

# Worthless “Pro-Life” GOP Incumbents: Vote Them Out

Now, one might gasp at the title of this column and knee-jerk the author must be ‘pro-choice’. Of course, nothing could be further from the truth. There is no choice for the unborn baby murdered by some butcher given a license to kill:

[Abortionist: I Cut Unborn Babies’ Cords So They Can’t Scream](#)  
(Utah of all places)

“When the person asked if Torres hears the screams of the babies who she aborts, [she replied](#): “You know fetuses can’t scream, right? I transect the cord 1st so there’s really no opportunity, if they’re even far enough along to have a larynx...In the undercover investigations that Daleiden and his team did pursue, they listened to abortionists talk over dinner about crushing babies’ heads, joke about babies’ eyeballs falling out and discuss pulling apart unborn babies limb by limb.”

*Roe v Wade*. Nine male judges who justified the killing of an unborn BABY by hallucinating ‘a woman’s privacy’ as a right in the U.S. Constitution. Today, the fruits of their labor have butchered 60 MILLION babies. Take every man, woman and child in the State of California, add 15 MILLION more and then kill them all. That’s how many babies have been murdered since *Roe v Wade* was unleashed upon this country.

**Human life that began at conception.** Due to the advancement of technology one can [hear a baby’s heart beat at 16 days](#) long before most women even know they’re pregnant. A heart beat means LIFE.

[The Cloning of the American Mind & Abortion](#), 2007

“Once women were given the green light to behave like tramps,

run around mostly naked, sleep around and have fun, the next hurdle was the unwanted pregnancies. Thus, was born the mantra of “a woman has the right to protect her reproductive rights.” Of course, this concept has been pushed to the nth by women in public office out of “compassion” and as fierce defenders of “women’s rights.” What these “gentlewomen” in politics forget to clarify is that reproductive rights have nothing to do with abortion.

“No one is forcing or telling any woman in this country they can’t reproduce. There are extreme cases where judges have put some restrictions on crack heads who keep having illegitimate children born addicted, but that’s a last resort. It would appear, even to the dumbest bulb, that women have been reproducing without government interference and then throwing away the results in a medical box marked *“Toxic Waste.”*”

How are they any different than the savages called ISIS or monster, Josef Mengele?

[Abortionist Curtis Boyd: “Am I Killing? Yes, I Am. I Know That.”](#)

[Abortion Clinic Employees – “Babies born alive daily.”](#): “He does a lot of huge abortions. A lot of the times, we would bring the big fetus that were over age, we would re-open the bag and just look at it and be like, ‘Oh my gosh, it’s so big!..Sometimes he couldn’t get the fetus out. He would yank pieces – piece by piece – when they were oversize. And I’m talking about the whole floor dirty. I’m talking about me drenched in blood.”

Thankfully, many abortion doctors and nurses have finally had their own epiphany and decided to let the rest of the world know the truth. For that, God bless them.

[Former Abortion Doctors: “I’ve Taken Lives of Innocent](#)

## Babies," "I'm Destroying Life"

"The Centurion who stood at the foot of the cross of Christ suddenly became horrified at the crucifixion he was ordered to carry out. When Christ died, this Centurion dropped his sword and fell to his knees exclaiming, 'Surely, this was an innocent man!'

"Those of us who have participated in the killing of unborn children are the Centurions of today. We have dropped our swords against the unborn child. Now we must recognize the depth of our guilt and deal with the ramifications...To revitalize our humanity we need to forgive and be forgiven, to reconcile and be healed."

"I was helping the doctor hold the baby [to keep it in the birth canal]. The other nurse got the instrument [a large syringe with a large needle], handed it to the doctor, and he inserted it into the base of the skull. Then he pulled the baby out. Its little hands were grasping. When the baby quit grasping, then he delivered it. He used the syringe to suction out the brains. – Testimony of witness to an abortion

"And typically when the abortion procedure is started we typically know that the fetus is still alive because either we can feel it move as we're making our initial grasps or if we're using some ultrasound visualization when we actually see a heartbeat as we're starting the procedure." – This account of D&E is part of sworn testimony given in US District Court for the Western District of Wisconsin (Madison, WI, May 27, 1999, Case No. 98-C-0305-S), by Dr. Martin Haskell, an abortionist.

Former Abortionist: 'If Anybody Thinks Ripping Off Arms and Legs ... Isn't Painful...' – "A former abortionist who said he had performed some 1,200 abortions before his conversion to pro-life activist, said Thursday at a House subcommittee hearing that abortion causes pain to unborn babies. "If

anybody thinks that ripping off arms and legs and crushing these children the way we're doing during these procedures isn't painful, they're just kidding themselves ... badly kidding themselves," Dr. Anthony Levatino said at a hearing on the District of Columbia Pain-Capable Unborn Child Protection Act.

"

Forever I have written one of the greatest failures of Congress is their refusal to remove judges from the federal bench as well as the U.S. Supreme Court **because they are gutless**. BOTH parties. How many times do we hear 'conservative' Republicans on some talk show complaining about judicial activism and horrible decisions by judges only to then pitch for campaign donations?

Well, I've heard the same hot air from 'conservative Republicans' for decades about *Roe v Wade* and how pro-life they are and yet here we are. Today while you go about life, the lives of 3,300 babies – human beings – will be snuffed out. The Nazi's had nothing on us at this point.

[Ohio Judge Blocks Abortion Ban on Down Syndrome Babies](#), March 16, 2018

"An Obama-appointed federal judge has blocked an Ohio law banning selective abortions that target babies diagnosed with Down syndrome. "Federal law is crystal clear," wrote Judge Timothy S. Black of the U.S. District Court for Southern Ohio in a 22-page [ruling](#) granting a preliminary injunction against the state. Black – who has a reputation as a stridently liberal judge – wrote that the Ohio law "wrongfully" prohibits women from making the ultimate decision to terminate a pregnancy before viability. "It violates the right to privacy of every woman in Ohio and is unconstitutional on its face," he added.

Instead of this  
beautiful child

Judge Black supports ‘privacy’ for a female. Tortured, torn limb by limb and chemically burned:

Please do not think I am totally unaware of the special challenges parents of a Down Syndrome child and the child itself will have all of that child’s life. I am because I do a lot of research. Because I do care and seek to learn every day. Because I know myself and I can tell you that if God gave me a Down Syndrome child instead of the perfectly healthy daughter I birthed, I would love that child with all my heart.

Life. There is nothing more precious but it means nothing to too many career politicians and judges. Ben Shapiro said it so well in his efforts to wake up young Americans:

### [Shapiro Schools Pro-Abortion Student: 'Either Human Life Has Intrinsic Value Or It Doesn't'](#)

"Daily Wire Editor-In-Chief Ben Shapiro refuted every pro-abortion argument a U.C. Berkeley student could throw at him.

"During a speech at the university, Shapiro fielded questions from a pro-abortion student. Responding to the student's claims, Shapiro explained that:

1. A fetus does have "intrinsic moral value,"
2. "Drawing a false line" on where life begins "can also be applied to people who are adults,"
3. A fetus has "potential sentience," and
4. "I don't believe you being a burden on somebody is justification for them killing you."

Do those products of 'higher learning' even know the definition of the words intrinsic or sentience? I doubt it. All they know is the propaganda about 'protecting women's reproductive rights'.

Republicans held the majority in both the House and the Senate under Bush, Jr. for nearly eight years. Did all those 'pro-life' incumbents (and don't forget to send money to their campaign coffers) overturn *Roe v Wade*? Did they remove one

single activist judge from the bench? No.

Now with President Trump and Republicans still holding the majority in the House and Senate have they introduced a bill to overturn *Roe v. Wade*, gotten it passed and sent to Trump? No. Congress can act very quickly when they want. But, it's an election year so they tiptoe carefully because remaining in office (retiring as millionaires) and power IS all they really care about. Sure, there are some very committed members of Congress who have tried but not enough.

**There sure as hell is no excuse for not removing activist judges.** Rotten Supreme Court Justices like Kagan, crook Sotomayer and Chief Justice John Roberts should have been booted long ago. Roberts for his unbelievable betrayal on Obamacare.

I know the argument by political gas bags trying to defend their do-nothing existence: Well, we can't get enough votes in the Senate to impeach. Boo-hoo. Try this on for lesson of the day:

[Removing Federal Judges Without Impeachment](#) – The Yale Law Journal

“Contrary to the orthodoxy, nothing in the Constitution mandates that impeachment be the exclusive method for removing misbehaving judges.

### **The Constitutional Text**

“The Constitution *authorizes* the impeachment of federal judges, but it nowhere says that they can be removed *only* through impeachment. Nor do the Constitution's relevant provisions easily lend themselves to any such reading. Articles I, II, and III respectively define the tenures, including the conditions that can terminate tenure, for the principal legislative, executive, and judicial officials. For example..”

Please read the rest of that very important piece. Don't let cowardly, ignorant politicians break their promises. Oh, come to think of it, when was the last time your GOP incumbent promised to end *Roe v Wade*? I thought so.

Personally, if your incumbent hasn't fought like a tiger to remove bad judges, throw his/her backside out during the upcoming primaries. This really is such a critical issue that gets ignored while the damn 'Get Trump' games continue day after day after day. **There are perfectly qualified challengers for Congress ignored by voters every two years which makes me sick.**

Right now, primaries are getting started so you'll hear the same canned BS we just got done with here in Texas: I'm a pro-life Texan for Congress! (Our primary was two weeks ago.) How many more times will you elect the same 'conservative' Republican who has done nothing to throw activist judges off the bench and kill *Roe v Wade* once and for all?

Vote out worthless 'pro-life' GOP incumbents right along with so-called 'moderate' Republican incumbents who support killing unborn babies. **When you vote think about what you read in this column.**

On the civilian side, we must continue doing everything we can to educate both men and women from high school up that abortion IS murder. Why not show [this array of baby body parts from abortions](#) in sex-ed classes? Oh, the screeching that would go on by feminists and pro-abortion men and women. You can't do that! It would offend students. Good. Let them see the truth.

Sex-ed classes across this country show soft-core porn all the time. I find what they teach highly offensive. I'm glad I kept my daughter in private Christian school. What she needed to know I informed her. **A parent's job not a public school.** Anyone not in denial can see what the last 35 years of 'sex

ed' classes have done for our culture and it's not pretty.

The terribly misguided walk-outs last week by students over guns was supported by schools across this country. But, bring up abortion and you will pay the price: [California high school teacher put on leave after asking whether schools would allow students to walk out to protest abortion](#) – Because a student and a couple of parents bitched, a teacher is removed from the classroom for a couple of days. Punished for free speech all those spoiled brats in schools across this country demand for every little itch.

There used to be a lot of 'blue-dog Democrats' from the South who were anti-abortion. If you're a Democrat reading this and value the sanctity of life, please, pass this column along. Life absolutely begins at conception and we should NOT allow judges to stay on the bench who privately think it's perfectly okay to selectively murder a beating heart because of a disability – in some cases it's '*might have*' a particular medical issue. Publicly they issue a ban to stop a state law from taking effect.

Ohio's legislature passed their bill. For once their idiot governor, John Kasich, did the right thing and signed it into law. Activist judges should not be allowed take it upon themselves to overturn a state legislature's bill that **protects** 'even' a special needs child.

In my research I have read countless stories of parents of a Down Syndrome child. Stories filled with unconditional love for their baby as they raise their child even with all the hardships. Stories by adoptive parents who took a Down Syndrome child 'off the hands' of a mother who gave the baby up for adoption. There are loving people out there who will adopt a special needs child because every life is precious in the eyes of God and Jesus.

Luke 17:2, KJV: "It were better for him that a millstone were

hanged about his neck, and he cast into the sea, than that he should offend one of these little ones.” Murdering one of the little ones while yanking it from its mother’s womb is far worse than offensive in God’s eyes. Yet, look how many ‘Catholics’ have repeatedly voted for hard core abortion cheerleader, Hillary Clinton.

If you watch only one video today or this week, PLEASE take less than ten minutes to watch through modern technology an unborn baby at 32 days developing arms and legs – before most women know they’re pregnant. LOOK and see the truth. Abortion IS murder. Killing them at six weeks, two or three months or 20 weeks **is infanticide**.

Killing them and then selling their tissue or body parts is so horrifying even I run out of words. Why do you think “pro-choice” advocates fight to keep pictures of an abortion away from the public eye? [Video: From Conception to Birth](#)
