

Will Justice Be Served Or Will AG Barr Protect The Deep State

Kelleigh Nelson

A document was drafted in the State Department in July 1946 by an official named Samuel Klaus. This indicated that there were then 20 alleged Soviet agents, 13 alleged Communists, about a dozen sympathizers, and about 75 suspects in the department, according to the FBI. –M. Stanton Evans

The tyranny of Communism is as old as the Pharaohs and the Pyramids – that the State stands above all men and their individual aspirations. –Robert Kennedy

The Communists were interested in getting into key positions as union officers, statisticians, economists, etc., in order to utilize the apparatus of the unions to promote the cause of revolution. –John T. Flynn The Roosevelt Myth 1948

On Thursday, September 19th, Lou Dobbs took several minutes at the end of his program to excoriate AG Barr for spending time in Congress promoting anti-gun legislation. It was a magnificent monologue regarding our 2nd Amendment rights and AG Barr's lack of priorities. Dobbs complained about it "taking so long" to have transparency "that we were led to believe would be there." He described the Justice Department as a "dumping ground" where "truth" goes to die. Unfortunately, I

cannot link to it because the last portion was removed from every posted video.

We are looking at totalitarianism from the Democrat Party and a good portion of the Republicans who are Deep State insiders. M. Stanton Evans quote from 1946 exposed how many communists we had 73 years ago. Today, they blatantly dominate the Congress and mainstream media.

Innocents Suffer

It's now beyond any reasonable doubt that Obama administration minions launched an all-out effort to destroy, first, President Trump's presidential campaign and, when that failed, his presidency. The only question is, knowing the truth, will the Justice Department charge these people with crimes?

General Michael Flynn, Roger Stone, Michael Cohen, Paul Manafort and George Papadopoulos have all suffered at the hands of Robert Mueller and Andrew Weissman mainly because they were supporters and friends of Donald J. Trump. All were caught in the crosshairs of the plot to bring down President Trump.

General Michael Flynn

General Mike Flynn's attorney, Sidney Powell, is [demanding exculpatory evidence](#) from the DOJ via the Brady doctrine which requires that the prosecution must turn over all exculpatory evidence to the defendant in a criminal case. Exculpatory evidence is evidence that might exonerate the defendant. [Link](#)

Sidney Powell has catalogued 40 categories of evidence the government has refused to turn over. In her motion to compel, [she seeks a court order requiring federal prosecutors to provide the withheld evidence under Brady](#) and its progeny.

Essentially, Powell asked Judge Emmett Sullivan to make the government show cause as to why it should not be held in contempt. Judge [Sullivan](#) says that duty exists even though Flynn has pleaded guilty.

The General was [set up by Comey, McCabe, Strzok](#) and others who were complicit. [Link](#) General Flynn's [Motion to Show Cause and Compel](#) is now unsealed! He needs to be exonerated!

Roger Stone

In January of this year, Roger Stone and his wife suffered through a [paramilitary-style raid at his home in Fort Lauderdale, Florida](#). The grand jury [indicted](#) Stone on seven counts of lying to Congress, witness tampering, and obstructing a congressional investigation. [Link](#) Roger is a longtime friend of our President.

My friend [Kitty Werthmann](#) who escaped Hitler in Austria said, "This is the Gestapo." This pre-dawn raid was done purposely for media consumption, for a negative impact against our President who is a 40-year friend of Roger Stone's, and to instill fear not only in those who would work for an outsider like Donald Trump, but also to let the American public know the full power of the FBI. The out-of-control Nazi-esque behavior by the Department of Justice and the FBI needs to be curtailed, but I see no end to it.

I believe Stone is innocent.

Michael Cohen

Michael Cohen caved to Mueller and Weissman's demands because he was told his wife would end up in prison if he didn't do what he was told, this according to a longtime friend and employee of the Trump organization. Guilty of some crimes, but raided and charged because he was one of President Trump's attorneys.

Paul Manafort

Paul Manafort has lost everything via the state and federal charges against him, and again, an unnecessary FBI early dawn raid on him and his wife occurred at their home. He was convicted last year of [hiding millions of dollars from the IRS](#) that he had earned as a foreign lobbyist for a pro-Russian politician in Ukraine and for lying on paperwork to obtain millions in mortgage loans. I have to wonder how many millions of dollars the [Podesta brothers](#) and [Joe and Hunter Biden](#) have hidden away regarding their Ukrainian relationships of which they'll probably never be charged. (Watch the [video](#) of Rudy Giuliani and Chris Cuomo regarding the Bidens).

George Papadopoulos

In late 2017, George Papadopoulos pleaded guilty in the U.S. District Court for the District of Columbia to making false statements to FBI agents relating to contacts he had with agents of the Russian government while working for the Trump campaign. He was brought down by [Joseph Mifsud](#) who was introduced to him by an FBI intermediary named Arvinder Sambei, who was actually working as the FBI's counsel in the UK and had a personal and professional relationship with Bob Mueller dating back to 9/11.

The Perpetrators

Russian collusion did not happen. The phony Steele dossier was [procured by Hillary Clinton and the Democrat Party](#). Domestic spying during a presidential campaign did happen, and is still happening, and we have a right to know who participated in it, who authorized it and what their motives were, and we want indictments. [Link](#)

Comey, McCabe, Strzok, Page, Brennan, Clapper, Sally Yates, Bruce and Nellie Ohr, Glenn Simpson of Fusion GPS, Rod Rosenstein and others... engaged in acts of sedition against the United States government, against the President of the United States. Then there's Clinton-dirt tipster, [Joseph Mifsud of Malta](#); British intelligence officer and author of the Steele Dossier, [Christopher Steele](#); and [Stefan Halper](#), the Cambridge professor the FBI sent to spy on Trump; the [NSA spying](#) by Obama, Hillary Clinton's multiple criminal acts, Eric Holder's Fast and Furious, [Loretta Lynch](#) and the tarmac chat, and Susan Rice, all of whom are complicit, along with lesser known State Department officials.

Fox News told us Barr has formed a team to review the FBI's actions during the so-called phony collusion probe, that the pendulum is swinging, and the boomerang is now headed right back to the top, to the Deep State actors and they will all be held accountable. Really? When?

Comey

Crooked cop James Comey [deliberately leaked government](#)

[information](#) to someone outside the Department of Justice in order to prompt a Special Counsel. Comey knew his good friend Mueller would be appointed by his other friend, Rod Rosenstein. Barr has not charged Comey for his leaks. [Link](#)

Comey was a young communist when he graduated from the [College of William and Mary](#) in 1982. In her book, [The Red Thread](#), Diana West writes, "Comey cites socialist theologian Reinhold Niebuhr as a formative influence. Niebuhr is well known for his Marxist 'ideas and approaches,' including 'social ownership' of property, the use of violence to bring about political change and his membership in over one dozen Communist front organizations, including in leadership positions, which advanced the Kremlin line."

Niebuhr was "as dangerous as a Bolshevik behind a clerical collar," but today he is promoted as a strong opponent of communism. He is a favorite thinker of [Jimmy Carter](#), [Hillary Clinton](#), [Barack Obama](#), and now deceased, [John McCain](#).

The former FBI Director is still walking free despite his participation in Loretta Lynch's cover up for Hillary Clinton, his lies about President Trump not being under investigation, leaking government property to the media which were purposely meant to harm the President, [spying on the President](#), and lying by omission allowing the President to be falsely smeared.

In the fall of 2018, dirty cop Comey [co-taught a course](#) about "ethical leadership" to students at the College of William & Mary, his alma mater.

McCabe

Both President Trump and General Flynn were targeted for malicious prosecution by an outgoing administration and its loyalists. During an alleged senior-attended FBI meeting or video conference, [Andrew McCabe said](#), "First we f*** Flynn, then we f*** Trump," or words to that effect.

Aside from the fact that McCabe, Comey and Strzok all hated President Trump, [McCabe had a personal vendetta against the General](#). Robin Gritz who is a decorated counterterrorism agent, and had worked with General Flynn at the Defense Intelligence Agency had filed a sexual discrimination and retaliation lawsuit against Andrew McCabe and other top FBI officials.

In 2014 Michael Flynn backed up the sex discrimination charge brought by Gritz against McCabe and other top people at the FBI. Surprise...two years later Flynn is the subject of a McCabe-led FBI investigation about how he supposedly colluded with the Russian ambassador.

On March 20th, 2018, Andrew McCabe was fired by the FBI for leaking information about the Clinton Foundation investigation to the media, then lying about it under oath to the DOJ Inspector General who believed McCabe had exhibited a “lack of candor” during its probe into disclosures to the media. [Here is the Inspector General’s report](#) of the investigation of [certain allegations](#) relating to the former FBI Deputy Director.

Andrew McCabe was fired for good reason, he violated his oath, weaponized his DOJ position and broke the law. McCabe should be indicted and tried. If convicted, he should be imprisoned. It’s time. He is currently the subject of a criminal grand jury investigation, but as of September 14th, he has not been indicted, a sign that the government’s case against the FBI’s former No. 2 official may be in jeopardy. His attorneys are pressing for dismissal.

Corrupt U.S. attorney Jessie Liu was involved in [Mueller cases where exculpatory evidence was withheld from defendants](#). She is now involved in the decision regarding whether Andrew McCabe should be indicted. Liu is also involved in the Deep State’s sham indictment of the courageous General Mike Flynn.

Since the 2016 election and before, General Flynn was targeted by Obama's Deep State.

McCabe sued the Justice Department last month, saying his own termination from FBI was unlawful. He has authored a book, is a [contributor to CNN](#) and a cavalcade of [Obama-era national security leaders have committed to testify on his behalf](#) should he face trial.

Strzok and Page

Peter Strzok was the Chief of the [Counterespionage Section](#) and led the FBI's investigation into [Hillary Clinton's use of a personal email server](#). Strzok's paramour, Lisa Page was an attorney for the FBI. Their text messages showed extreme bias and animosity toward candidate and then President Trump, with questionable ethics regarding their attempts to destroy the duly elected President. Those messages were released to media, the rest were destroyed by Robert Mueller's team. The Inspector General report released last year found no evidence that the officials' political opinions impacted their investigative actions with regard to the Clinton email investigation.

Strzok was one of the two FBI agents who interviewed General Flynn at the behest of Comey, McCabe and others. Joe Pientka was the other agent. Comey acknowledged that the interview was not set up through the White House counsel's office, but arranged directly with Flynn and was not standard practice. He called it "[something I probably wouldn't have done or maybe gotten away with in a more organized administration.](#)" Obviously, Comey did not follow proper protocol.

The only person who has credibility and could shed light on the unsanctioned interview is Pientka. He was [purposefully muzzled by the FBI, DOJ and Mueller investigation](#).

Like McCabe, Strzok is [suing the government](#) over his firing.

Escaping Justice

CIA Director Brennan is famous for lying to and spying on the Senate. He was never charged and the Statute of Limitations long ago expired. Five years before he joined the CIA he voted for communist Gus Hall for President. John Guandolo of [Understanding the Threat](#) along with other government officials have direct knowledge that Brennan converted to Islam in 1996.

FBI official Bruce Ohr and his pro-collectivist Stalin apologist wife Nellie Ohr, later with the CIA and [Glenn Simpson's Fusion GPS](#), played a large role in the effort to destroy the candidacy of Donald Trump and, after Trump was elected, the Deep state coup attempt to remove him from office. They have never been charged for their complicity in the Steele Dossier.

Eric Holder has never been charged for his illicit selling of guns through [Operation Fast and Furious](#) where one of those guns ended up in the hands of a Mexican cartel thug who killed border agent, Brian Terry.

Conclusion

Seditious Conspiracy: If two or more [persons](#) in any [State](#) or Territory, or in any place subject to the jurisdiction of the [United States](#), conspire to overthrow, put down, or to destroy by force the Government of the [United States](#), or to levy war against them, or to oppose by force the authority thereof, or by force to prevent, hinder, or delay the execution of any law of the [United States](#), or by force to seize, take, or possess any property of the [United States](#) contrary to the authority thereof, they shall each be fined under this title or imprisoned not more than twenty years, or both.

There is a clear case for charging all involved in Spycgate with at least "seditious conspiracy" as the conspiracy was not only directed at a private citizen and presidential candidate,

but continued against that individual after he became President-Elect and then President. Of course, they deserve the benefit of a trial before being condemned, but there appears to be enough public evidence to indict.
