

You Are Not Alone

By Michael Peroutka

While doing research last week I came across a term that was new to me.

The term is “menticide” which means “murdering of the mind.”

According to the Oxford Dictionary, “menticide” is “The undermining or destruction of a person’s mind or will, especially by systematic means... and is a characteristic activity of totalitarian regimes.”

Totalitarian regimes historically achieve and maintain control over a population targeted for enslavement by means of menticide, which is accomplished more quickly and effectively when the subjects are isolated from one another.

So, it’s no surprise that the enemies of liberty, who are desperately seeking to enslave the entire planet by means of a fake pandemic, would use strategies like lockdowns, masks, social distancing, censorship, to not only isolate us physically from our loved ones, our neighbors, and our church communities, but from any ideas or opinions which contradict their sick agenda.

This [systematic effort](#) to undermine and destroy our values and beliefs, and to [induce](#) us to accept and even promote [radically](#) different ideas can be successfully defeated but

only if it is understood and resisted.

So, please commit yourself to remembering and reminding yourself and others that you are NOT ALONE.

In fact, the overwhelming majority of your countrymen agree with you. You are in your right mind. Don't allow them to murder it.

Be encouraged. Encourage others.

Let not your heart be troubled.
