

Will America Survive Multiculturalism and Diversity?

By Frosty Wooldridge

March 4, 2024

Political angst of one half of America's liberals against the other half of America's conservatives may be the final wrecking ball to our republic. One look at Congress shows you none of them get along, none of them work together and none of them benefit average Americans. In fact, the Congress of the United States remains in gridlock most of the time.

They can't or won't solve our \$34 trillion national debt. Why? They're the ones that put us into that debt. They won't stop the invasion of our borders. Why? Because they invited the illegal alien invasion along with Biden over the past 38 months. They won't solve homelessness, but instead, have added 11 million illegal aliens—homeless in the past 37 months. They spend billions of our tax dollars on Ukraine and Israel's borders, but allow criminals to kill our citizens such as the latest death of Laken Riley. Why? Because they don't give a damned about average Americans who pay their salaries. And some of them, like Maxine Waters and Alexandra Ocasio Cortez, are as dumb as a box of rocks! The people who voted them into the House of Representatives are just as dumb!

We are watching the most incredible "disconnect" of politicians and citizens in American history.

If you look at Joe Reid of MSNBC, you would think that white American citizens represent the most evil and racist people on Earth. You get the same from Whoopi Goldberg in "The View" daily. If you ask any Black Lives Matter leaders, they want reparations for slavery when none of them were ever slaves. If you look at the growing Muslim numbers in America, now about 4,000,000 plus, you will find that they don't want anything to do with America's Constitution because they answer only to Sharia Law in the Qur'an.

Have you ever seen any of those reporters asking simple questions of average Americans on the street? If you have, you would see some of the dumbest Americans of every race, creed and color. We're talking American citizens who don't know the first president of the United States. They don't know the names of their two U.S. Senators. Less than five percent know the name of their House member. Half of Americans don't vote in national elections and 90 percent don't vote in local elections.

A stunning 40 to 50 million suffer functional illiteracy. "In 2014, reports indicated that 18% of US adults (approximately 57.4 million people) are functionally illiterate. Other sources indicate that up to 90 million US adults lack basic literacy skills."

That tells you why we face over 500,000 homeless Americans. That shows you why we feed 42 million people on food stamps (EBT, SNAP benefits). That shows you why our inner cities are turning into intractable ghettos. (Source: www.NPR.org, August 22, 2021)

That's tells you why we have 2.3 million poorly educated people living in our prisons. That's at a cost of \$65,000.00 annually per prisoner to feed, warm, bath and care for each one.

On top of all that mess, which is the tip of the iceberg,

Biden just imported 11 million illegal homeless aliens into our cities. WITH NO SOLUTIONS! Not one "Sanctuary City" has come up with any workable solutions! Except they want your tax dollars!

What About Multiculturalism and Diversity?

Do they ever mix baboons, chimps, and gorillas into the same cages in a zoo? Answer: no! Why? Because they would tear each other to pieces. Why? They are all from the same "ape" family, but such animals don't get along. Would they ever put tigers, lions and cheetahs in the same caging area? Answer: no! Why? They would tear each other to pieces. But they are members of the "cat" family. Sorry, Mother Nature does not tolerate diversity or multiculturalism in close quarters.

Right now, America's leaders are mixing every kind of human incompatibility, every religious incompatibility and every kind of racial incompatibility into this limited landmass of the United States of America. If you look at those incompatibilities on the world stage--you see conflict, war, massive killings and total chaos, i.e., Ukraine, Israel-Hamas, Sudan, et al. It's mixing 68 IQ'd people from Africa into the classrooms of America's average of 97 IQ's. It's mixing violent religions such as Islam right next to Jewish and Christian communities. It's mixing millions of people with "world views" that lack any kind of compatibility with the American Way of Life.

What does that mean for the future of America? We now have an average of 25 honor killings in the USA annually according to the Department of Homeland Security. We have over 2.0 million women with female genital mutilation which is assault and battery against a young female child. We have dozens if not hundreds of murders by guns, knives and drugs weekly in America.

We've got 100,000 drug overdoses annually in the USA...and that

number will continue to climb. We've got \$100 billion in shoplifting. We've got 40,000 car accidents with half of them from alcohol, stoners and texting, annually.

Not a news report goes by that "racism" rises to the top of the broadcast and who is to blame? Answer: you, if you're white.

Each year, America imports 1,000,000 legal immigrants into this country with NO IDEA OF THE FINAL RESULT. Within the past 38 months, Biden imported 11 million illegals into our country, with another 2 to 4 million coming during 2024...from 150 different countries.

Does anyone understand that we're in the middle of a "human chemistry laboratory" with volatile human mixtures being forced to co-exist while our water, energy, food, resources and cities are decaying and being exhausted beyond comprehension? Does anyone understand that you cannot mix incompatible religions, races, IQ's and world views into the same country without utter and complete breakdown of our society? Does anyone understand that we're in the process of adding 100 million more people, net gain by 2050?

Will our culture survive? Will our way of life survive? Will our country survive? What's your take? My take? I don't think we stand a snowball's chance in hell of surviving this invasion, both legal and illegal refugees. Whether you're a liberal, independent or conservative, how can you disagree with what we face?
