

You Can't Make This Stuff UP!

By Frosty Wooldridge

October 27, 2025

Just about every day of the week, people in America come up with something entirely crazy, really stupid, or just plain nuts.

The NBA houses endless millionaires making \$25 million to \$50 million a year--to play a game! They do nothing to fix anything. They don't serve guests at a restaurant. They don't change tires so you can drive your car. They don't drive ambulances to save peoples' lives. In fact, they don't do anything to benefit our society.

And yet, recently, a dozen or maybe five dozen of them found themselves "caught" in a huge scandal "fixing" games, or betting on games, or playing card games where everybody cheats to win. You can't help but scratch your head trying to figure out why a multi-millionaire NBA coach like Chauncey Billups, who made a fortune during his playing days with the Pistons, would get caught up in this horrific scandal?! He's already rich. He's already famous in the basketball hall of fame. Why did he do it? Is he THAT stupid? Is he THAT greedy? For heaven sakes...how many millions of dollars more would make his life even richer? Finally, what's the point of a 10,000 square foot home that you need to buy a 20,000 square foot home?

When people buy such magnificent homes, they only live in their bedrooms, kitchens, and out to the garage. The rest of the house wastes space, heat and air conditioning.

What about all those “paid” demonstrators, or if they are not paid, then why would they try to thwart our laws as they try to prevent I.C.E. agents from ridding Chicago, LA, Detroit, Atlanta, NYC, Denver and another dozen cities of criminal illegal aliens who commit thousands of crimes against our citizens? Why would our own citizens support criminals? Why would Governors Newsom, Pritzker and Polis aid, assist and abet illegal aliens when those governors swore on the Bible to carry out the laws of America? What about those Sanctuary City mayors like LA’s Karen Bass, Denver’s Johnston, or Chicago’s Johnson, or Seattle’s Bruce Harrell—defending illegal aliens, spending taxpayer dollars on them, and protecting them from the law? Those criminal illegal aliens have cost us into the billions of taxpayer dollars. Is that nuts or what?

What about the government shutdown that’s affecting countless American families? Why would New York’s Senator Schumer deliberately not vote for the C.R. bill to keep the government running, and peoples’ lives viable? Why are the democrats so hell-bent on paying out hundreds of billions of dollars to give Medicaid to illegal aliens? Why? Aren’t democrats supposed to support and defend American citizens?

What about those critics that think Trump shouldn’t blow those narco-terrorists’ drug boats out of the water in the Gulf of America and the Pacific Ocean? Good grief! Those drugs have killed hundreds of thousands of American kids over the past 40 years. Past presidents did nothing to stop the drugs from flowing into our country. NOTHING! In fact, Biden invited 15 million illegal aliens into our country, and among them, MS-13 and drug cartel distribution systems. But now, those democrats in Congress want Trump to answer for stopping the drugs from reaching our shores. Is that NUTS or what? You can’t make this stuff up.

Still even more nuts stems from any politician or athletic leader supporting biological men competing in women’s sports.

You even see female governors like Maine's supporting the insanity of transgender men beating the crap out of women. It's got to be a mental illness of some kind. To see a man wearing a woman's bathing suit in an NCAA competition MUST be the zenith of arrogance, narcissism, unbalanced mind, mental illness and another form of insanity. Instead of breasts, William "Lia" Thomas sported a male "package" in his woman's bathing suit. God help us! Yet, in 2025, it continues to rip women's sports into tatters. It disillusiones high school girls. It befuddles college girls. It's nuts beyond measure. You must wonder when common sense and rational thinking will stop men competing in women's sports. It can't come soon enough.

What about D.E.I.? Let's install parity in jobs by choosing pilots, doctors, dentists, nurses and any other professional career—by the color of their skin. Why not give such people parity by their religion, or their anything superficial that has nothing to do with education, excellence and mental abilities? That's how Supreme Court Justice Jackson obtained her position—even though she couldn't define a woman. How about we all choose our doctors by their religion or color of their skin? Good luck with that!

As if we didn't have enough incompetent mayors running our cities such as Karen Bass in LA or Nick Adams in NYC or Brandon Johnson in Chicago--let's vote into office a Communist-Muslim-Ugandan refugee who has never held a job in his life: Zohran Mamdani. Because he is a Muslim, he cheered 9/11, and was celebrating this past month with a Muslim imam in NYC who was part of the 9/11 nightmare.

Fact: 19 Muslims from Saudi Arabia in those planes caused the Twin Towers, Pennsylvania crash, and thousands of deaths. Yes, many suspect they had help inside the USA, but, in the end, Muslims cheered 9/11 in every Muslim country. Now, we've got Mamdani who supports honor killings, female genital mutilation, women as half the value of a man, Burka's on

women, no free speech, and everything in the Quran. He's going to bring every Communist-Muslim agenda into play in NYC. He wants to defund the police. He will support and harbor illegal aliens into the tens of thousands in NYC. He will bring student "parity" in schools by taking away the intellectually "gifted" programs. In other words, stop all educational excellence and be sure to let the average students dominate. That means lowering academic standards to the lowest common denominator in the pursuit of "equity, inclusion and diversity."

It means the dumb people who vote that Ugandan refugee into office will create more dumb people to continue his agenda. As you know, over 50 percent of NYC kids cannot read or perform math at grade level. If we keep that up, dumb, dumber and stupid people will drive everyone out of NYC.

If you think Islam and its teachings are so great, why aren't all the women of the world immigrating to the Middle East? Once there, they won't be allowed an education, riding a bicycle, driving a car, wearing anything but a Burka, and they will be assigned a husband. Don't you love American liberal women and LGBTQ groups celebrating Islam? The followers of that religion throw such individuals off roofs or simply execute them.

Notice with the shutdown, we've got 42,000,000 (million) Americans and illegals who depend on food stamps (EBT), and if we don't feed them, they will start looting, shoplifting and causing anarchy. Why haven't our House members and Senators created a "Work/for welfare/food" program to get those 42 million useless human beings off their butts and into job training? Why let 42 million people leech off our tax dollars as they stay home and watch television?

We must ask ourselves as citizens of the United States: Why are we allowing such incredible stupidities to continue? Why do we continue electing people like Congressional critters

Nancy Pelosi, Chuck Schumer, Dick Durbin, Ilhan Omar, Rashida Tlaib, Hank Johnson, Maxine Watters, Sheila Jackson, Gov. Pritzker, Gov. Newsom and Gov. Polis (CO)--over and over again? They solve nothing, they break our laws, and they are useless in solving problems.

If we ever hope to save our country, preserve our freedoms and maintain our culture, language and Constitution—we cannot continue mass legal or illegal immigration. We cannot allow Muslims into power positions. If they espouse Sharia Law, and they all do, deport them or jail them. We don't want Islam in America. It is counter to everything we hold dear. You better believe that Muslims are out to destroy everything we hold dear.
