

World Health Organization (WHO) Declares Truth as “Disinformation”?

By Bradlee Dean

December 6, 2023

“Vaccination is a huge delusion: ...it has never saved a single life; but that it has been the cause of so much disease, so many deaths, such a vast amount of utterly needless and altogether undeserved suffering, that it will be classed by the coming generation among the greatest errors of an ignorant and prejudiced age, and its penal enforcement the foulest blot on the generally beneficent course of legislation.” -Alfred Russel Wallace, O.M., F.R.S. 1898

Regardless of how people want it to be said or how people want it to be heard, the truth of the matter is that the plandemic has been exposed for what it is, a conspiracy (Jeremiah 11:9). Just ask them. Start the video below at 1:17.

They are not able, nor will they ever be able to conceal the truth of the matter when it comes to the last 3 years of the crisis that they have created (Luke 12:2). This we all know.

Now knowing this, the World Health Organization (WHO) wants to force lock up anyone and everyone who is responsible for exposing them for who they are and what it is that they are

responsible for doing.

The People's Voice recently reported, that the criminal organization [WHO Declares Global Disinformation Crisis: "We Must Lock Up Conspiracy Theorists"](#).

The World Health Organization (WHO) has urged governments to declare a "global disinformation emergency" and begin locking up people who spread non-mainstream opinions online.

Over 200 health journals funded by the WHO called on the United Nations' global health body to declare martial law worldwide due to the ongoing threat of alternative news. They also urged government's to impose strict new lockdowns due to the ongoing threat of so-called "global boiling."

"Over 200 health journals call on the United Nations, political leaders, and health professionals to recognise that climate change and biodiversity loss are one indivisible crisis and must be tackled together to preserve health and avoid catastrophe. This overall environmental crisis is now so severe as to be a global health emergency," declared the BMJ, a UK weekly peer-reviewed medical journal, in a statement on Wednesday.

Infowars.com reports: What the scientists failed to mention is that they're funded by the very global body they're calling on to implement the health emergency.

In other words, the WHO is essentially laying the groundwork for it to declare another emergency similar to the one they issued in response to the COVID plandemic in 2020.

This comes as WHO Director-General Tedros Ghebreyesus urged other nations to adopt its Pandemic Accords in part to combat "disinformation."

COVID-19 "eroded trust between people, governments and

institutions, fueled by a torrent of mis- and disinformation," Ghebreyesus claimed on Thursday.
