

Your Responses to America Adding 20 Million Muslims

With our country being twisted up like a pretzel on the racial front with Critical Race Theory, on the gender front with transgender men competing in women's sports, on the political front with Biden's dementia and open borders, and/or, the highly volatile Israeli/Muslim war--whenever a journalist enlightens the public with facts that they otherwise wouldn't think about or even consider, readers across the nation respond.

And so those responses poured into my computer after last week's column on the consequences of adding 20 million Muslims to America! Some of you are frightened. Many of you are angry. Most of you don't have a clue as to what's happening in Detroit, Michigan or Minneapolis, Minnesota or anywhere Muslim immigrants have become dominate in any American city.

It's stunning to my senses that huge numbers of Muslim-Americans riot in favor of Hamas' barbaric attacks on Israel. But then, those are Muslims. That's their tribe. Violence is a mandate of their leader, Muhammed the Prophet. He was a violent man who had competitors' heads and hands cut off. He raped women and little girls. He birthed a religion that has killed millions over the centuries. Hitler and Muhammed belong in the same category in history's bloody march into the 21st century. Nazism and the Qur'an belong in the same category of violence.

Wherever Muslims gather in greater numbers, such as Sweden or most of Europe, you find social upheaval of a host country and violence toward Christians and Jews, or Buddhists or Hindus or anybody of any other religion . That's a fact. Why? Because Islam is not only a religion, but a political force bent on subjugating every human being on this planet into the arms of the Qur'an. "Covert or kill all non-believers," states the Qur'an.

But when citizens of countries speak up about the obvious, you've got politicians covering over the facts. France's Macron stands eyeball deep in Muslim violence. Same in the UK and Germany. Once the most peaceful country in the world, Sweden finds itself with rapes, bombings, carjacking, shoplifting, churches being burned and Muslims causing social chaos. You've got the likes of vacant-minded Vice President Kamala Harris organizing a new government committee to "Combat Rising Islamophobia in America."

Then you see bumper stickers, "I discovered all I want to know about Islam on 9/11."

"Individual Moslems may show splendid qualities. But the influence of the religion paralyses the social development of those who follow it. No stronger retrograde force exists in the world. Far from being moribund, Mohammedanism is a militant and proselytizing faith. It has already spread throughout Central Africa, raising fearless warriors at every step; and were it not that Christianity is sheltered in the strong arms of science – the science against which it had vainly struggled – the civilization of modern Europe might fall, as fell the civilization of ancient Rome." (Winston Churchill / 1874-1865)

How much mayhem by Muslims? On the worldwide scale, it's mind-boggling:

"Thus, by way of illustration, we can establish that between

1979 and May 2021, at least 48,035 Islamist terrorist attacks took place worldwide. They caused the deaths of at least 210,138 people. On average, an Islamist attack has resulted in the death of around 4.4 people. We identify and quantify the *modus operandi* and targets. Explosives are the most common type of weapon used (43.9%), while the military is the main target (31.7%), ahead of civilians (25.0%) and police forces (18.3%). The picture of this phenomenon is becoming clearer. Afghanistan was the country most affected by Islamist terrorism, ahead of Iraq and Somalia. Within the European Union, France was the country most affected, with at least 82 Islamist attacks and 332 deaths. We also show that the majority of Islamist attacks (89.5%) were in Muslim countries and that the victims were mainly Muslims, in the same proportions.” (Source: www.fondapol.org ; Islamist Attacks Around the World 1979 to 2021)

In other words, every American needs to be “Islamophobic.” We need to be aware that another Muslim could shoot us up in a grocery store or set a bomb off in a car in Times Square or kill people at a San Bernardino Christmas party or kill our soldiers in cold blood at Fort Hood, and another thousand violent situations.

Your responses to adding 20 million Muslims:

Carolyn from Nebraska said, “I have been frightened by Muslims ever since I first heard about them over 30 years ago. I did a lot of research about them! We cannot keep allowing them into our country!

“Thomas Jefferson and our founding fathers of this country had to finally give up and decide to get rid of them completely. They chased them all the way back to Tripoli. The Crusaders slaughtered them and chased them out of European countries even before there was an America.

“Well, look what has happened ever since Israel was forced to

give the Gaza strip to the Palestinians...nothing but instant heartache, suicide bombers, rocket attacks and troubles. You cannot allow even one of them into your country! No other country wants their refugees! And yet Obama, while he was in office, imported 10,000 Muslims into this country several times!

"We are doomed. We cannot get them to assimilate at all. Just in sheer numbers, they will be taking over the USA. How can we possibly get rid of them all now? They are already infiltrating all our public offices.

"Another thing that irritates me no end...SINCE WHEN IS IT OKAY TO FLY A FOREIGN FLAG ON AMERICAN SOIL??? Our own children are not allowed to even wear a t-shirt to school that has an American flag printed on it..."because it might offend someone!" Well, when I see Palestinian flags, Mexican flags, and illegal aliens marching into our country carrying Venezuelan and Honduras flags...THAT OFFENDS ME!

"Pardon my patriotism, but our flag means something to me! If you want to fly your Palestinian flags...GO BACK TO YOUR OWN COUNTRY AND DO IT TO YOUR HEARTS CONTENT!!! This is American soil, and your flag offends me!"

Ken, Mabank, TX said, "Can you name ANY part or department of the federal government that uses common sense & follows the United States Constitution? Tyranny & treason go hand in hand with these reprobates! NONE of them in DC are worth a \$1. ANY of us out here knew Muslims coming to the U.S. was dead wrong! We all know Obama was an impostor & illegal president."

Mark R. said, "Frosty, Good Morning!!! You are spot on in regard to Islam and Sharia. Ignorance and indifference are painful."

Jock from Penrose, CO said, "I compliment you on having the balls to say what should be on the lips of all the citizens

that want this country to remain America and not turn into a Mideast sh*t hole. Good luck, most are too afraid to even discuss the subject. The total hate speech thing has scared many people into silence and the truth has left the building like Elvis. Evil will reign if the population refuses to wake up and the pastors of the Church are still silent and hiding behind their pulpit's."

Richard R. said, "We goyim as we're called, have already lost our country, Frosty. So, I guess the question to ask: would life be better under Islam or the one world globalism concept? I want neither.

"History has shown that these people always cause grief to the nations that hosted them."

Richard T. said, "A slow, and gradual invasion of our country is taking place, and not just from Muslims. It would be interesting to see how all the south of the border types would interact with all the Muslims when the day comes...and it is coming."

Dear fellow American, I could copy another 20 comments, but have run out of space. Our country stands eyeball-deep in trouble. I don't think our feckless politicians have the guts to stop it. At some point, it will boil down to what's happening to Sweden. They did it to themselves and our politicians are doing it to us.

"Ever since the religion of Islam appeared in the world, the espousers of it...have been as wolves to all other nations, rending and tearing all that fell into their merciless paws, and grinding them with their iron teeth; that numberless cities are raised from the foundation, and only their name remaining; that many countries, which were once as the garden of God, are now a desolate wilderness; and that so many once numerous and powerful nations are vanished from the earth! Such was, and is at this day, the rage, the fury, the revenge,

of these destroyers of humankind. Islam.” John Wesley
(1703-91)

How ugly do you think it’s going to get in the years ahead?
