

Why Not RFK Jr.? Just in Case You Were Curious...

By Kat Stansell

The nephew of President John Fitzgerald Kennedy wrote a blockbuster book, [The Real Anthony Fauci](#), which not only laid bare the covid scam but also eviscerated the fraudsters that were behind it. He became instantly famous for it and has been on the talk circuit since its publication in 2021. America was delighted that FINALLY, someone with a BIG NAME had poked the malevolent Fraudci in the face, and gone VERY public doing so.

Now, RFK, Jr. is running for President of these United States. In an election cycle that promises vast criminality, fraud and angst among voters, RFK, Jr. hopes that he will be the grand solution. He hopes that those who still suffer from Trump Derangement Syndrome, despite the strong and free country that Donald Trump produced, will take heed and come to him. He also hopes that those who wanted someone new, but are increasingly gagging on DeSantis, will switch to a fresh face who was on their side with the Covid scam.

Not so fast, Mr K. Not so fast. After all, in the introduction to the book on Fraudci, RFK, Jr. reminded us that he "IS still a Democrat". That is what everyone must remember.

I know that I espouse getting rid of party labels, but the next paragraphs will make more sense if I hang with those useless tags just for the purpose of this article. The name, "Kennedy" and the Democrat party go hand in glove.

Robert F. Kennedy, Jr., is the son of Bobby Kennedy, the slain U.S. Senator and US Attorney General, and nephew of the murdered John Fitzgerald Kennedy, our 35th President. The fact that another Kennedy is in the fray, with the nerve (and clout) to facing down the mass murderers and their Covid tool, is almost enough to garner him loads of sympathy and “atta boys”. Not so fast.

RFK, Jr. has been in the national spotlight all of his life, from sharing the famous gene pool to his own appearance on the national scene, so when he spoke out against the Covid scam he became an instant hero.

The first that most might remember of him, was as a pallbearer at his own father's funeral, while still in high school. RFK's toddler cousin, John-John, grabbed the national heartstrings in the same way, as he saluted his father's caisson as it was pulled through the streets of Washington, DC. RFK, Jr.'s educational background was the usual “upper crust” (now known also as Globalist) retinue: Harvard, London School of Economics, University of Virginia stuff.

As a young DA in Manhattan, he was arrested and charged with heroin possession. But, as with any Dem, even back then, it was “no harm, no foul”. He did his penance to the law, after his conviction, by working for an environmental group. Sure, anyone else would have been locked up. Remember that, even back in the 80's, the law treated folks like RFK, Jr., differently.

This Kennedy scion has spent most of his life as an environmental lawyer, protector of waterways, indigenous rights and renewable energy. He founded the Pace University Law School Environmental clinic to train young up-and-coming environmentalists, while working with a number of different firms. Long an advocate for “the environment”, as in a UN Agenda 21 advocate, Kennedy has been prominent in many big-name lawsuits and clean ups against polluters, including the

one in in Pensacola, of an old Superfund site. So, he has done some good. Where he got the “smarts” about Covid and Fauci that were in the book is still unclear.

One particularly amusing case was his victory against a gun club in Connecticut, charged with shooting lead slugs into the ocean. I'd love to ask him how he justifies the murder of the seabirds and marine mammals by the wind turbines polluting our offshore world. And with the incredible unrecyclable waste produced by those bladed monstrosities as well as solar panels and electric car batteries, after their productive lives are over. But then, I have to remind myself . . . he IS a Democrat, and that kind of hypocrisy is their middle name. Silly me.

Also, RFK, Jr., while against the vax, was in favor of the Covid lockdowns, and felt that lifting them would return “risks of the status quo, and pour billions into polluting industries.” Before UNA 21, however, the US was making great headway in cleaning up our air and water. Yet the environment had to be turned into a battle ground for the cause of taking down the USA.

The slogan, “I’m a Kennedy Democrat,” may have some appeal to the old Blue Dog Democrats, who are still searching for the party of his uncle and dad. However, many younger Leftists don’t even know the name, “Kennedy”, due to the Marxist erasure of history from schools, or what reverence and reference comes with that lineage. Nor, do they care. Of course, it’s not just Kennedys they don’t recognize, it’s also anything and everything about America’s incredible history, but that’s for a different day... Enough said.

This is just a reminder that, as DeSantis continues to soil himself and his reputation, voting for the latest Kennedy is not the answer. RFK, Jr. still belongs to the hard left of the new definition of our political choices: Communism vs. our Constitution. And, he is a member in good standing, of the

swamp. After all, he was the first to remind us all “: “I AM still a Democrat”.

Oh yes...his son, Connor, is fighting for Zelensky in Ukraine – AND, RFK, Jr., himself, has been listed on the manifesto of the Lolita Express. He admits to two trips. Why not? The family definitely has a way with women (think Chappaquiddick) and, He IS a Democrat. Lol.
