its Reckless LGBT Political Agenda and the Corporation’s \$12 Billion Loss in Market Valuation.

‘Woke’ corporations are getting much of their anti-American, anti-business directions through pressure by these three super-pension-fund consolidators: Black Rock, State Street, and Vanguard.

These three firms control $\frac{1}{4}$ of global domestic product, about 25 trillion. Black Rock is the world’s largest asset manager. Some red states refuse to do business with them because of their anti-business attitude. I would not do business with any of them.

These funds promote ESG (Environmental, Social, and Governance) programs, which are supposed to be sustainable investments. That is pure BS.

All they have done is put farmers and small companies out of business, causing starvation and revolution. It is similar to the green-energy and climate-change scams that have only diminished our standard of living. It is clear that this was the objective all along.

The way things are today, you should consider a Gold IRA, with advice from your CPA, to replace 401Ks, some stocks, and bank deposits. The gold should be in your possession. No one can forecast when an event occurs, but needless to say a collapse is expected, and could happen tomorrow. This is not just my opinion, it is the judgment of most reputable non-political economists.

In conclusion, this is a very complex subject, but it is imperative that you know the enemy, which I correctly and descriptively label as the “Parasitic Super-Rich Ruling Class” (PSRRC).

It is also referred to as the Swamp, Deep State, Establishment, etc, which could be anyone or no one. The “PSRRC” designation describes them best, as they are comprised of wealthy billionaire families who will do anything for power, money, and to control the world. To accomplish their ‘New World Order’ and the ‘Great Reset’ they must destroy the United States so they can continue to profit from the murder of millions.

They use their stock in ‘woke’ corporations to elect corporate directors who order the corporate officers to spend the corporation’s money to bribe, loot, burn, cheat on elections, and promote anti-social programs, etc. Remember that their goal requires destruction of our Republic.

Corporate money is used to bribe every member of government in both parties from all three branches of government that are required for total control. These criminals are protected by a two-tier criminal justice system (why do you think they call it that??), and there can be no justice or remedy allowed for dissenters to access. You know this is true: there is NO JUSTICE!

May God Bless You and Our Republic
