

Why We Need I.C.E. Agents to do Their Jobs

By Frosty Wooldridge

December 19, 2025

Thank you ICE agents for keeping US safe

Every time you read another page in the newspapers or hear another report on network news--illegal aliens continue rampant robbing, killing and defrauding American citizens out of their lives and/or stealing billions of dollars.

When you watch what's happening in New York City, Chicago, Los Angeles, Detroit, or Portland, Oregon--you have to wonder how those pro-illegal aliens think? What causes them to support anarchy? What causes them to become anarchists in their own country? How do they justify killing National Guard troops or shooting up vans with I.C.E. agents driving illegals to jail?

Right now, in Minneapolis, Minnesota--illegal alien Somalian migrants have stolen billions of dollars from American taxpayers. Yet, Governor Tampon Tim Walz supported the theft by stopping any whistleblowers from reporting the fraud. At the same time, that guy championed himself as Vice President of the United States. He is a liar, a fraud, a crook, a thief, and really, really against America's laws and citizens. It's hard to wrap your arms around such behavior by a sitting governor.

At the same time, we've seen and heard House Member Ilhan Omar (D-MN), lie, cheat, steal and defraud her way into America.

She married her brother to defraud our immigration laws. There's a good chance since she came here as a penniless refugee from Somalia, she's a devious thief of over \$30 million in her bank account. There's no way she earned it. With a documented IQ of 67.7, which is the average for Somalians, she lacks the brain power to earn it, invent anything of value, or take a job that pays that much money in less than five years she's been in the House. I.C.E. needs to research her activities, arrest her and deport her out of our country. Along with her "husband", I mean "brother."

Look at our two National Guard troops shot in Washington DC. That illegal Afghanistan refugee killed one, and totally ruined the life of the other Guardsman. That illegal alien should have been caught, and tossed out of America before he killed our citizen soldiers. Instead, Joe Biden helped the illegal refugee, and that killing is on our former Alzheimer's brain-fogged president.

Alleged human smuggling operation exposed in Texas as 17 illegal aliens found inside residential home. Suspected caretaker arrested during joint operation by Texas DPS and Border Patrol in Laredo.

This is why we need I.C.E....

"In a photo shared on Laredo Border Patrol's social media account, 10 individuals – most with their faces obstructed – can be seen sitting on the kitchen floor inside the home. Authorities did not provide details regarding the identities of the 17 illegal aliens or the alleged caretaker. In a social media post, Laredo Border Patrol celebrated the arrest, writing, "Operation Success!""

According to data released by CPB, Laredo accounted for 4,400 land border encounters in the 2025 fiscal year, with the entire southwest region of Texas seeing 103,124 encounters within the same time frame.

Every time you see I.C.E. agents arrest and deport illegal aliens, it means one less rape, one less killing, one less job stolen, your salaries remain the best, one less kid going to school on your diem, one less illegal alien pregnant mother welfaring your tax dollars, one less driver without insurance, one less person speaking heaven knows what other languages, one less cheat on the tax roles, one less person voting illegally....

When I.C.E. agents do their jobs, you have one less story about Laken Riley getting raped and killed by that illegal refugee named Ibarra. Same with that 12 year old girl Jocelyn Nungaray who was murdered by an illegal alien. Also, Kate Steinle would be alive today if an I.C.E. officer had been allowed to do his/her job if not for Governor Gavin Newsom creating a "Sanctuary State" for several million illegal aliens in California.

It's not such a big deal when you see those tragedies on the TV because they don't affect you. But, their families are still grieving the loss of their loved ones.

In my town of Denver, several years ago, a multi-times drunken illegal drove into a Baskin-Robins ice cream shop, killed a baby and two women. He should have been incarcerated and deported before he killed those innocent Americans. But Colorado's idiotic governors for the past 20 years created safe havens for illegals.

Don't you wish that their own children would have been the victims of their own actions? If those elected leaders would suffer what average Americans suffered, they would be dancing a whole new tune. Same with the protesters against I.C.E. agents! Just let a good number of them see their brothers, fathers, mothers or sisters or good friends killed by illegals--they would be out marching to deport every single last one of 25 million of them.

What would that mean for America? How about the incredible benefits of deporting 25 million illegal aliens?

You would enjoy English as the only mainstream language.

You would enjoy every one of your neighbors being Americans.

You would enjoy national cohesion of American culture.

You would enjoy law and order by everyone adhering to the "Social Contract."

You would enjoy your kids in school with safe, sane and reasonable numbers in each class...all speaking English.

You would enjoy lower food and mercantile prices because it would put a stop to \$100 billion in shoplifting annually.

Your car insurance would drop because illegals do not pay insurance. What's their insurance? In an accident, they run!

You wouldn't be paying for the millions of illegals in Medicaid, Medicare, and EBT cards that costs you into the billions of dollars.

You would enjoy greater personal safety along with your kids.

10. You could name another 10 reasons yourself.

With all the benefits of I.C.E., let's support their work. Let's vote for the U.S. Border Patrol to keep doing their work. Let's support U.S. Code 8, Sections 1324, 1325, 1326. That means you would make sure employers didn't hire them, apartment owners wouldn't house them, and transport companies wouldn't take them anywhere. Why? Because the fines and jail sentences are really harsh.

In the end, we need to shut down all legal and illegal immigration because we flat-out don't need millions of more immigrants that are stressing our language, culture and sustainability. Not to mention giving our kids a chance at "The American Dream."
