

Will Soros State DA's Now Attack Freed J6'ers?!?

By Kat Stansell

January 30, 2025

It is up to US to save our nation. WE must be aware; enemies are still everywhere.

The judiciary is our weakest link to real freedom, thanks to decades of Soros-funded DA's and judges infesting the nation.

The statements of corrupt Soros-bought Philadelphia DA, Larry Krasner, in an interview Jan. 24, 2025, is the perfect example. He told pathetic loser, Jake Tapper, that there were "possibilities" to charge J6ers with STATE CRIMES.

In his own words, Krasner believes that they "can be further prosecuted for things they may have done before or after Jan. 6 within their own jurisdictions that have not already been prosecuted."

Among things this criminal DA wants to weaponize are "texting, phone calls, emails, reservations for transportation or for hotel. Conspiratorial activity could give rise to a local charge, meaning a state charge of criminal conspiracy."

Here we go again ..."conspiratorial activity" like hotel and transportation reservations, phone calls... O. M. G.

Take out the trash, Pennsylvania! Krasner was impeached by the PA House in 2022 because of the large uptick in crime in Philadelphia after his election. At the time, he whined that

there wasn't a "scrap of evidence" How did that feel, Larry? Every victim of the crimes committed against J6 patriots KNOWS, and Krasner should, too, but he is too far into serving Lucifer, to be able to recall. FINISH THE JOB, PA!

Follow suit, America. Get rid of Soros DA's and leftist prosecutors wherever possible.

We all pray that Krasner and his ilk are de-fanged before they do more damage to innocent people, but we must be ready for the worst. They will not just go away.

's landslide victory served only to add fuel to their maniacal fires.

Nearly every state in the union has a prosecutor or two or more, who was put into position by our enemy. This has been going on for well over a decade. Here is a 2024 map of the spread of the Soros-spread Marxist disease. This was published by Policedefense.org. It includes 27 already in office, a few of which have been removed for their illegal acts (Gascon, LA; Fox, St. Louis; Worrell, Orlando. None has been punished; most may be working with Marxists behind the scenes. Like helping

to re-take newly freed J6ers?

Never forget: Soros is not running the US judiciary, he and his many organizations are merely funding much of it.

A Florida resident, recently freed J6er victim Daniel Ball, from Homosassa, is the first to be arrested again. Ball had been held in pretrial detention, never receiving a day in court. Immediately after Trump's pardon as he was leaving the jail, Ball was taken into custody again – this time on a domestic violence conviction in 2017, and later, resisting arrest, and possession of a firearm.

I'm not trying to make light of previous issues, but I am curious about several things. First, double jeopardy. If he was convicted in 2017, is he now being charged with that crime again? I'm not an attorney; had to ask.

Second, and key to Floridians, is how quickly the feds had the information on Ball. It had to come from in state; they were ready with it before the man exited the jail where he was being held.

Then there is the treatment of another Citrus County, FL, patriot who had gone to the January 6 rally in DC in 2021.

His name is Jesse James Rumson. Jesse is a J6 victim, AND a victim of his own state government. Jesse tried to run for the county board, in his home county, to give voice to the Citrus citizens who were against more development. With all petitions signed, Jesse was not allowed to be put on the ballot. The county SOE said that the word that came from "upstairs".

See my September, 2024 post on the "Awareness Patriots". This is Jesse's story, and ours.

Over the years, from 2021 – present, I have talked with a number of FL J6 families who spoke of the cold shoulder turned them by Tallahassee. More than ignoring their plight, Florida

ALLOWED AN OFFICE OF THE CAPITOL POLICE TO BE SET UP IN TAMPA.

MATT GAETZ SPOKE AGAINST THAT SEVERAL TIMES IN HIS FLORIDA MAN FREEDOM TOUR IN 2024. Since my post in Sept., 2024, Gaetz's comments have been removed from "X".

Now, we can see what "problem" our faceless enemy has with Matt. He acts like a real patriot.

Remember, it has been only recently that DeSantis has made a few pro-Trump noises. Honestly, I'm sick of the praise he receives from the media for doing so. The rest of the story about attacks on Trump/MAGA/America First patriots in Florida has only doubled down. (Stay tuned. Citizens are suing their RPOF.)

Do ALL states have ready more "information" on their J6-ers?

The real lesson in the J6 redux is this:

America will never truly be free until we rid ourselves of Marxism in our judiciary, from bottom to top.

President Trump, who has done more for our nation in five days as POTUS than has any other President in history, CANNOT DO IT ALL. He needs the help of every one of us. That begins with our understanding the many poison arrows still left in our enemy's quiver, and how deadly they could be.

Citizen awareness is built from simple things. Keep an eye on every politician around you. Local and State "representatives" are key because that is where we have the greatest influence. Develop a working relationship with them, like them or not. Ask them hard questions and be very public about their answers. Local publications – print or online – are ideal for spotlighting them – all the time, NOT just when elections roll around. Keep at it.

Do keep a sharp eye on national events, and bring them home, whenever and wherever you think they even MIGHT be applicable.

Be prepared. Together, we are the United States of America, and we have this one last chance, thanks to a benevolent God, to steer our ship of state into safer waters.

For now. Don't give up, don't ever give up. Jimmy V had it right.
