

Why Cruz and Rubio lie to Donald Trump and their globalist agenda

“The biggest criminals that I have met in life are working for the government. They make mass murderers look like amateurs.” –Steven Magee

Donald Trump – *‘Illegitimi non carborundum’* – It means, Don’t Let the Bastards Get You Down

The above phrase originated during World War II, [Lexicographer, Eric Partridge](#) attributes it to British army intelligence very early in the war. The phrase was adopted by US Army general [“Vinegar” Joe Stillwell](#), as his motto during the war. It was later further popularized in the US by 1964 presidential candidate [Barry Goldwater](#).

No matter the cost we must fight for the truth.

Why Cruz and Rubeo Lie:

Senators Cruz and Rubio are deliberately using lies and innuendos to anger Mr. Trump, not only on the stage during debates, but every time they appear on TV they repeat the same lies. Personally, I think it was so obviously childish and wicked, and hope most Americans see through it.

Donald Trump resents and detests liars and dishonesty. It’s his Achilles heel. He’s not only said it publically, but in his books. Liars make him angry, and in business he refuses to work with dishonest people. So, these two senators use exactly what they know angers Mr. Trump, to get under his skin and irritate him.

The antidote to this vile attack is not to resent them, but to take a deep breath, and then let the anger/resentment go.

Relax, and then God will give him the right words to say. He needn't let their antics and foolishness get him upset.

Cruz's Conservative Talk and Liberal Walk

Ted Cruz is a puppet for the New World Order's UN Agenda 21. Yes, Cruz is pushing the Wildlands Project. From [The Marshall Report](#), "He is coming in through a partial truth – that states want their federal confiscated lands returned. He then is on your side. Then he says – states have to maintain these, and if they can't, they can sell them. So the land will be sold to foreign entities for minerals and logging, etc. We the people lose our resources and our land. This is all part of the Wildlands Project to aggregate the land into NWO globalists' hands and steal it from the people. Read the [article here and Agenda 21 in One Easy Lesson](#)."

Heidi a Cruz sits on the advisory board of the faith based, [Living Waters International](#). It is funded by the United Nations. [[Link](#)]

[On the CFR website](#), Ted's wife, Heidi Cruz, is listed as one of 31 members of the Task Force on the Future of North America. She helped to write the sovereignty destroying North American Union. Ted said she was the lone dissenting author, however on page 33-34 of the Task Force's report, Heidi writes, "I support the Task Force report and its recommendations aimed at building a safer and more prosperous North America." [[Link](#)]

Politico confirmed with an unnamed CFR official that Heidi Cruz was an active CFR member at the time under a five-year "term membership," even though Ted Cruz has stated the CFR is a pit of vipers. [[Link](#)]

Cruz joined the [George W. Bush presidential campaign](#) in 1999

as a domestic policy adviser, advising then-Governor [George W. Bush](#) on many topics.

After Bush took office, Cruz served as an [associate deputy attorney general](#) in the [U.S. Justice Department](#) and as the director of policy planning at the [U.S. Federal Trade Commission](#). Cruz is a Bush establishment candidate.

Ted Cruz met his wife, Heidi, while both were working on the [George W. Bush](#) presidential campaign of 2000. She worked for CFR member and National Security Advisor [Condoleezza Rice](#).

Ted Cruz is bashing Supreme Court Justice, John Roberts, after years of praising him. "As an individual, John Roberts is undoubtedly a principled conservative, as is the president (George W. Bush) who appointed him," [Cruz wrote at the time in the National Review](#). According to [a 2005 Sun-Sentinel report](#), Cruz once praised Roberts as "one of the best constitutional minds in the country." With the decisions of the Supremes, Cruz is now back peddling big time on his support of Roberts. [[Link](#)]

Two years ago, [Cruz proposed amendments to a bill](#) sponsored by four Republican senators—[Marco Rubio, John McCain, Lindsey Graham, and Jeff Flake](#)—and four Democrats. The bill would have tightened border security and employee screening. But **it also would have allowed undocumented immigrants to apply, eventually, for legal status.** [[Link](#)]

Cruz has been described by the [Cato Institute](#)'s Center for Trade Policy Studies as a "free trader" [[Link](#)] and as a "free-trade advocate" by the *Wall Street Journal*. [[Link](#)] All these trade deals have destroyed America's jobs and middle class.

Why is the alleged conservative Cruz in support of TPP, otherwise known as Obamatrade? [[Link](#)], [[Link](#)]

Cruz supported giving Fast Track to President Obama for Trans Pacific Partnership (TPP).

Here's the video.

Here's what Sen. Sessions says about Fast Track and the TPP. According to Sessions: *"The predictable and surely desired result of the TPP is to put greater distance between the governed and those who govern. It puts those who make the rules out of reach of those who live under them, empowering unelected regulators who cannot be recalled or voted out of office. In turn, it diminishes the power of the people's bulwark: their constitutionally-formed Congress."* Shocking, this is what this phony Christian (Cruz) supports. [[Link](#)]

Cruz has stated he's against amnesty, but even visited the southern border with Glenn Beck to welcome illegal aliens. [[Link](#)] He has flip flopped and lied about where he really stands on amnesty. [[Link](#)] Watch Megyn Kelly question him in the January 28, 2016 debate sans Donald Trump. [Video](#)

Ted Cruz has stated he would support a Constitutional Convention. The phony right, and George Soros' leftist organizations all support a new Convention, which would destroy our founding document. [[Link](#)]

Cruz calls for strengthening background-check system for gun sales— "One of the things we could do is we could improve the quality of the federal database," Cruz said in an interview on "Fox News Sunday." "Right now a lot of states, a lot of local jurisdictions, are not reporting criminal convictions, not reporting mental health barriers to ownership. And so the federal database is not nearly as good as it should be. That would be a common-sense improvement."

As a lawyer, Ted Cruz knows he is not eligible to be president. [Watch this short 12 minute video](#) by retired attorney and Constitutional and federalist paper expert for the clearest explanation of Natural Born Citizen.

The questions can be answered by looking at the very reason why only natural born citizens can be President—**foreign influence**. As much as conservatives refuse to believe it or even discuss it, Ted Cruz is not a natural born citizen [as outlined by the Constitution](#). (For a very detailed and vetted/sourced explanation, [read this article](#).)

✘ More people are researching Cruz's Canadian birth and citizenship...but [all his records are sealed](#), and FOIA requests are denied...one has to wonder why and who gave the order.
