

# Why Was Davos Important?

By Karen Schoen

January 25, 2024

Did you listen to the MTG Hearing on injuries caused by the Covid 19 vaccine the CCP bioweapon? If not listen. It was refreshing to hear the truth.

Over and over it was discussed that the vaccine was designed to intentionally hurt people. How many people do we hear about who "Died Suddenly"? Over and over Representatives asked WHY? To understand WHY you must understand the enemy. Refusing to learn and name the enemy guarantees you lose.

The enemies of humanity are the Globalists. Davos was the gathering place of those who think that just because they have duped us for years, stolen our riches and future, they can continue without pushback. According to the Globalists, we should roll over and comply. In order to make this happen the Davos theme this year was the horrifying spread of mis or dis-information. Of course they are the ones spreading those lies. They think we are dumbed down enough to listen and follow their commands. At their Davos meetings, Globalists spent their time with drugs, hookers, lavish parties while determining how they would like us to live under their extreme surveillance and constant monitoring. We better pay attention. As I said, their theme this year is mis or dis-information that we are spreading. What does that mean? It means they are looking for ways to censor us. They have weaponized every government agency in almost every country. Nothing is more clear in America as Jim Jordan discovered that the FBI has a

terror watch list of people who bought a MAGA hat, gun, Bible. If you did your credit card company will turn you in to the FBI and you will go on the terror watch list. That is called Fascism. Fascism is when the government dictates rules to businesses who must follow or lose.

“The goal now is a socialist, redistributionist society, which is nature’s proper steward and society’s only hope.” – David Brower, founder of Friends of the Earth

The Globalists ultimate goal is Depopulation. They say it all the time we just don’t listen. They try to eliminate humans with experimental programs or drugs make money. They believe there are too many of us to control. They want wars, abortion, famine, drugs, suicide, euthanasia, mutilation because every policy of theirs ends the same- Death for the humans. Please read their words. It will make everything they do clear. Humans are their experiment to sacrifice because they crave eternal life. Organ harvesting is extremely important for their longevity.

“The common enemy of humanity is man. In searching for a new enemy to unite us, we came up with the idea that pollution, the threat of global warming, water shortages, famine and the like would fit the bill. All these dangers are caused by human intervention, and it is only through changed attitudes and behavior that they can be overcome. The real enemy then, is humanity itself.” – Club of Rome, premier environmental think-tank, consultants to the United Nations

Controlling and ruling America is their prize. America is one of the richest countries in the world. Filled with natural resources America is really self sufficient. But the big problem is America is owned by We the People, Not They the Government. America is a Constitutional Republic NOT a Democracy. Unfortunately due to lack of a civics education Americans don’t understand what that means. Basically we answer to G-d, not Government. In America we are all equal. We

vote for Representatives to carry our wishes to better our lives. We are all to follow the same laws in the Constitution regardless of ethnicity or race. The federal government does not own much land or natural resources and has no rights to sell anything.

“The only hope for the world is to make sure there is not another United States. We can’t let other countries have the same number of cars, the amount of industrialization, we have in the US. We have to stop these Third World countries right where they are.” – Michael Oppenheimer, Environmental Defense Fund

Sadly we gave those representatives our power. We made money more important than G-d. We neglected our job of oversight and now we suffer the results. We can start oversight by naming those who voted to bring on more debt, more illegals, destroy the dollar and lock us into a life of slavery by their lies. We must start naming them as they are in both parties. A great start is the 107 Republicans who voted for a CR giving America to Biden to destroy. [They are not interested in the invasion on the border](#). They must destroy nation states because they seek a One World Government housed in the UN and Davos.

Globalists don’t want countries which is why they don’t want borders. Globalists want regions with unelected bureaucrats running the show out of the UN or Davos. They want to own and control every aspect of human activity. When they say you will own nothing they mean it. They must redistribute our wealth. They must replace our Constitution (say NO CON-CON) They must inflict the poverty of socialism/fascism. Until we name and identify the enemy and their motive, we will lose as we fight each other instead of the Globalists. The enemy is in Davos, the UN, the banking cartel, the NGOs and they are in both parties. You can find the Globalists in the GOP by seeing the House members who voted for the CR to extend the Globalist government and keep the borders open. Let your legislator how you feel about their vote.

“Regionalism must precede globalism. We foresee a seamless system of governance from local communities, individual states, regional unions and up through to the United Nations itself.” – UN Commission on Global Governance

Globalists will correlate every policy to climate change. By lowering the bar, using Affirmative Action and DIE (Diversity, Inclusion, Equity. Stop letting them control the language. DIE is what they mean.) they have used the fear of climate to regulate business as well as our lives. Dumb Down people don't ask questions they accept. The result is our once exceptional business model of demanding quality has become business striving for mediocrity at best. America is being run by Affirmative Action graduates modeled after Kamala. Accepting lies without question has become the norm. Parents how do you teach your child not to lie when they watch their leaders lie all the time. Worse than that is we accept the lies.

“No matter if the science of global warming is all phony climate change provides the greatest opportunity to bring about justice and equality in the world.” – Christine Stewart, former Canadian Minister of the Environment

Globalists know full well their plans do nothing for the climate or for society as a whole. That is OK since the purpose is to redistribute the wealth of the middle class. They must destroy the middle class because the middle class are the innovators, creators activists and dissenters, the truth tellers. Globalists will not tolerate competition or opposition. They lie constantly to achieve power.

“Isn't the only hope for the planet that the industrialized civilizations collapse? Isn't it our responsibility to bring that about?” – Maurice Strong, founder of the UN Environment Programme

Globalists tell us how much they hate us it all the time. We just don't listen. They experiment on humans to make money and

eliminate humans. There are too many of us to control. They want wars, abortion, pandemic, famine, drugs, suicide, euthanasia, mutilation. Every policy of theirs ends the same-transfer of wealth for them and death for us. Read their words. It will make everything they do clear. Humans are their experiment to sacrifice because they crave eternal life. Organ harvesting is extremely important for their longevity.

“The big threat to the planet is people: there are too many, doing too well economically and burning too much oil.” – Sir James Lovelock, BBC Interview

All is not grim if we act. Globalists can not handle the truth. The world is waking up and all over populists are winning elections. Will it be easy? NO. It took them a long time to get this much control. They will not go away without a fight. But the end the truth will win.

## **Good News**

Did you know we nixed the NAC, Natural Asset Company? It was wonderful to hear about all of the calls the SEC and legislators got. Getting involved works. But beware. It will come back under a different name. Globalists NEVER stop trying to gain power.

Remember as primaries are upon us to vet your candidates. How do you spot a Globalist? They are in both parties. Its very easy. Just ask your candidate what MAGA means. Most don't know. Ask why do they not want America to be first? Ask them what kind of government does America have? If they say a democracy, say next. If they say a Republic ask them what is the difference between a democracy and a republic. Then ask hem what a Fascist is.

Is America worth saving? There is only one way to save America that is – with hard work. Are you up to it? Can you share this article with 5 people and ask them to share with 5 and so on? Sharing the truth and applying knowledge is power. This is the only way to save America. You can do it. I know you can.
