

Wolff at the Door-Amateurish Book On Trump Tries But Fails

This dreadful new book, *Fire and Fury by Michael Wolff*, was not released—It escaped! The author bragged that this book would “bring down Trump!”

With that goal, especially targeting a legally elected president who has, in his first year, kept every promise he made on the campaign trail, this project would, of necessity, invite lies and misrepresentation with sleazy bogus accusations against President Donald Trump who received over 62 million votes (62,972,226) and 306 electoral college votes (Hillary got only 232) sweeping him into the White House.

The Democrat-Communists who lost the majority vote and the electoral college votes, intend to snatch and grab the government with violence, which they have already demonstrated in their protests which caused numerous injuries and property damage.

They are being financed and led by Communist George Soros and Obama who stayed in D.C. with a house within five minutes of the Oval Office. No other past “president” has done this, nor was this arrogant.

And isn't there a legal precedent to prosecute anyone who attempts to “bring down” a sitting president and overthrowing a government? *You bet there is.*

I did NOT buy a copy of this damnable book but was able to read it on wikileaks, that had it up long enough for me to see it just in time. That has now been scrubbed. So I saved 20 bucks and still got the info desired.

First of all, Wolff is not a skilled writer, in other words

his scribbling is not considered literature. He writes like a tabloid exploitation writer which is NOT literature. Based upon his writing, it is doubted that he ever went to Journalism School or took any classes on writing. He types from the hip for destruction.

This manufactured-content book was first out of the gate this week and had long lines at the book stores. People were packed in as books literally flew out of the stores. This emboldened the Democrat Communists, determined to take down Trump so they can turn America into a dictatorship Communist country.

Because so many Christians live in the U.S. it is the only country standing in the way of the New (Communist) One World Order. Why? Because a true Christian's mind can never be enslaved. This is why they want to abolish Christianity and the church.

These dumb evil people do not realize, that as they try to forcefully take over our government, that they will have 62,972,226 people who voted Trump in, which is a majority even though Hillary falsely claimed that she had more of the Popular vote. We smell the burning of pants.

Trump supporters are highly angered over anything the Communists employ to hurt our president, and these supporters will come against the Commie Dems, ***using whatever force is needed to prevent harm to our president.***

The Wolff "author" has created a full volume of lies, innuendos and speculations to (hopefully) take down a *peoples' choice* president, who will not bow to the horrors of Communism—Thank God!.

The Constitution of the United States guarantees this right of the people to freely choose those who would become their president. Otherwise, America would quickly become a 3rd world dictatorship where only the dissidents would have guns. The actual Americans would be unable to defend themselves, their families and their country. We cannot let that happen.

I remember when young (yes I WAS young once) that frequently someone just installed as President-leader in a 3rd world country, would be shot and killed while giving his inauguration speech, which was always shown on TV.

The most favorable review found on this book of trash stated: "Readable but disjointed and choppy." Some comments in this "disjointed" book states that President Trump is an "overly

emotional man," "insecure" "has phobias," " "grievances," and "is a delusional man." Yep the 'author' has him all figured out even though they have never formed a relationship.

Thus is the phony descriptions given of our president, by a man he has never actually sat down with, even though so-called author Michael Wolff admits that he briefly shook hands with Trump during a campaign rally. That is far short of "sitting down with him for an interview." *Residue of a Bull! So Wolff is absolutely lying.*

Wolff acknowledged that not everything is true in his "book." Maybe 10% is true, he admitted which stimulated a response from a liberal-yes a LIBERAL to post: "Even at 10% true, **HOLY CRAP!**"

Many of the names he quotes do not even exist! This can be called a creative work since all of it is indeed, *created*. For example: Did the editor of Vogue ask President Trump to appoint her for an ambassador post? Yep, the president told Wolff that this took place, *according to Wolff*.

As for the Vogue Editor, her response to this lunacy was: "**Laughably preposterous!**" Plus President Trump NEVER sat down with this Wolff Democrat-Communist fraud.

This book will readily appeal to certain customers of non-literary fiction by an exposed liar with a book filled with lies. **How dare this scribbler tell such lies to hurt our president!**

And how dare the many psychologists and analysts state publicly that Trump has mental issues. They are complicit in the harm being launched at the president. According to the rules of their profession, they can and should be stripped of their license for this.

Apparently they do not know that a psychiatrist, psychologist or counselor absolutely cannot and must not diagnose anyone without first fully examining them. So those who made these claims about President Trump without first examining him can and should have their license revoked. So conservative district attorneys, we need you. Come and help us.

Yes, the book is selling zillions of copies, well, at least about 62 million Democrat Communists are grabbing it up. Doesn't matter that it is full of lies, only that something negative about President Donald Trump is being circulated.

To spend over 20 bucks to read lies about someone they hate is

crazy. Those who get excited over UNTRUE accusations and characterizations would not be good marriage material.

Michael Wolff is not only a disgrace to all men and women, the Democratic Communist party, but absolutely a disgrace to all legitimate writers, journalists and authors, none of which Wolff is.

He and his publisher, Henry Holt & Company should hang their heads in shame. And they have offended 62 million, nine hundred and seventy two thousand, two hundred and twenty six Trump supporters, including this writer that you will have to deal with as we protect our president with force.

Here's an excellent opinion of Wolff's book by an expert: "It is a tale told by an idiot, full of sound and fury. – – William Shakespeare.

Don't waste your time and money on this fraudulent book. It was impossible to cover everything in it which would have resulted in an encyclopedia. This is a column with space restrictions. My report is still complete and gives you an idea of the phoniness of that book which is a ***political scam.***
