

Why Do Democrats Want Trump, Thus America To Fail?

Have you looked out across the American political landscape for the past three months? If you remember, President Trump won the popular vote, the electoral vote, the Senate and House. Such victories gave him a mandate to correct multiple problems with America's finances, political standing and resurgence in the world.

Yet, you see democrats like Schumer, AOC, Crockett, Omar, Tlaib, Booker, Sanders, Markey, governors Newsom, Healey, Mills, mayors of major cities and many more—condemning and chastising everything from Trump's massive deportation of MS-13 gangs to keeping biological males competing in women's sports.

You see the (anti) American Civil Liberties Union suing Trump to bring killers, drug dealers, rapists and mentally deranged illegal aliens BACK into America. You see Trump being sued to stop the reciprocal tariffs that benefit American workers. You see Elon Musk saving Americans trillions of tax dollars and stopping fraud, but then, hundreds of Americans firebombing and burning Tesla dealerships.

California's Governor Newsom, one of the most incompetent governors in America, with a state debt of over \$76 billion—passing a bill to Trump-proof his 4 to 5 million illegal aliens in that state—that cost California taxpayers \$25

millions, more!. California has become an absolute financial, cultural and educational disaster. If you read Mexifornia by Victor Davis Hanson where California has been turned into another corrupt and poverty-stricken country like Mexico, or watch any of his podcasts, you begin to understand that liberal policies prove catastrophic for the average California taxpayer. You see their educational systems have become dumpster fires. And, yet, Newsom wants to keep 4 to 5 million illegal aliens leeching off the taxpayer for housing, food, education, social services, medical care, ESL courses, and free breakfast/lunches for millions of illegal students.

All of it at the cost of American students. All of it at a cost to California's economy. All of it at a cost of billions in cash-transfers to foreign countries. All of it at a cost of the rule of law. At HUGE cost of what it means to be an American.

It's evident that liberals in America do not want America to be FOR Americans, but want chaos, linguistic Tower of Babel, corruption and angry foreigners in charge. Look at the 400 acre Islamic Fort in Dallas, Texas, which is being paid for by middle eastern oil money to become a Territorial Marker for Islam in America. You better believe that savage religion has not and will not assimilate into the American Dream. They are here to supplant our Constitution and enforce the Sharia Law Dream. They've already conquered Europe. We're next along with Canada.

One look at the intensive anger and violence at our Harvard, Yale, Princeton, Brown, Columbia and SO many other universities by anti-Jewish, pro-Hamas terrorists, and pro-Muslim violence foreign visa holders shows you that we Americans face tremendous internal conflict in our own country by those enjoying the freedoms of this country with no accountability. And no allegiance! And yet, the ACLU defends the violence of men like Mahmoud Kahlil. In other words, they defend a man who provokes violence against Jewish people. Such

a man wants to exterminate all Jews from the face of the Earth. He must think we're all a bunch of Muslim-lovers who want to decapitate every Jewish person, or in fact, anyone who doesn't believe in THAT religion. Islam mandates in the Quran, "Convert or kill all non-believers."

What's the simplest method for stopping such provocative/violent behavior? Easy: send all those visa-holding student terrorists back to their own countries. That would put a stop to it, NOW!

What about the female fencer this past week who took a knee rather than fence with a biological male?

"Stephanie Turner took a knee in protest after standing on the piste before her bout against Redmond Sullivan at the University of Maryland. She was shown a black card and informed she would not be allowed to continue in the women's foil tournament."

Guess what? With that male competing, it wasn't a "Woman's Foil Tournament." He was/is a dude pretending to be a woman. He wasn't, isn't and never will be a woman. He carries the telltale XY chromosome.

Why haven't all women simply boycotted every athletic female sport where a man with a pair of testicles signs up to beat the crap out of female athletes? Why haven't those transgender misfits/mentally ill individuals formed their own athletic leagues to compete against themselves to level the playing field? Why is it that 99.9 percent of Americans do not support biological males competing against women, but that .01 percent gains all the power? Did Stephanie Turner deserve a black card disqualification for standing up for women's sports?

Why do you think female democrats hate women in women's sports? Why would Maine's and Massachusetts' female governors defend men beating the crap out of women. What happened to their minds, their ethics, their sense of fair play? Whatever

happened to “Common Sense”? Whatever happened to “Women’s Rights?”

Let’s examine Trump’s reciprocal tariffs. An incredible number of countries in the world throw up tariffs against American products. We’re being robbed blind by NAFTA. We’re being screwed blind by China. They tariff the daylights out of us. Canada and Mexico have taken advantage of us for decades as we buy from them, but they tariff us to death if we try to sell to them.

When Trump mandates reciprocal tariffs, the Dems go nuts. The stock market fizzles when it should be celebrating. Are the American people supposed to suffer at the hands of the corporate elites? Who in the devil has been cheating all of us for so long that they think it’s normal?

What about DEI? It’s in violation of Title 6 of the Federal Civil Rights Act. So is “affirmative action.” DEI places unqualified individuals into an airline cockpit or graduates medical doctors into practice according to their skin color rather than their merit and intellectual excellence. Would you want a DEI pilot flying you across the Atlantic? How about operating on your heart bypass grafts? Is that a resounding, “NO!” Let’s face it; DEI is racist, discriminatory, against the law and has no place in America. It makes one race intellectually inferior and another race a victim. America offers equal opportunity, not unequal mandates because of skin color.

Yet, liberals scream about keeping it in place at high schools, colleges, workplaces and more. It’s about as stupid as allowing biological men to compete against biological women. It might be noted that if a trans-man tried to compete in women’s professional tennis, they would boo him off the court at the U.S. Open.

Finally, with Elon Musk cutting trillions of dollars out of

U.S. AID's fraudulent slush fund for the past 50 plus years, you would think taxpayers would cheer him onward. Instead, they are trying to destroy everything he's doing for all of us. Guess what? Those very destructive people are democrats. At first, they bought his cars for saving the planet from climate change, but now, they're burning them for saving trillions in taxpayer dollars.

Finally, do democrats want Trump and America to succeed in the marketplace, in trade, in keeping illegal aliens out of America, in raising our standard of living and returning to law and order?

Answer: apparently not! Apparently, democrats like how Joe "Alzheimer's" Biden, and/or his handlers ran America into an ongoing nightmare.

It's up to the rest of us with common sense, ethical standards, support of our police and firefighters, our military, our economics, and our way of life--to move forward toward a healthy, prosperous and happy America.
