

Wish List for 2026 America

By Frosty Wooldridge

January 1, 2026

A brand spanking new year awaits America, and every American. What will you do with your life in 2026? Same ole' same ole' as last year? What will you do differently to advance your life physically, mentally and spiritually?

What about our country? Will you participate in making it better or watch from the sidelines as events grow more tenuous? What is your "wish list" for making America better, more productive, and more viable as a civilization? Can we stop endless violence and killings in our large cities? Can we stop kids from killing themselves into the hundreds of thousands from drug overdoses? Can we change our educational systems to meet 21st century challenges? Yes! Get cell phones out of classrooms, period!

In the ongoing debate, we're all a part of the "Social Contract" that binds us together as a cohesive, viable and lawful civilization. It takes all of us, all of our input at the local, statewide and national levels—to grow a better America.

What am I going to do personally to make America improve?

First off, as we watch the massive fraud into the billions of dollars in Minnesota under a sitting Governor Tim Walz, who aided and abetted the fraud, and an entire immigrant Somalian society—I would like to see another "Elon Musk" command "Department of Government Efficiency" or DOGE to root out

every lying, cheating and scheming politician and bureaucrat who keeps cheating every hardworking American out of billions/trillions of his/her tax dollars.

How about inspecting U.S. AIDE programs that have scammed us out of trillions of dollars since 1970? It's been a slush-fraud fund for nameless thieves at the highest levels in Washington DC. Start putting handcuffs on those financial thugs. Then, prosecute and off to prison.

What about 42,000,000 (million) people in America riding their EBT food stamp cards off your tax dollars? Tell me that at least 3/4 of them are fraudsters who've lied, defrauded, and cheated Americans for years. Let DOGE go into every city to root-out the welfare queens, welfare mothers and welfare scammers. Go after the agency heads of SNAP, WIC, ADC and more! Prosecute and lock them up.

You wonder why your food prices are SO HIGH? Answer: you're paying for 42 million people, most of them liars and frauds, stealing your money for food while they sit on their rear ends doing nothing. Let DOGE stop the "free for all" food stamp scam.

How do you do it? Answer: mandate workfare for welfare. If they want to eat, they do community service, and/or work a job. The unemployment rate is always around 4.1 percent, so there are millions of jobs out there. Force them into those jobs via workfare for welfare. It's time to "Buck Up" to reality. We're tired of freeloaders.

What about Minnesota's Somalia \$9 billion plus in fraud as to food stamps and Medicaid? Those refugees suffer an average IQ of 68, so it was somebody on the inside engineering the massive fraud. Arrest and prosecute. Start with Governor Tim Walz. After him, for Keith Ellison the AG of Minnesota. Then, examine how House Member, Somalian refugee, penniless Ilhan Omar now enjoys a \$30 million bank account. Then, deport her

and every Somalian out of America. They are SO intellectually vacant, they cannot and never will contribute to America's viability. Why? Because 90 percent of them ride welfare after 20 years in our country. It's become their lifestyle because when you're THAT dumb, you lack educational thrust to better yourself.

Speaking about useless immigrant-refugees--what about a 20-year closure on all immigration? Why do we need one single more immigrant from the Third World? What benefit? Answer: NONE! We're already overcrowded, overwhelmed cities, overwhelmed anchor babies that cost us billions of dollars, severe air pollution and resources being scooped up into exhaustion!

Oh, "But we're a nation of immigrants...blah, blah, blah."

Reality check: that was when we were a tiny nation of less than 50 million people. Today, we're exploding at the seams with 350 million people with another 25 million illegal alien refugees. Who in their right mind with common sense thinks we can sustain another 100 million people added to America by mid-century or so if we continue legal immigration? Why would anyone want America to become a seething beehive of cultural conflict, linguistic chaos and religious squabbling like Bondi Beach in Australia or Israel/Gaza or London, England or Paris, France or Malmo, Sweden? Have you visited Vancouver, BC, Canada lately? It's dominated by Chinese immigrants as Canadians have fled.

Another reality check: MULTICULTURALISM has failed worldwide. It's failing in America. How can I say that? It foments internal conflict, religious wars, cultural suicide, and racial conflict--and notice that it's only happening to Western Countries. Why is it that Christians are not allowed to migrate to the 56 Islamic countries, but those countries don't mind sending their own colonizers into all of Europe, Canada and America? They're not coming to assimilate! They are coming

to out-populate and dominate.

When you allow people into the USA that lack any cultural assimilation or affinity to Western Ethos...such as Joy Reid, Whoopi Goldberg, Rashida Tlaib, Maxine Waters, Sheila Jackson, AOC, Hank Johnson, Ilhan Omar, Keith Ellison and thousands more—you've got people willing to shred America's Social Contract. If you allow terrorist groups like Antifa or the Muslim Brotherhood to keep growing, you face violent and deadly consequences to our Constitutional Republic.

Point blank: we need to ban all biological men from destroying girls' and women's sports. NOW! This sickening transgender mental illness needs to end. Let them compete among themselves. With maybe two people in the stands cheering them on, the William "Lia" Thomas' in the sports world will vanish into the footnotes of history books.

What about those intellectually lost people fighting ICE, Border Patrol, ATF and police? Arrest all of them. Prosecute and jail them. They will quickly subside and let 25 million illegal aliens find their way back home via deportation. For those supporting illegals, you're fools, plain and simple. You run on emotions, not brains. You don't respect our laws that protect you. If you're so excited about drug pushers, rapists, criminals and the like, go help those "narco drug boats" in the Gulf of America. I'm sure you'll get a "bang" out of that experience!

We need a national discussion as to where the wing nuts come from and how to stop them. We don't need drag queens giving third graders story books on "Being Queer Brings Joy". We don't need two dozen languages in our classrooms. We don't need another Mosque-ridden Dearborn, Michigan where the Muslim immigrants want to kill us as their Prime Directive. Remember their videotaped chant, "Death to America." We need to ban Sharia Law from ever being practiced in America, along with wearing of the Burka. It makes women "non-beings". It's 6th

century, it's pathetic and it's against everything our Constitution protects for all of us.

As it is in 2026, we may not be able to stop our country from disintegrating right under our noses. It has already happened to at least 10 countries in Europe. They are ruled by Islamists as their 10,700 mosques illustrate and their hundreds of "no go zones" prove, and thousands of them with their butts up to the sky five times a day praising Muhammad the prophet, a rapist mongrel, illiterate who decapitated his opponents and raped little girls. They simply do not belong in 21st century Western countries.

Yes, my list for improving America grows. We need a lot of changes to save our country from the moronic aspects of people like AOC or Jasmine Crockett or Ilhan Omar or Rashida Tlaib or Maxine Waters, and for sure, Kamala Harris.
