

Will Christopher Wray Protect Joe Biden?

Devyv Kidd

Many have wondered why Joe Biden decided to run for president in 2020. He certainly doesn't need the money. It's obvious to anyone with eyes that see and ears that hear, [Joe's 77-year old mind is seriously impaired](#). A presidential race also requires a tremendous amount of energy and stamina. So why?

Career criminal Hildebeast Clinton figured if she could get elected the truth about the Clinton Foundation's pay-to-play schemes would stay buried right along with the Uranium One cash cow. Her buddies in the Dept of UnJustice and FBI who sold their soul to the devil, would protect her and they have as well as the disgraced so-called 'mainstream media'. The prostitute media with absolutely zero integrity or credibility as we have watched one mendacious report or leak after another during this cover-up impeachment inquisition.

By protecting Hildebeast that incestuous cabal would be protecting *their* criminal activities and garnering favor with the first female president. Uh, didn't quite work out that way. Defense attorneys in DC are raking in the cash.

In the case of Joe, butt of bar jokes nationwide, I believe he decided to run to protect his son, Hunter. After all, his

other son, Beau, passed away in 2015 which is devastating to any parent. No doubt he doesn't want to see his only surviving son spend years in a federal prison – with possibly himself as a cell mate down the hall.

Uh, Oh. Uncle Joe, say it isn't so!

[UPDATE – Head of Burisma Holdings Linked to Hunter Biden Is Indicted in Ukraine – THEN GOES MISSING](#)

[How Biden's Son Got \\$1.5 Billion from China](#)

Just how dirty are poppa Biden's hands?

[Report: Hunter Biden-Linked Firm Received \\$130 Million in Federal Bailout Loans](#): “The *Washington Examiner* reported Thursday that Rosemont Capital, a company led by Hunter Biden's business partners, received \$130 million in federal bailout loans while Joe Biden was in office as vice president in 2009...

“The timing is significant, the *Examiner* notes, because then-Sen. Joe Biden (D-DE) backed the bailout: “He delayed his Senate resignation in January 2009 to cast his final vote to increase funding for the Troubled Asset Relief Program before taking office as vice president.”

Illegal under the U.S. Constitution. All borrowed money with the interest slapped on our backs.

No need to re-hash the grotesque abuse of power leading up to the Mueller Report and the final conclusion: There was no collusion or obstruction by Trump or any of his election team or associates with Russia. Period.

But, other than a couple of firings, *no one has been held legally accountable* for that covert operation to remove a legally elected president. Former acting FBI Director Andrew McCabe was fired **March 16, 2018** for lying to the FBI. Unbelievably, a federal grand jury allegedly did not issue an

indictment against McCabe. What?

September 29, 2019 – 8 ½ months after McCabe's firing: [Judge tells DOJ to file charges against McCabe or end investigation](#)

That was almost two months ago so what's DOJ waiting for?

After the failed Russia Hoax blew up in their faces, **the ethically bankrupt Demorats had to come up with something new because of timelines**. DOJ Inspector General Michael Horowitz will be releasing his much-anticipated report on FISA abuses December 9, 2019. Skeptics like me aren't holding our breath. There have been too many roller-coaster rides the past three years to expect anything but more of the same which would be really bad for our country.

One can only pray – especially for this fine American set up to 'get Trump': – [General Flynn lawyer: Inspector General report will have everything](#) – Free Flynn Now! (4 min video well worth watching)

Of course, the usual rags (why does ANYONE read their newspapers anymore or watch the drivel upchucked on their networks?) jumped right out there in an effort to 'soften' what might be in Horowitz's report. Notice the repeated 'low-level lawyer' used:

[Mainstream media already downplaying upcoming DoJ IG report by Horowitz as finding 'no political bias' in Spygate, but this looks like a giant smokescreen](#)

"What's more, these not-so-trustworthy news sources report, the top dogs in the FBI and DoJ who were involved in launching the Spygate scandal to depose President Donald Trump – James Comey, Andrew McCabe, Peter Strzok, Lisa Page, et al – are going to escape unscathed."

This is a comprehensive and factual analysis: [Here is What the Horowitz Report Should Conclude](#)

U.S. Attorney John Durham is investigating origins of the Russia Hoax. Trump has made it a top priority to find out those responsible for that manufactured lie to bring him down. As time has passed Durham has apparently expanded his investigation: [John Durham investigating Ukraine in Trump-Russia origins probe](#)

That massive web of lies and Machiavellian scheming is unraveling which has to be scaring Joe Biden, his son and the big players.

Of course, Democrats are marching on with their usual arsenal of skullduggery which includes accusing Republicans of doing exactly what they themselves did. The big one is Hildebeast Clinton and the DNC funding the phony Steele Dossier. That didn't work but career criminal, Hillary, is living it up in the private sector in her own little world of delusions. If you missed this column, book mark it and read over the Thanksgiving holiday. A *masterpiece* that perfectly describes that pathetic female: [Hillary Clinton—The Human Spittoon](#)

[Sharyl Attkisson Dredges up the Ukraine Story Democrats Don't Want to Talk About](#): "It's a total clown show. Some of the witnesses, like Marie Yovanovitch, were just career diplomats who disagreed with Trump on Ukraine policy. Her testimony was a therapy session. Yet, one thing that is missed in all of these proceedings is that Ukraine did collude with the Hillary Clinton campaign in 2016 in a failed attempt to derail the Trump candidacy."

If you were unable to watch last week's impeachment follies or record it, at the bottom I have provided you with what I feel are the most accurate information and analysis. I've omitted all the rectal gas still being released by Andrew Napolitano and other Trump haters – especially at FOX "News". Waste of time.

Kill the messenger

Contrary to ravings by the corrupt media with headlines like 'The walls are closing in on Trump' – repeated ad nauseum; 'Trump will not serve out his term'; 'Trump will resign'; 'Bombshells during so and so's testimony prove bribery' – last week was devastating for the Democrats out for blood.

Next in this guerilla warfare it's time to go after the messengers. One of the most competent U.S. House members who has been fearless as an Irish Wolf Hound is Devin Nunes. His opening statements and questioning of worthless 'witnesses' have been devastating to Shifty Schiff and his committee of bumbling nitwits.

Time to sling those arrows at Rep. Devin Nunes. They picked the wrong guy to pick a fight with:

[Giuliani associate willing to testify to Congress Nunes met with ex-Ukrainian official to get dirt on Biden](#)

[Exclusive – Devin Nunes to Sue CNN, Daily Beast over Fake News Attacks](#) – Giuliani’s indicted business partner (Parnas) has done what they all do: Sing like yellow canaries and lie through their teeth hoping for a reduced sentence- if it’s even true.

“The Daily Beast story, from Betsy Swan (formerly Woodruff), alleges that Parnas helped Nunes set up a variety of meetings on Ukraine matters. The CNN story, from Vicky Ward, goes even further, **alleging that Nunes arranged a secret trip to Vienna and met there** with Victor Shokin, the Ukrainian prosecutor that former Vice President Joe Biden pushed to have fired when Shokin was investigating Burisma Holdings, the natural gas company paying Biden’s son Hunter Biden \$83,000 per month.

“These demonstrably false and scandalous stories published by the Daily Beast and CNN are the perfect example of defamation and reckless disregard for the truth,” Nunes told Breitbart News late Friday night. “Some political operative offered these fake stories to at least five different media outlets before finding someone irresponsible enough to publish them. I

look forward to prosecuting these cases, including the media outlets, as well as the sources of their fake stories, to the fullest extent of the law. I intend to hold the Daily Beast and CNN accountable for their actions. They will find themselves in court soon after Thanksgiving.”

Should be easy enough to prove with passport/customs and hotel records. What you didn't know about Nunes that makes him a prime target. [This is comprehensive](#) and **well worth reading and watching**. At 5:44 into interview Nunes.

John Solomon has been viciously attacked by Demorats for his ACCURATE reporting based on in-depth investigating. His investigations have provided proof of corruption and hypocrisy. He was also smeared by impeachment 'witness' Army Lt. Col. Alexander Vindman, a petulant brat who got his feelings hurt because Trump didn't use his talking points during the infamous call. Solomon was much kinder in his response than I would have been and again, this is well-worth the reading time:

[John Solomon Drops 28 Uncomfortable Facts Crushing The 'Debunked Conspiracy Theory' Narrative](#)

Vindman will never correct his testimony. He's not man enough.

Rudy Giuliani has been ensnared in this coup and taint Trump's campaign attempt. I do not like Giuliani but *no one* should be falsely accused for political reasons. Not one to back down from a fight, he is swinging with both fists:

Important: [AG Barr's US Attorney John Durham Reportedly Took a Third Trip to Italy and Is Now Investigating Pentagon in His Russia Collusion Probe](#)

Gong back to Christopher Wray, Director of the FBI. From day one Wray has done NOTHING to drain the swamp. Quite the contrary. Wray has got to go.

[Incredible – FBI Blocking Release of Unredacted Text Messages Between Lisa Page and Peter Strzok](#): "Why would those current FBI officials be fighting the public release of those messages? What functional value was there to give AG Bill Barr declassification authority, if he is going to participate in allowing FBI officials to hide material that shouldn't even be classified in the first place?"

[The Obstruction Continues: What Are Christopher Wray & Rod Rosenstein Trying To Hide?](#) (Drag it out until after the 2020 election. Wray IMHO is trying to protect sedition operatives like Comey and the rest of the vermin involved in the Russia Hoax.)

Now, will Wray extend the same protection for Uncle Joe as the roof is about to cave in on his head, along with his son, as was given Hillary Clinton? A crap shoot for Wray. Joe Biden 'knows' and what he knows could lead to legal trouble for many – including the criminal imposter 'president' Hussein Obama. If singing saves his son, he will hit just the right notes.

But, Joe Biden isn't on the same level as corrupt Hildebeast Clinton and her slutty husband. They are considered 'political royalty' in the big pig sty called Washington, DC. Biden is 'low-level' compared to the Clintons who know a mountain of dirt on the Washington elite. Might be time for Uncle Joe to enter an Alzheimer's facility.

Time will tell what the master of obstruction, Christopher Wray, does about Biden and his son. Wray should tread carefully because if he thinks Trump and Barr aren't following his actions, he's a fool.

In closing, I want to wish you and yours a safe and blessed Thanksgiving.
