

Why Is Everyone So Concerned About China?

"In the practical art of war, the best thing of all is to take the enemy's country whole and intact; to shatter and destroy it is not so good." Sun Tzu, Art of War

How many articles have we been seeing for decades that China is our greatest enemy (besides CON-gress)? February 24, 1972, Richard Nixon met with Chou En-Lai in Shanghai to "cement a new world order". America crawled into bed with the commies. *The same communists who were holding our POW/MIAs from the Viet Nam "conflict."* Those butchers of Beijing had them at the same time Nixon was over there kissing En-Lai's backside and toasting champagne.

Back then headlines read: The day America cried.

China is a communist dictatorship *that has no regard for human life.* **Communists always lie.** Vietnam, Cuba and North Korea are also communist countries. The former Soviet Union, now Russia, were brutal communists. Their savage tactics during what was known as the "cold war" included a wall between communist East Germany and West Germany. Those who chose to try to escape East Germany (governed by the Socialist Unity Party (SED) over the 'Berlin Wall' were simply shot because communists in uniform guarding that wall were "just following orders".

The break up of the Soviet Union did not stop the Communist International's goals of becoming – with China – the world's two superpowers. I wrote about *The Venona Secrets: Exposing Soviet Espionage and American Traitors* by Herbert Romerstein and Eric Breidel available on [The Internet Archives](#).

The traitors exposed in that outstanding book to OUR America helped spread the cancer of communism and planted the seeds of that disease that has taken root so deep in this country, useful fools allegedly elected Comrade Mamdani as the new mayor of rotting, violent NYC.

In your spare time and want the truth, **please read** (Mine) [Russia's Technology and War Machine Built by U.S. Taxpayers](#), August 11, 2014. Yes, we did and many "American" companies and corporations were very willing to do the supplying for their thirty pieces of silver.

China knew what was going on at the Wuhan laboratory. They knew that lab was classified as dangerous but they withheld telling countries about this COVID-19 "virus" for months.

Satan's Pimp, Comrade Chinese President Xi Jinping makes me want to puke every time I see a picture of him. He could care less about "his people" and no doubt celebrated the death of every American who died. *China has never been held accountable for their part in the spread of COVID-19.* Go to the [front page of my web site](#) and read the top article I wrote: Who Created SARS-CoV-19, When, Where and How it Got to Wuhan, China.

Remember how many hundreds of Chinese came through the Darian Gap during the COVID circus – mostly young, fighting fit males – on *posh buses* and let loose in this country? Think they're here to pick strawberries or repair your A/C?

The CCP (Communist Chinese Party) has been stealing our technology for decades with the help of dirty traitors; private sector and/or elected office vermin. In the last few

years, Chinese are buying up land **right next to our military bases**. Companies owned by Chinese do so only with the permission of the CCP and *you do what they dictate or your family disappears*. Prison, dead or in re-education camps.

Members of CON-gress during sub-committees give their political ads and then ask questions of flag officers there to testify about China. How China is a threat to US. **How much you want to bet the labels on their clothing down to underwear all say Made in China?**

“Chapter 5: Assassin's Mace in Space

“How the Pentagon's Joint Staff warned in a secret 2018 report that China will soon be able to disrupt or destroy US satellites in orbit

“How China has joined with Russia in seeking to limit U.S. space warfare capabilities with a proposed ban on space weaponry at the United Nations

“How China's launch of three small, satellite-killing robots in 2013 revealed how Beijing incorporated American multiple satellite-launching technology illegally transferred to China in the 1990s during the administration of President Bill Clinton

“How China developed several types of space weapons to destroy U.S. satellites: Ground-launched missiles, lasers, microsatellites, cyberattack systems and electronic jammers.

Chapter 6: Seeking Digital Superiority: China's Cyberattacks

“How the National Security Agency intercepted communications between Chinese hackers and discovered that China had hacked Boeing's military aircraft databases

“How Chinese military hackers stole C-17 technology that cost the United States \$3.4 billion to develop

“A document outlining how Chinese hackers for six years broke into American corporations in the case of Chinese hacker Su Bin who led a clandestine hacking team that stole defense secrets on the C-17, and F-22 and F-35 stealth jets

“Details of the flight test plan for F-35 jets stolen in the Su Bin case, along with technology used in the radar-evading stealth bomb launch system for the F-22.

Chapter 7: High-Tech Totalitarianism

“How China has imposed massive electronic surveillance through phones, video cameras and other electronic devices

“How Beijing has adopted a high-tech “social credit” system now being used to control the population, such as preventing citizens deemed engaged in political crimes from using rail or air transportation

“Details on China’s use of technology for the repression of more than 1 million Uighurs in occupied East Turkistan in western China.

“How Google collaborated with China’s communist government in developing a censored search engine. Details of an internal Chinese propaganda directive showing how Chinese internet trolls target America...” *End of quotes.*

Control of the Panama Canal which **was paid for by Americans with more debt**[1] is a very important issue rarely mentioned anymore. Yes, this is good news for a change towards stopping the dirty, lying Chinese government in their quest to destroy our republic. Diana West. IMHO one of the very best most accurate researchers. I must address this and YOU need to read it. Dr. Robert Malone is known as the 'inventor of the mRNA technology'. You see, I believe and agree with Diana 100% and under the First Amendment I'm entitled to my own opinion.

Peter Navarro, whom I believe is one of the honorable men to serve this country, is mentioned but like President Trump, I don't believe they were told the truth about that bioweapon so blast the country with "'Operation Warp Speed"! Save lives! That's what Trump was sincerely trying to do: save lives.

[Dr. Robert Malone: A Risk Analysis](#), Jan. 28, 2022 by Diana West

Diana also wrote a 100 pg book (not counting pages and pages of source references) titled The Red Thread: A Search for Ideological Drivers Inside the Anti-Trump Conspiracy. If you read the comments section on Amazon, I hope it angers you. Her book will make you even feel even more betrayed.

Watch: [Diana West's "Red Thread" Book Launch Featuring the Author and Panel of Experts](#), Center for Security Policy, March 6, 2019: "The Red Thread asks the simple question: Why? What is it that motivated these anti-Trump conspirators from inside and around the Obama administration and Clinton networks to depart so drastically from "politics as usual" to participate in a seditious effort to overturn an election?

"Finding clues in an array of sources, Diana West uses her trademark investigative skills, honed in her dazzling work, American Betrayal, to construct a fascinating series of

ideological profiles of well-known but little understood anti-Trump actors, from James Comey to Christopher Steele to Nellie Ohr, and the rest of the Fusion GPS team; from John Brennan to the numerous Clintonistas still patrolling the Washington Swamp after all these years, and more.

“Once, we knew these officials by august titles and reputation; after *The Red Thread*, readers will recognize their multi-generational and inter-connecting communist and socialist pedigrees, and see them for what they really are: foot-soldiers of the Left, deployed to take down America’s first “America First” and most anti-Communist president.

“If we just give it a pull, the “red thread” is very long and very deep.”

Hello? Calling U.S. AG Blondi Bondi who seems content to “run out the clock” in indicting dirty players on several issues.

Yes, we’ve seen the scripted photo ops of President Trump with China’s thug, Xi Jinping. The big issue being trade and tariffs. *Don’t underestimate Trump when it comes to Xi. He knows how to play the game.*

Mine: [Communist China Needs Your Money to Destroy US](#), Oct. 31, 2022: “The U.S. House on Un-American Activities Committee (HUAC) was born in 1938 and shut down in 1975. The purpose of that committee was to investigate communist activities in the U.S. Oh, can’t have that! Abuse of power shredding the First Amendment, freedom of association and expression – especially for Hollywood. The commies racked up another win.

[Do take the time to listen to this interview](#) with Trevor Loudon who does his research and is really an excellent source of verified information: Trevor Loudon exposes Marxist, communist ties of US Senators, Governors and members of Congress.

I buy NOTHING from Communist China except my Dell hard drive a

couple of years ago. You cannot defeat your enemy by feeding them tens of billions of dollars so they can use YOUR money to build their military and *continue stealing our technology to use against us*. There are thousands of companies in America that make their products here in the U.S. *that want your business*. Yes, sometimes it takes time doing research on companies and corporations but for me, it's America First.

Our military and DIA have their hands full on the China threat but **we can do our part by NOT enriching our enemy**. The savages in Beijing trade with Cuba and other countries but the tide is changing in favor of capitalism in some South American and European countries. *However, the Chinese government plays the long game. Never forget that.*

“Instances included Chinese nationals being caught crossing into a New Mexico missile range, apparent scuba divers in the waters near a Florida rocket launch site, and a group of Chinese nationals attempting to rush the gates at Fort Wainwright in Alaska, claiming to have reservations at a base hotel.”

There's 42 more I have saved, but you get the picture. I know President Trump is playing the required “diplomatic” game but he's not stupid. Please buy Made in America and we can put China in such a financial crisis they will drown in their own narcissism and evil. [1] Mine, Jan. 16, 2023: [GOP Bill Abolish IRS /End Income Tax – Another Trap](#): "The big granddaddy came in December of 1913 when Congress passed the unconstitutional Federal Reserve Banking Act. **As long as the FED exists, there can be no economic freedom for we the people.**"

"Simply explained and screwed again. (Deceased) Congressman John William Wright Patman's words from a speech he made on September 30, 1941, entered into the Congressional Record. Patman was a Democrat who sat on the United States House Committee on Banking and Currency. He was always after the "Federal" Reserve. (Emphasis mine)

"When our Federal Government, that has the exclusive power to create money, creates that money and then goes into the open market and borrows it and pays interest **for the use of its own money**, it occurs to me that that is going too far. **I have never yet had anyone who could, through the use of logic and reason, justify the Federal Government borrowing the use of its own money...** I am saying to you in all sincerity, and with all the earnestness that I possess, it is absolutely wrong for the Government to issue interest-bearing obligations. It is not only wrong: it is extravagant. It is not only extravagant, it is wasteful. It is absolutely unnecessary.

"Now, take the Panama Canal bonds. They amounted to a little less than \$50,000,000 – \$49,800,000. By the time they are

paid, the Government will have paid \$75,000,000 in interest on bonds of less than \$50,000,000. **So the Government is paying out \$125,000,000 to obtain the use of \$49,800,000. That is the way it has worked all along.** That is our policy. That is our system. The question is: Should that policy be continued? Is it sane? Is it reasonable? Is it right, or is it wrong? If it is wrong, it should be changed.

“The Constitution of the United States does not give the banks the power to create money. The Constitution says that Congress shall have the power to create money, but now, under our system, we will sell bonds to commercial banks and obtain credit from those banks.

“I believe the time will come when people will demand that this be changed. **I believe the time will come in this country when they will actually blame you and me and everyone else connected with this Congress for sitting idly by and permitting such an idiotic system to continue.** I make that statement after years of study.

“We have what is known as the Federal Reserve Bank System. That system is not owned by the Government. Many people think that it is, because it says ‘Federal Reserve’. It belongs to the private banks, private corporations. So we have farmed out to the Federal Reserve Banking System that is owned exclusively, wholly, 100 percent by the private banks – **we have farmed out to them the privilege of issuing the Government’s money. If we were to take this privilege back from them, we could save the amount of money that I have indicated in enormous interest charges.**” *End*

“[On Dec. 31, 1999](#), “our” government via a treaty turned over control of the Panama Canal to Panama. So, we paid for those bonds – raped in interest to the “Fed” – and now are simply customers. [Losing strategic control of the Panama Canal to the People’s Republic of China](#), Nov. 2, 2021.”

[Boot maker jailed for selling the military Chinese-made boots with 'Made in the USA' labels](#), August 20, 2018. "Under the Berry Amendment, U.S. military uniform items must be manufactured in the United States. The company has been the lead boot supplier for the Department of Defense for more than 70 years.

"Between 2006 and 2012 alone, DoD paid more than \$138 million for combat boots.

"Ferguson and his executive team's Chinese import scheme began as early as December 2008 and lasted through August 2012, a time in which they sold more than \$8.1 million worth of the fraudulent boots, according to the release.

"Two shipments of fraudulent "USA" boots were seized by the U.S. Department of Homeland Security's Customs and Border Protection. On each pair, Ferguson and his team had the manufacturer tear away "Made in China" tags prior to shipment.

"Falsely selling our military millions of dollars of combat boots by saying they were 'Made in the USA' when they are actually Chinese-knockoffs not only defrauds the government, but also defrauds the American soldier," said Defense Criminal Investigative Service Assistant Special Agent in Charge Robert Hammer. "Our soldiers rely on their equipment, from their guns to their boots, to protect this country, and counterfeit products could fail at a moment when they need them the most."
