

Why is the RNC “Working Feverishly” Against Donald Trump?

The Republican National Committee is working against the People's Choice, Donald Trump. Let that sink in. HE IS THEIR CANDIDATE, for heaven's sake.

Yes, even with Lara Trump as National Co-Chair.

Lara is either clueless or complicit at this point. There is NO middle ground. All we know about her is that she (NOT DJT) was hired by Fox as a contributor in 2021. In March, 2024, she said that the RNC is “past litigating” the 2020 election, while he father-in-law was in the throes of the stressful and costly NY and GA sham trials. No biggie or “biggie”? You decide.

More on the other Co-Chair, Michael Whatley, in a minute.

Donald John Trump has nearly twice the committed delegates to the National Convention that would be required to win the party's nomination for President. Yet, the RNC, according to insiders, “is working feverishly” to destroy his candidacy AND, may I add, America's future as a free republic.

They could care less what you want. They are Globalists, and that is a sign of the sect. In their world, “the people”, don't HAVE choices.

What follows is information from insiders who know.

FACT: Most of those fired when Rona Romney McDaniel was removed, have been rehired. "Ninety percent ...who were fired at the removal of Rona McDaniel have been rehired, and are working feverishly against the re-election of Donald Trump." PLEASE read this article.

How could Lara not know this?

FACT: Election integrity efforts are a sham, REAL election fraud is not being addressed, and anti-Trumpers (aka, anti-Americans in the 2024 reality) are still in charge. This explains why they are still yapping about ballot harvesting and early voting.

The talk about having hired attorneys in GA, and elsewhere, to guard against fraud is just that. Fraud.

The other RNC Co-Chair, Michael Whatley, is a proven fraud. When chair of the NCRP, he was caught in numerous lies, such as reassuring members that each precinct had the required number of Republican poll watchers, judges, et. al. for the 2022 election. The truth was that, in places like NC's largest county, Wake, there were fewer than 20% of the Republican workers required by state law. When this fact was pointed out to Whatley, despite his, "I'll take care of it", the numbers actually went DOWN.

When he acted as RNC Council before he became co-Chair, he did not even have a law license.

PLEASE listen to the first two interviews on the Georgia Show for all the facts.

Who told Trump that Whatley was "the man for the job"? Was it Lara? She IS kicking off the NC Republican Convention this weekend. The two Co-Chairs seem downright chummy. Her message is about "change". Once, we might have thought that "change"

meant to elect President Trump, to get America back on course. Now, we have reason to believe otherwise.

I am truly sorry to be speculating on this. I want to trust the Trump family, as I know most of you do too. More than anything, though, I want to wake Americans up to the threats we face, so we can strengthen our stance, and not be caught by unsuspected incoming. Few expect Trump's family to have turned against him.

We know about the state parties of FL and GA, and their efforts to neutralize Trump delegates. See "The RPOF Purges Its Own" for the Florida chapter of the action.

I did have an interesting discussion, this morning, with friends who have just returned from the TX Convention. They said that attendees seemed united in their support of Donald Trump. Delegates were pledged to him.

My friends mentioned "lots of long and drawn out battles" on "rules changes" (uh, oh) and a strange occurrence when the attendees left the main hall for the "Gala" Saturday evening. When they returned, ALL of their Trump signs, banners and hats, etc., which had been left on their chairs to hold their spot HAD BEEN DISPOSED OF.

Also, their lengthy platform report booklets had been tossed as well. As I said, interesting. Why would a party whose candidate for POTUS, whose signage could have been taken from the convention and displayed in thousands of homes and businesses across the state – WHY would THAT party dispose of their delegates' personal Trump gear as well as their reference manuals for the proceedings?

We already know that both the FL and GA Republican parties have been caught neutralizing Trump delegates. Is TX possibly following suit? Let's see what happens in NC this weekend.

Evil has many faces. Be alert. You are smart people, Keep your

eyes and minds wide open. Read an research a bit...and let me know what you see. I'd like to check it out.

If you have the chance, attend your state convention. Be loud and firm in support of our rights as citizens of a free country. And pray.
